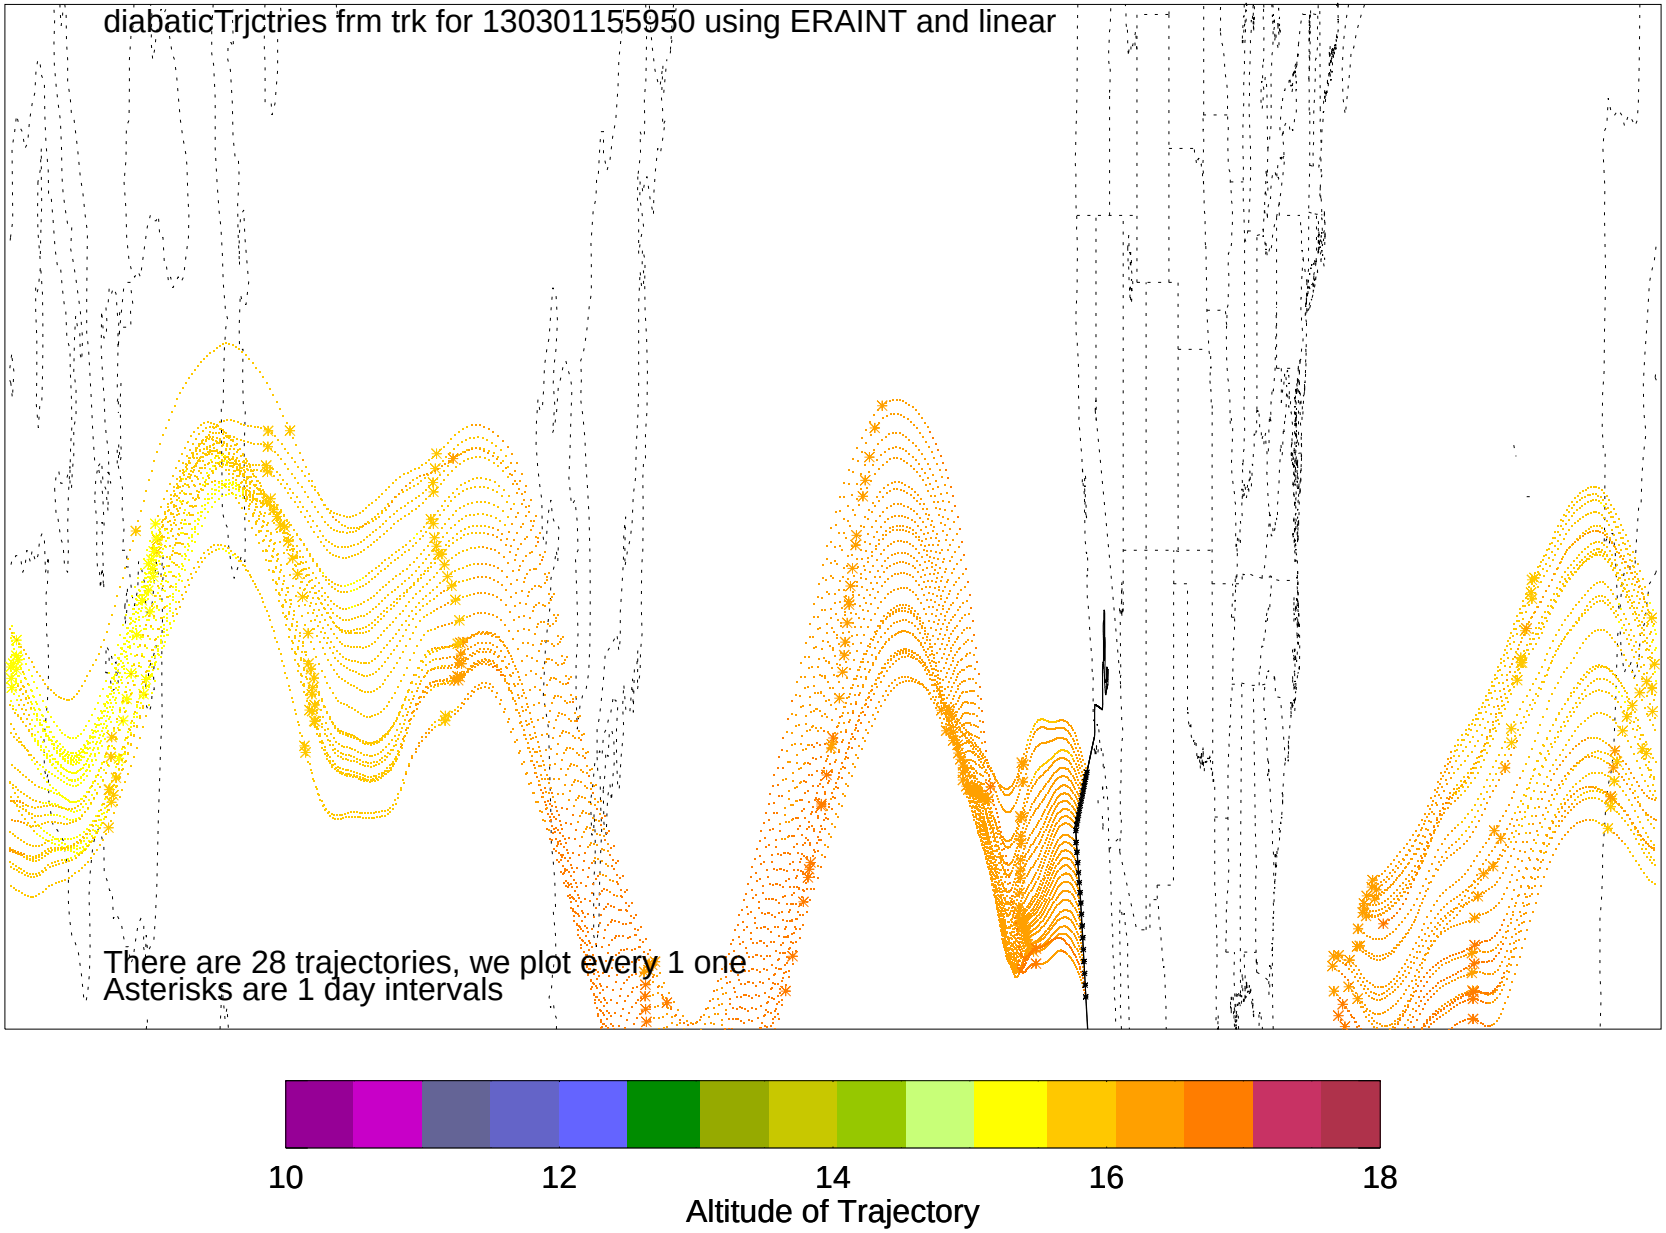
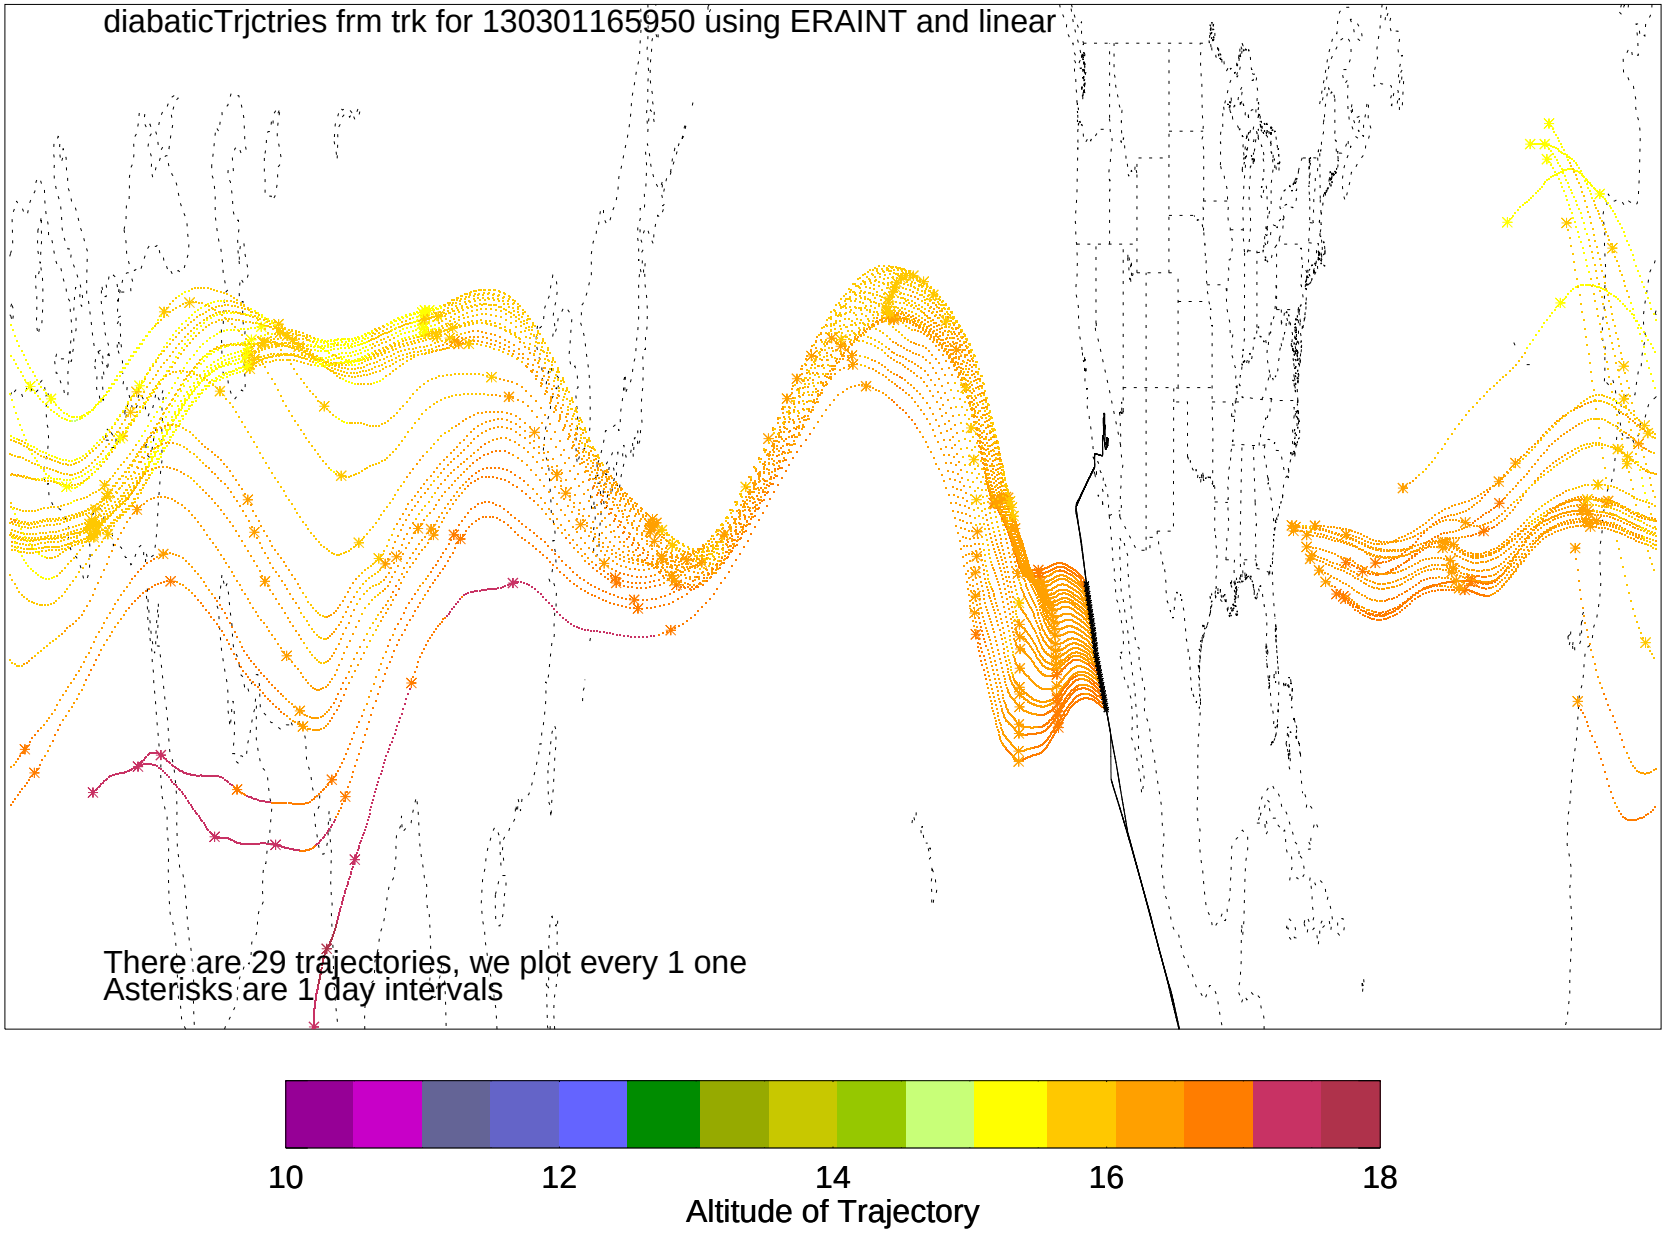
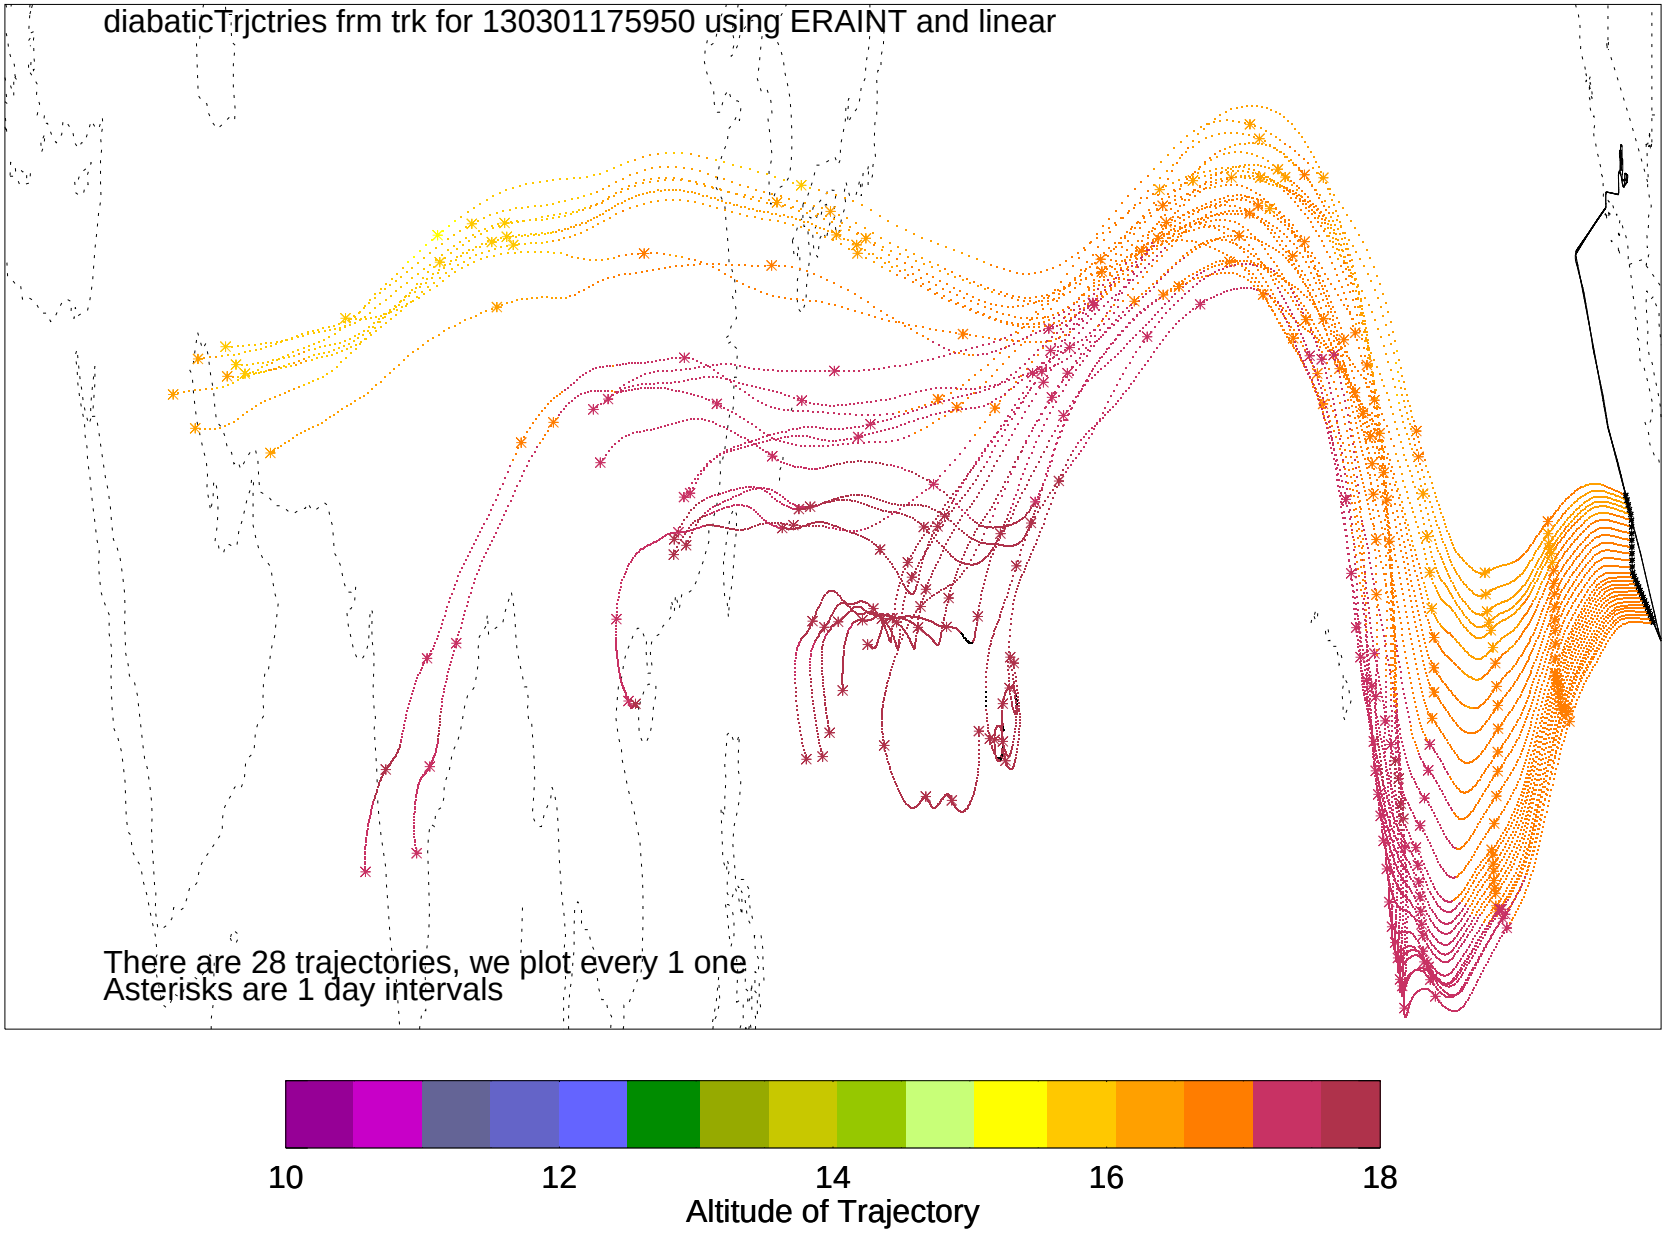
diabaticTrjctries frm trk for 130301145950 using ERAINT and linear
There are 44 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



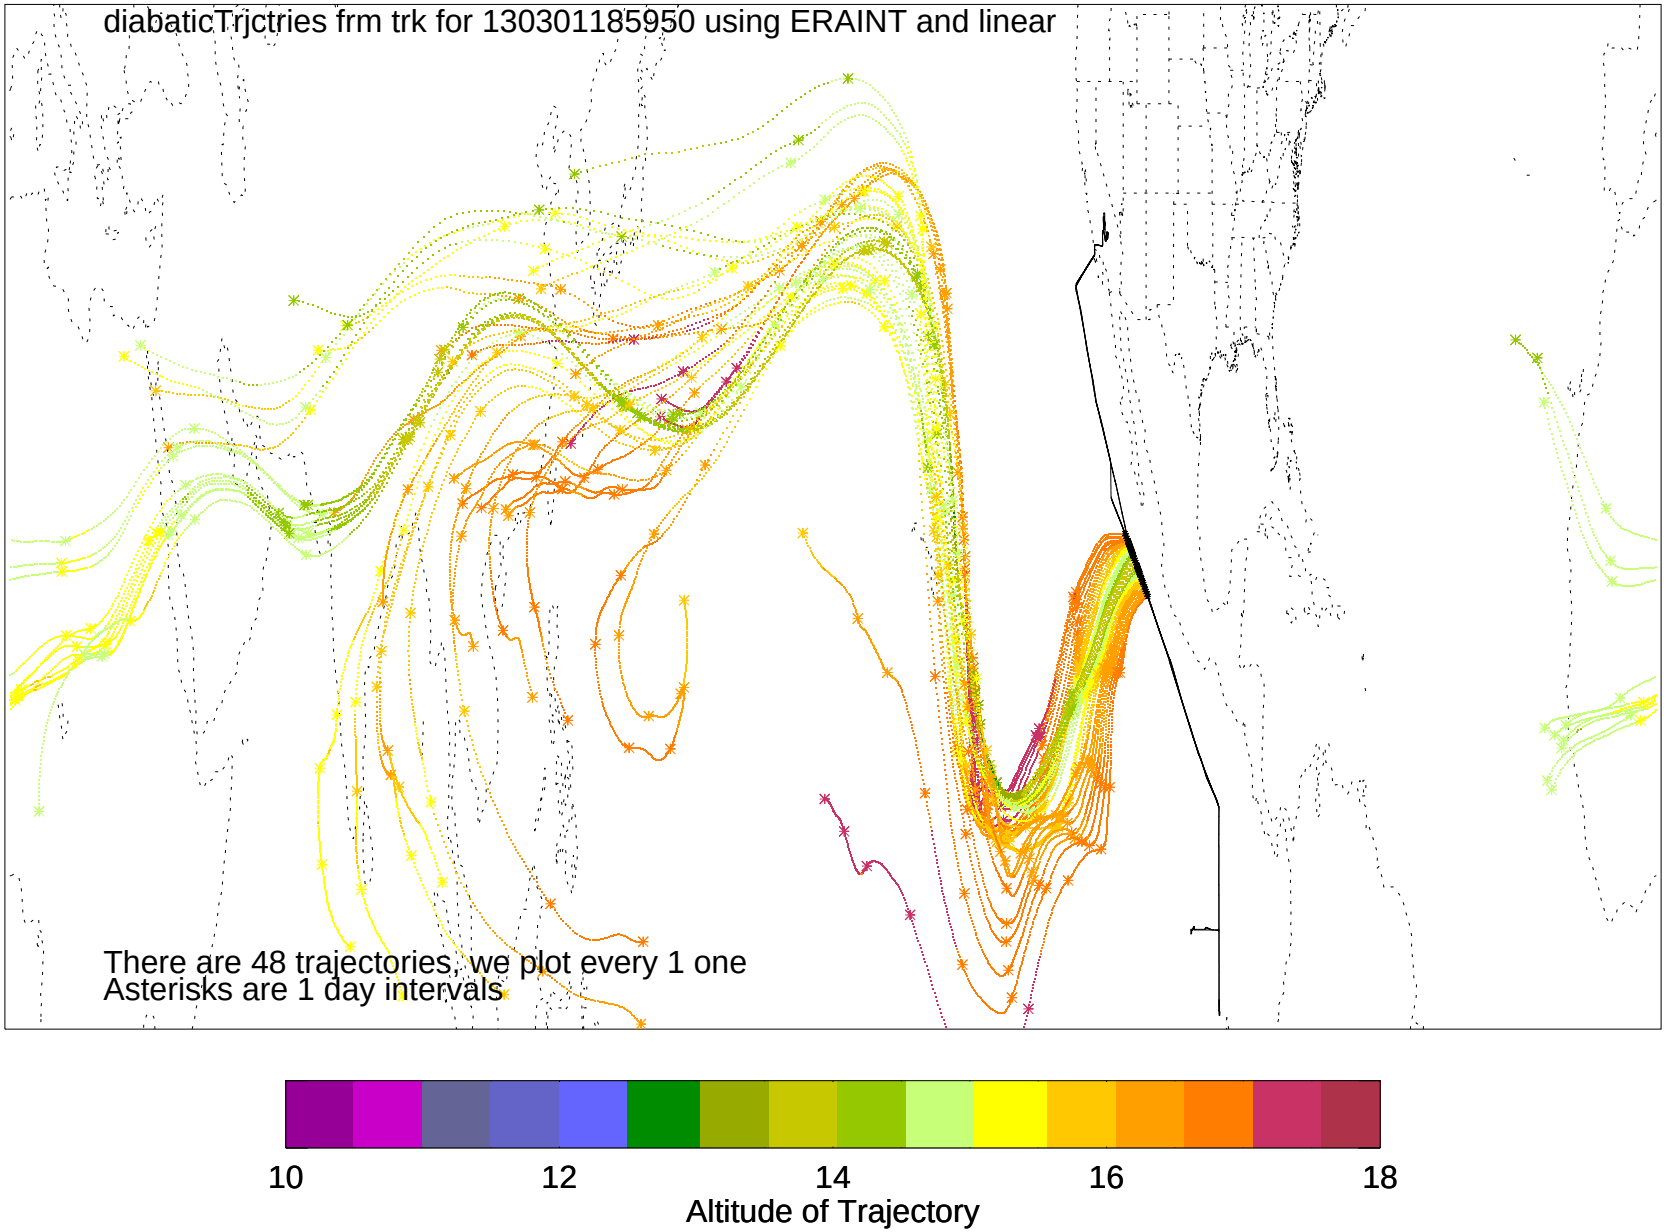
diabaticTrjctries frm trk for 130301155950 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



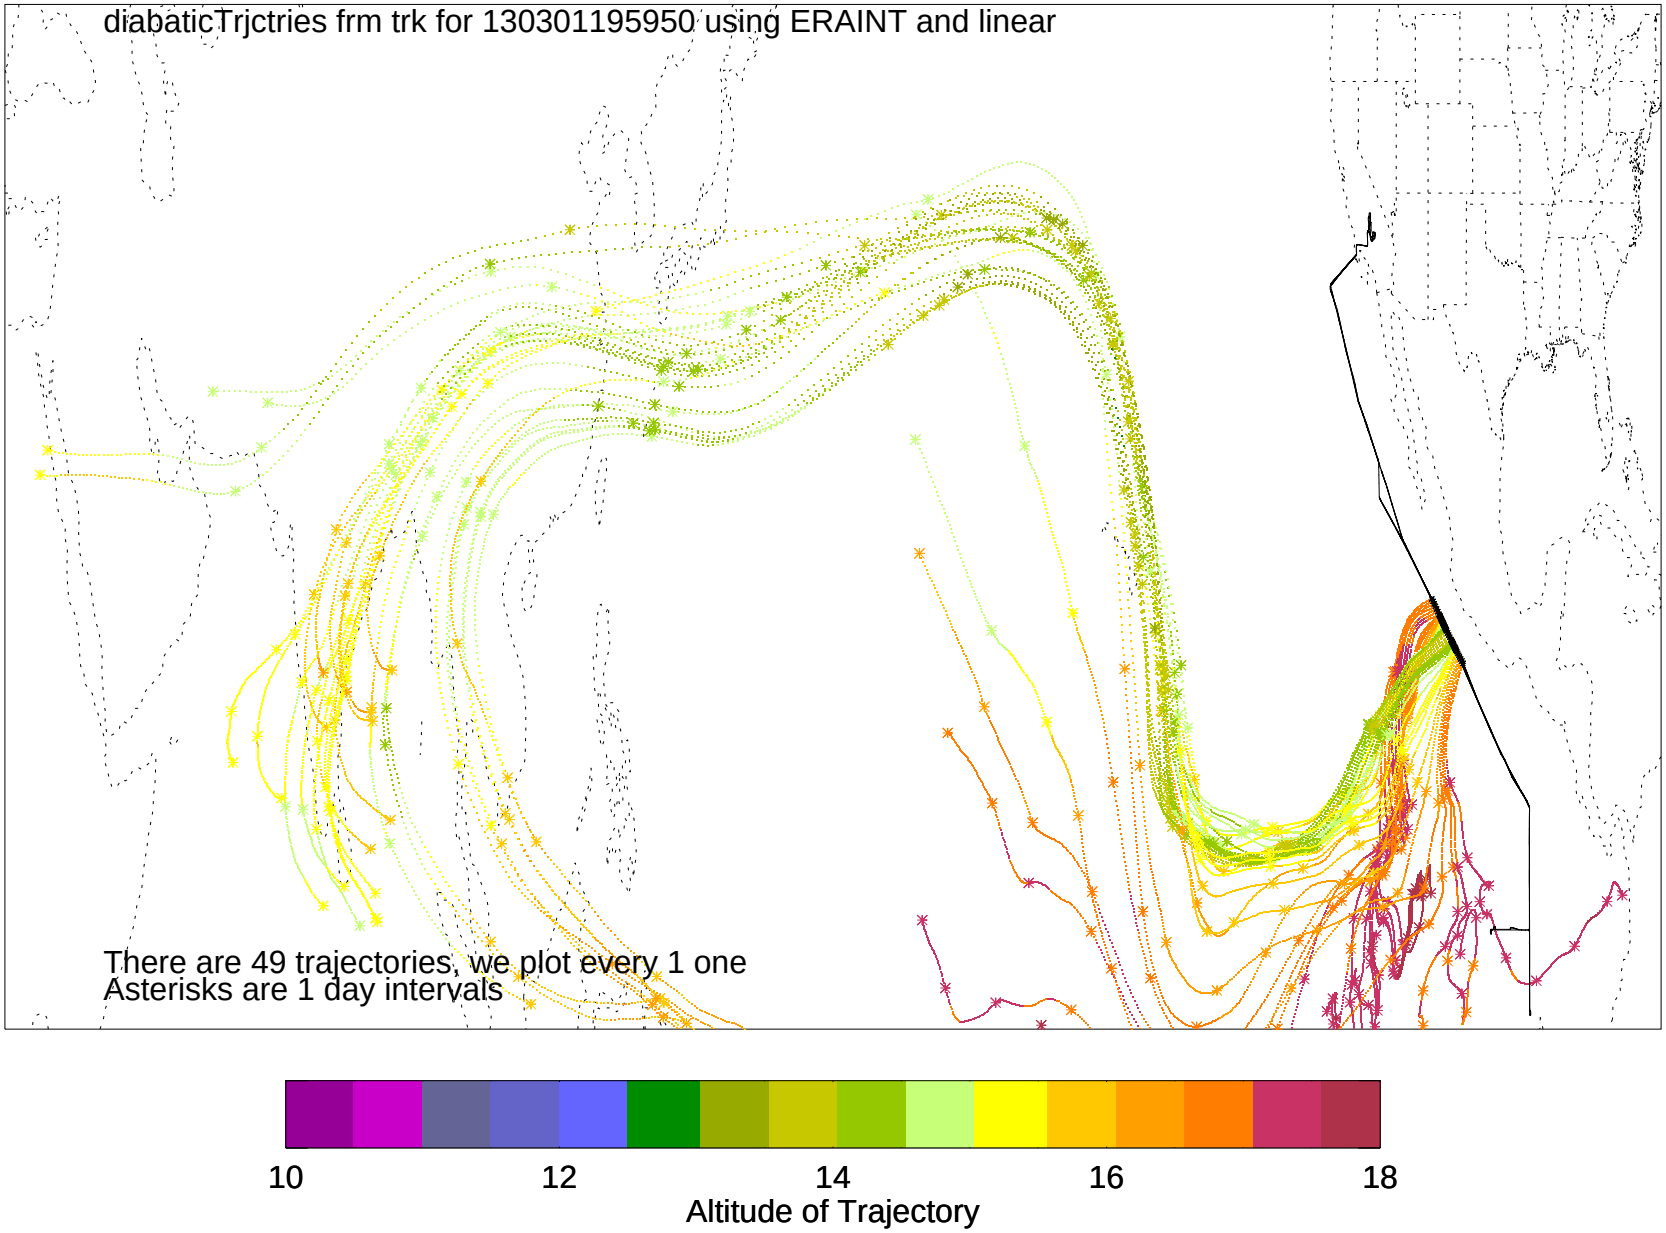
diabaticTrjctries frm trk for 130301165950 using ERAINT and linear
There are 29 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



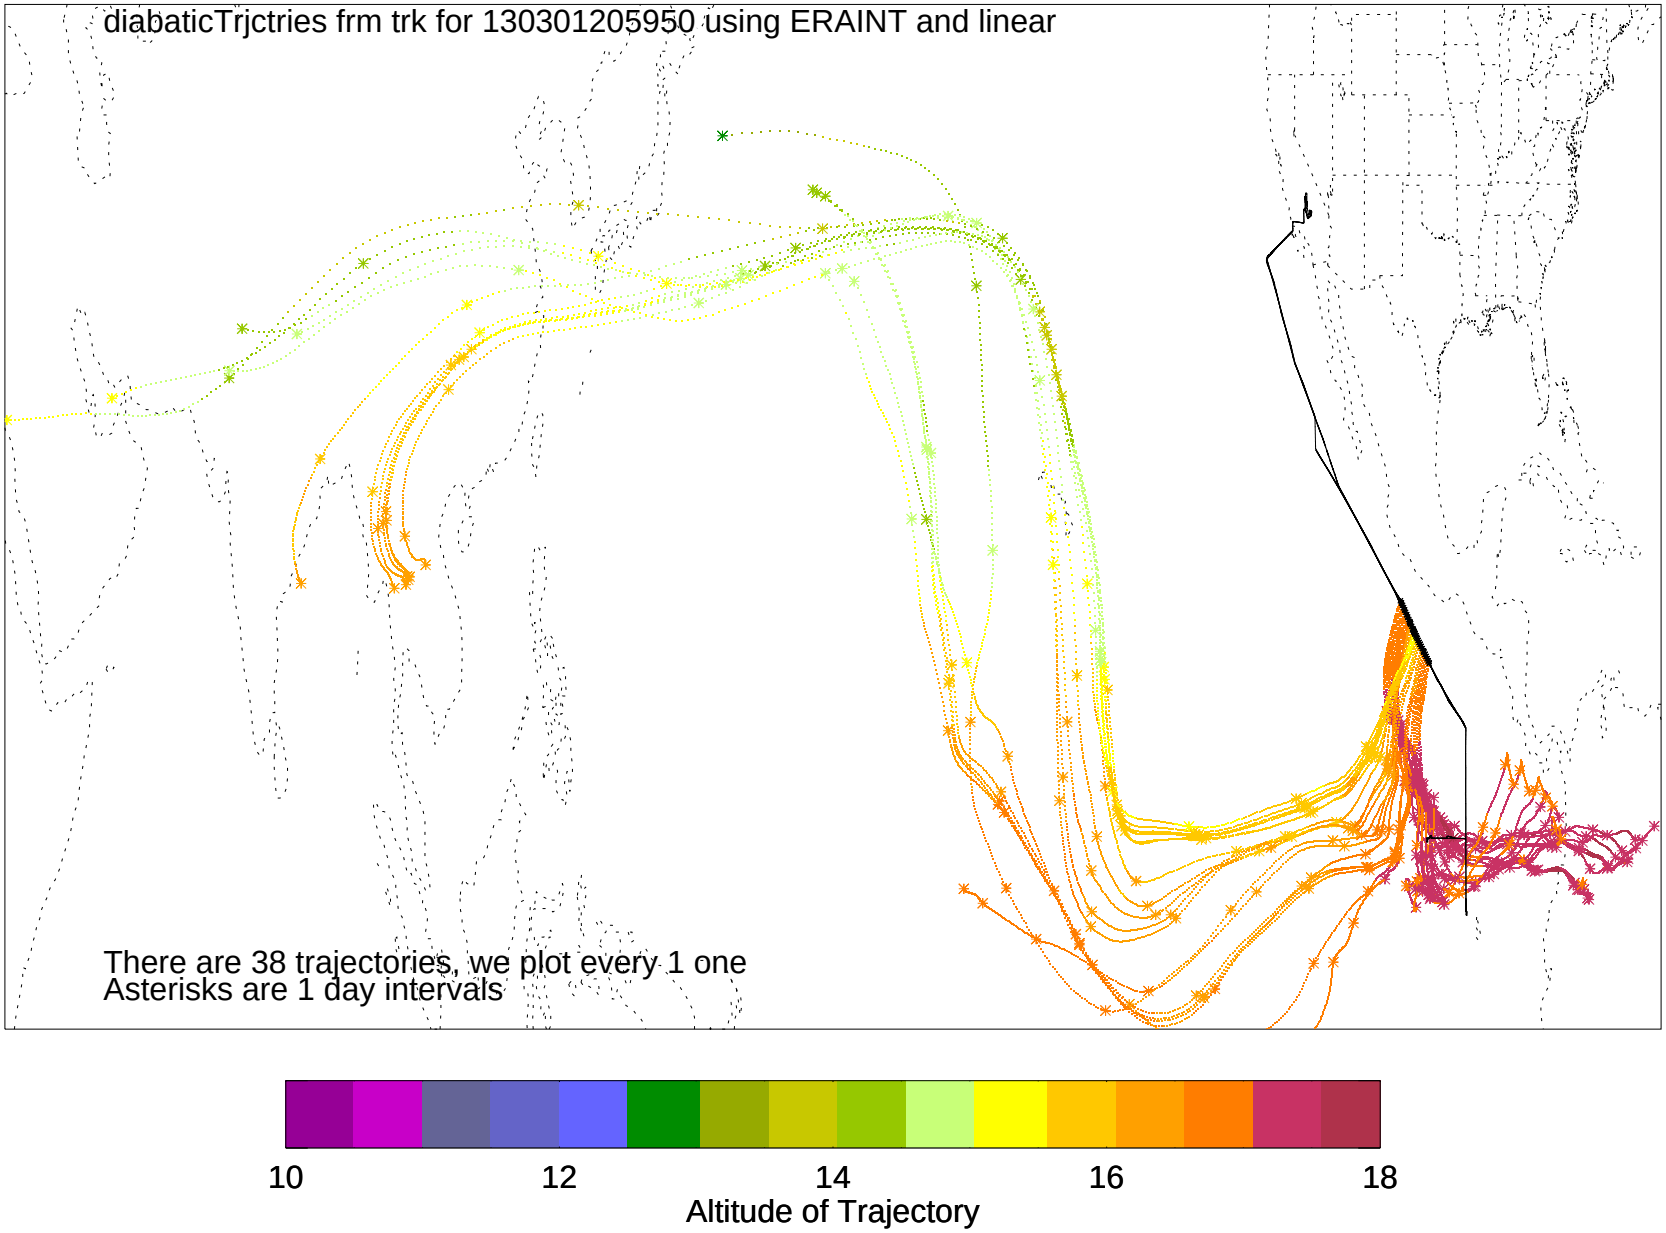
diabaticTrjctries frm trk for 130301175950 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



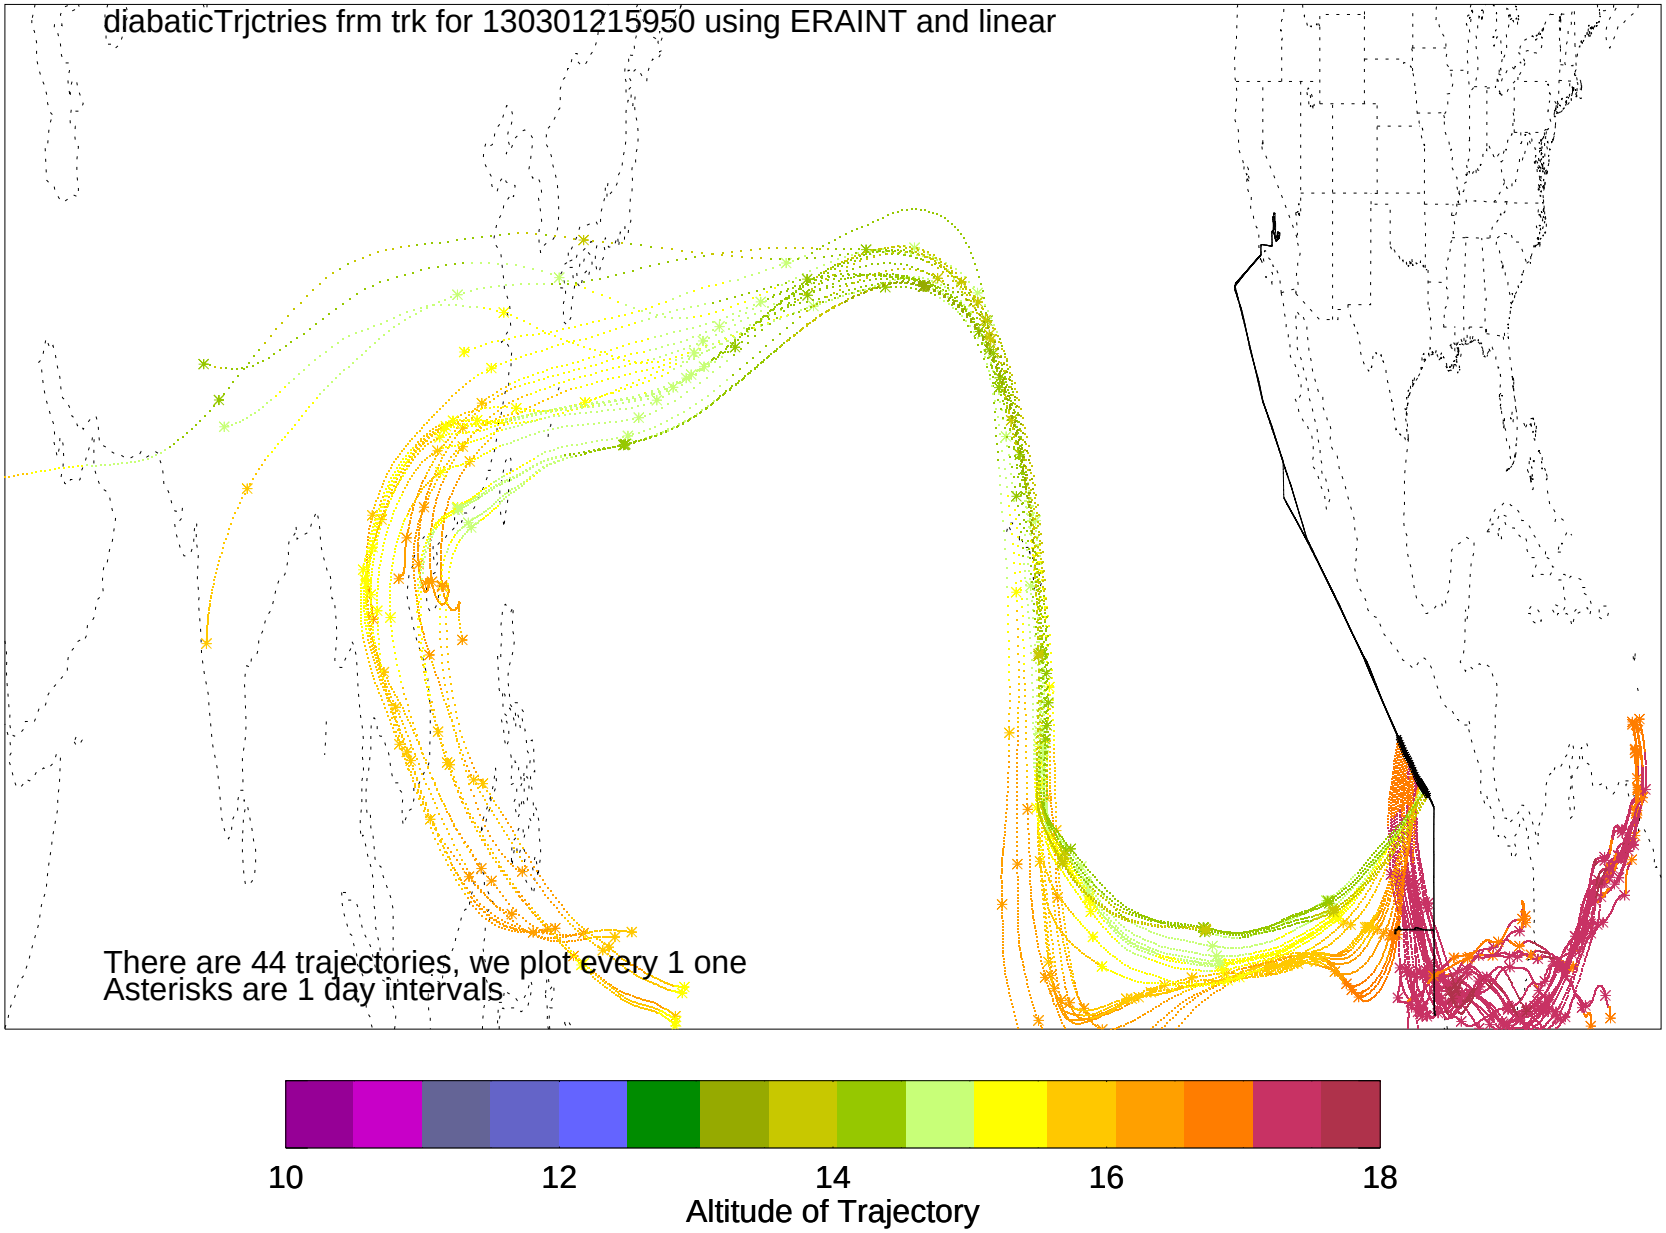
diabaticTrjctries frm trk for 130301185950 using ERAINT and linear
There are 48 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



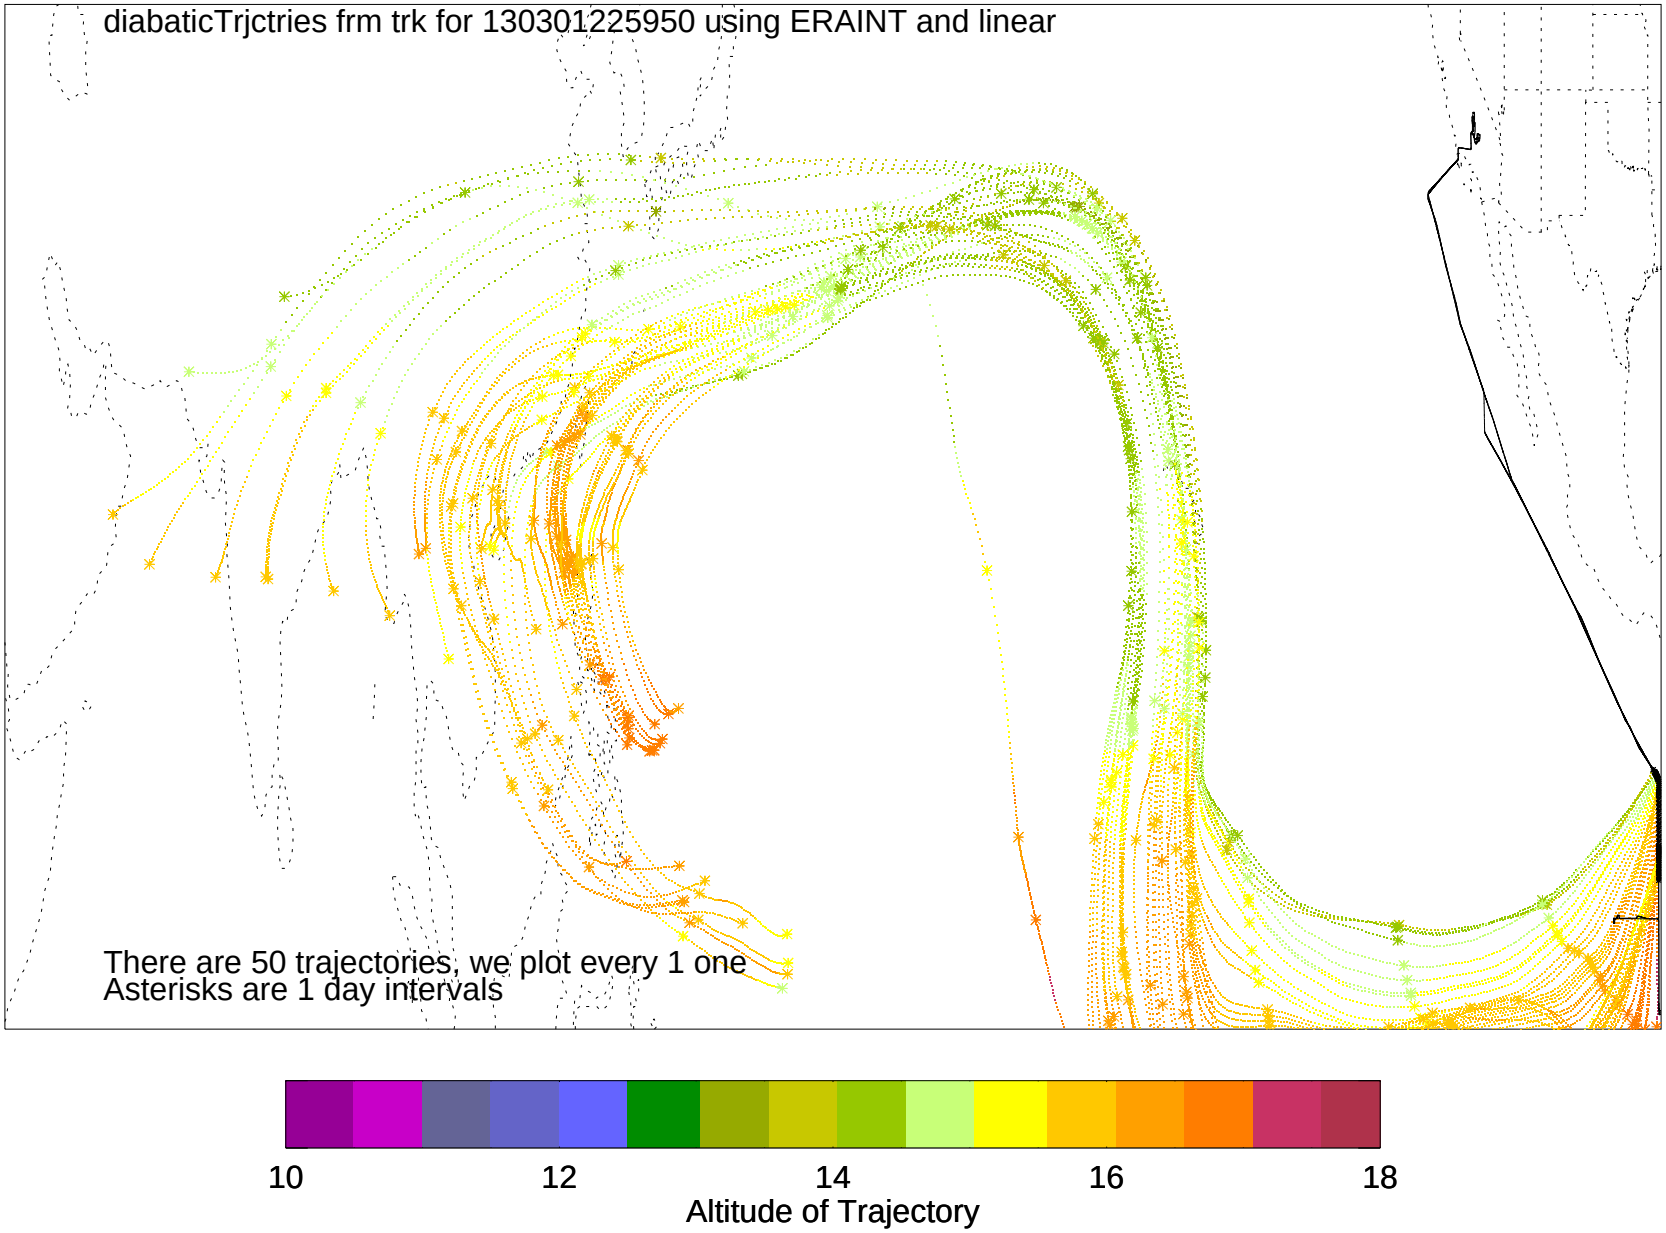
diabaticTrjctries frm trk for 130301195950 using ERAINT and linear
There are 49 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



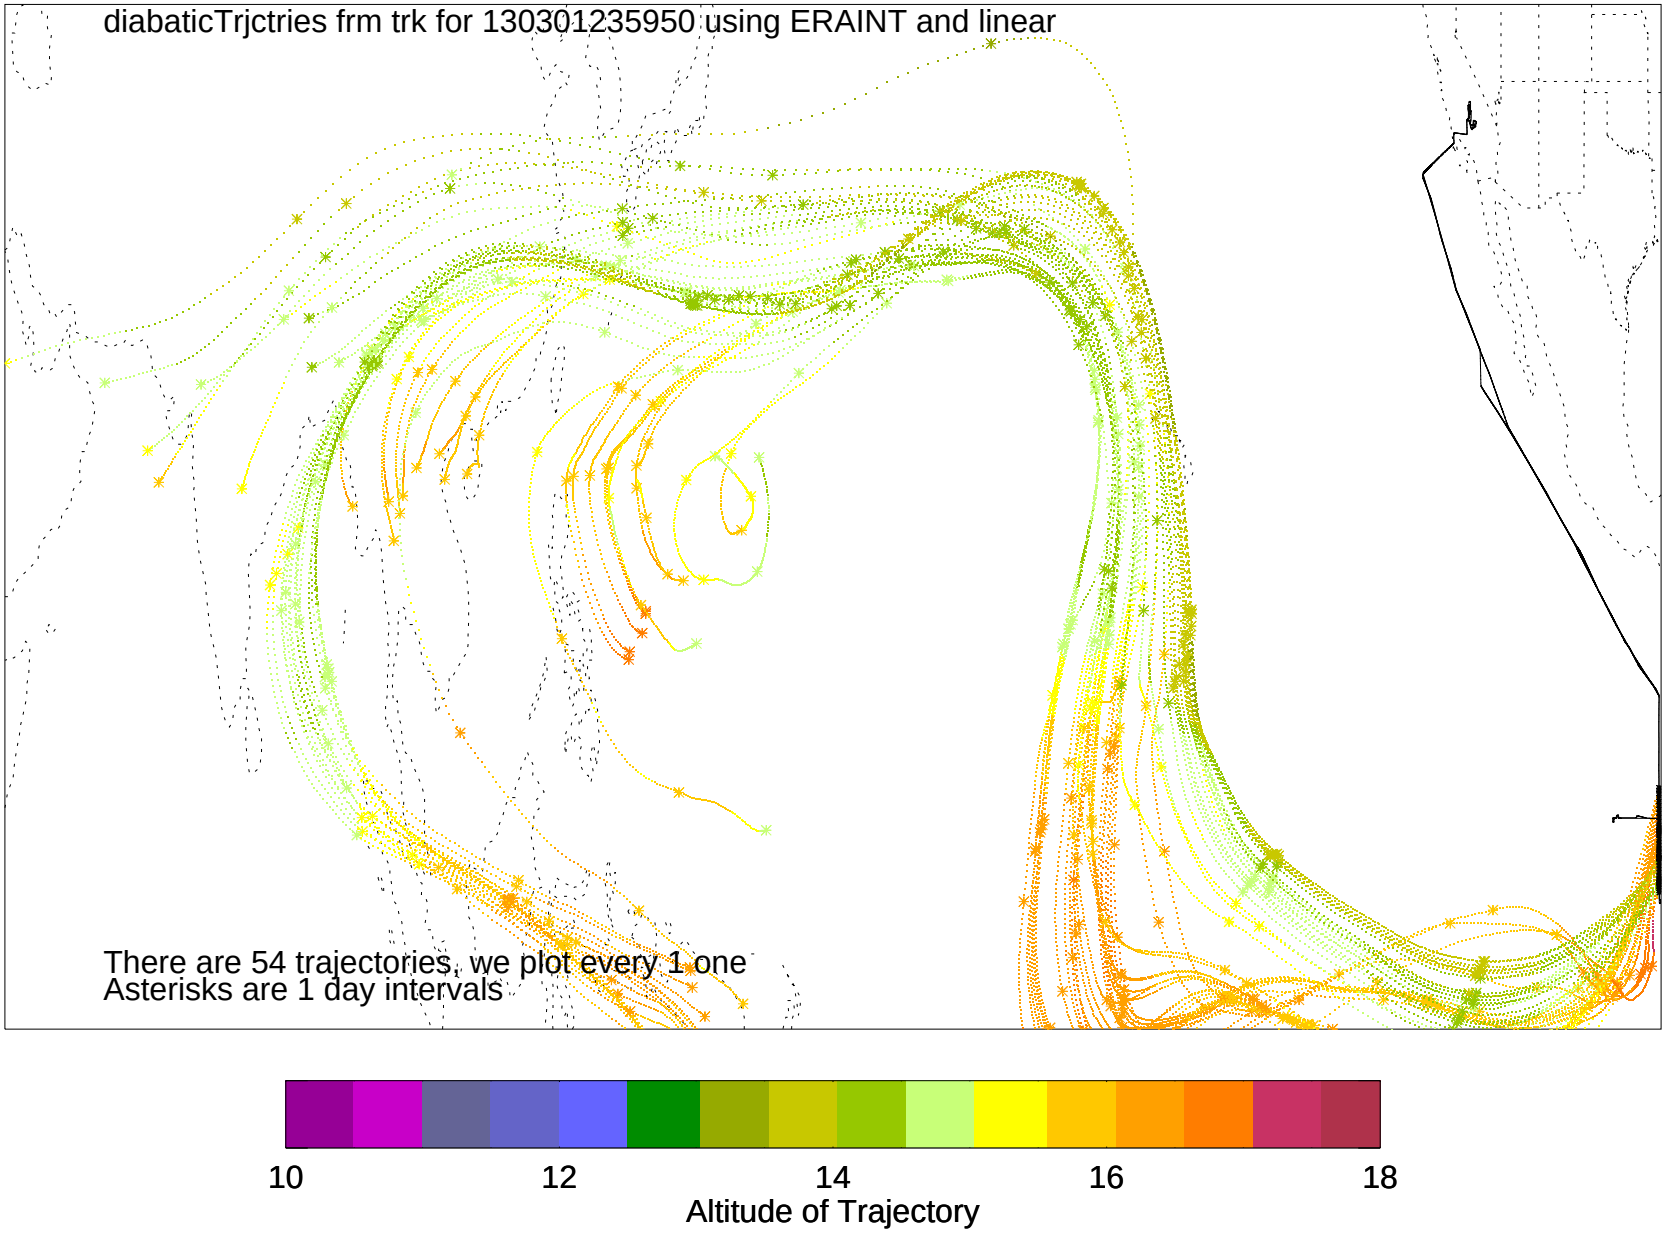
diabaticTrjctries frm trk for 130301205950 using ERAINT and linear
There are 38 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



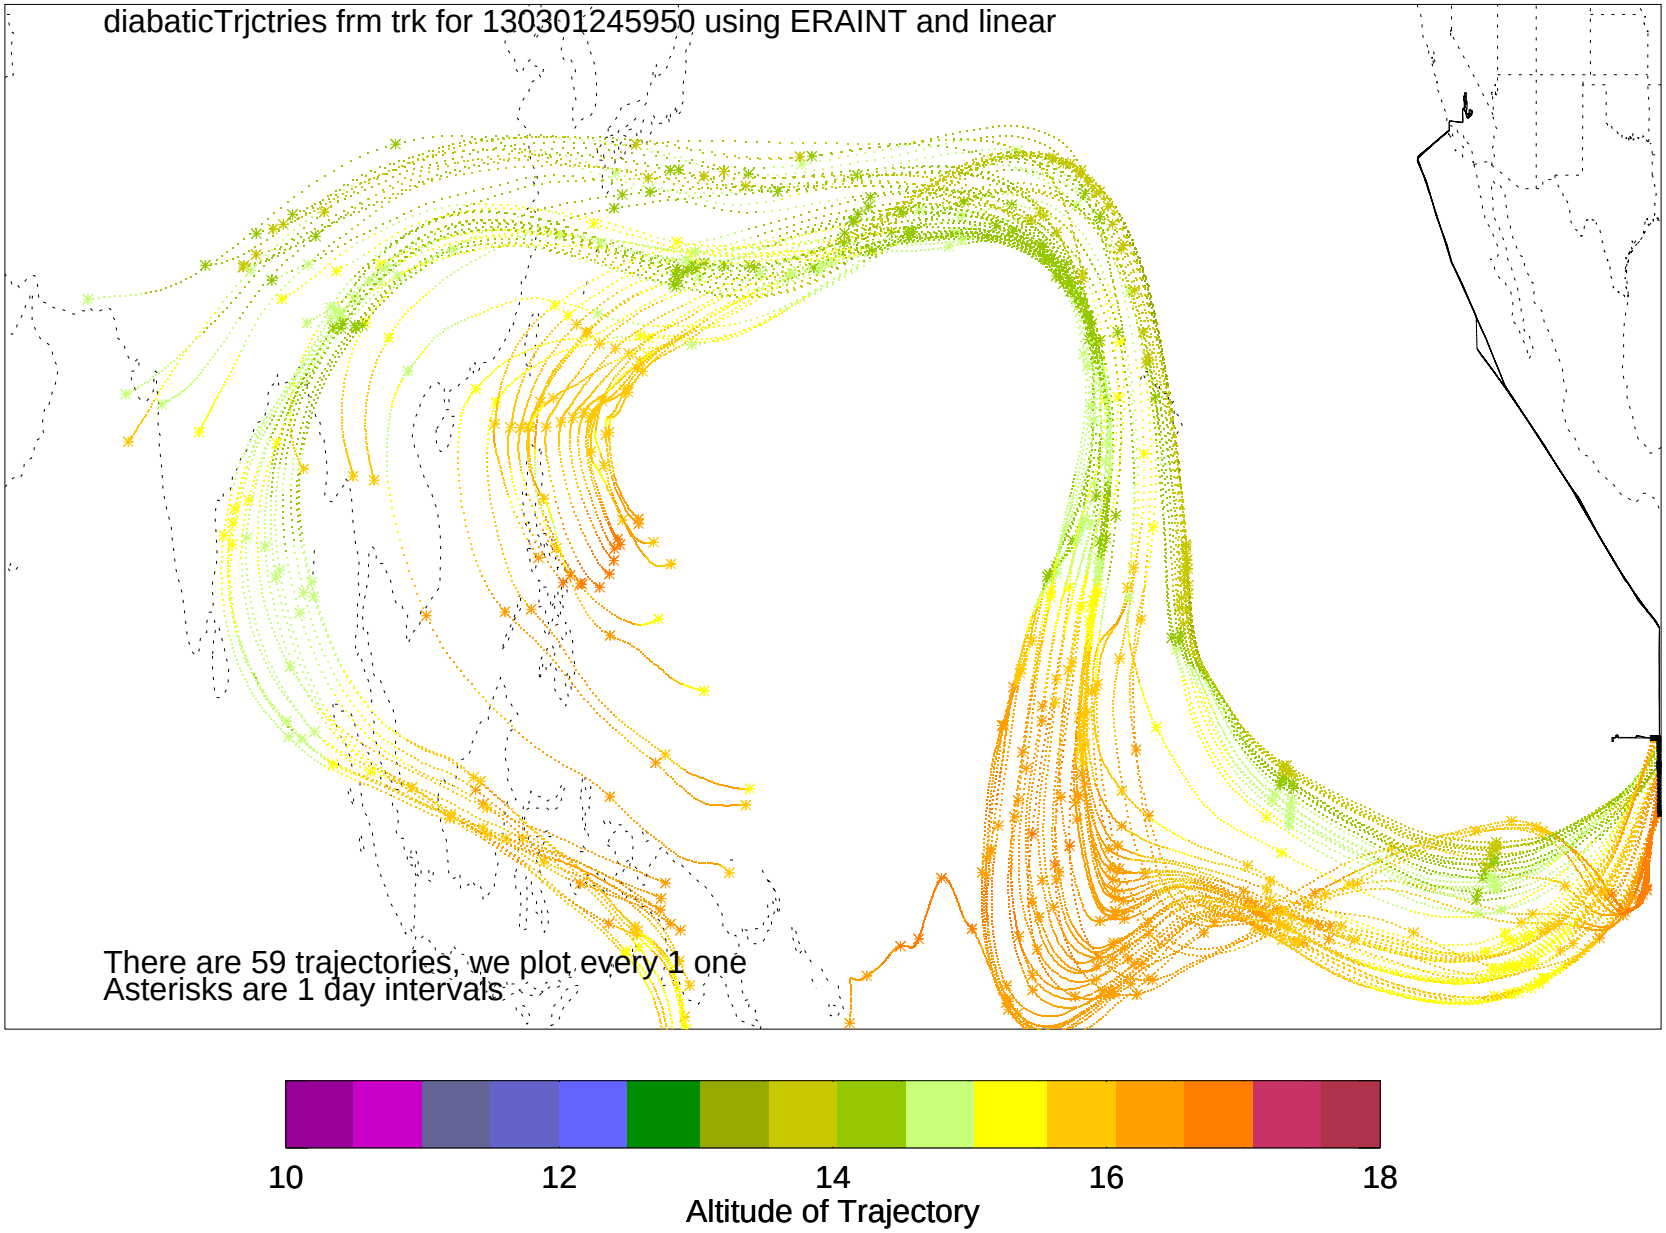
diabaticTrjctries frm trk for 130301215950 using ERAINT and linear
There are 44 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



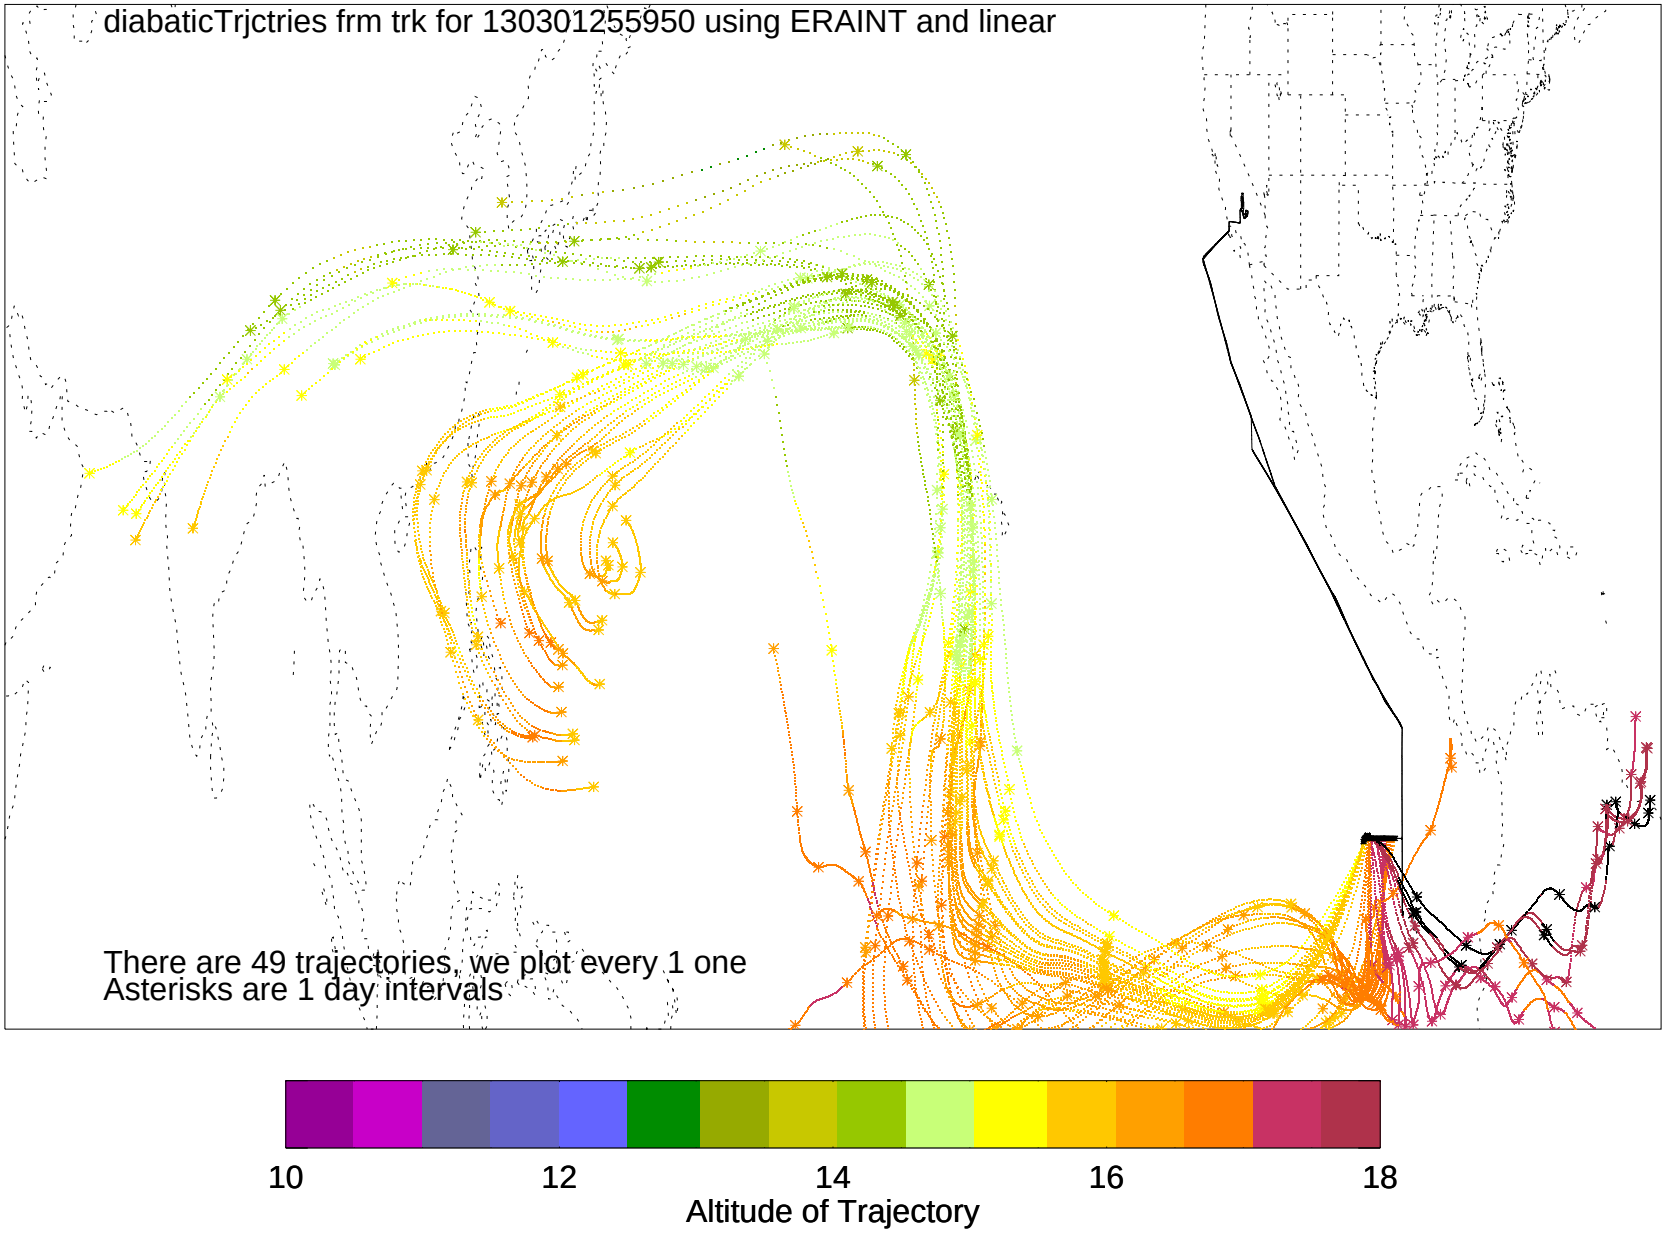
diabaticTrjctries frm trk for 130301225950 using ERAINT and linear
There are 50 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



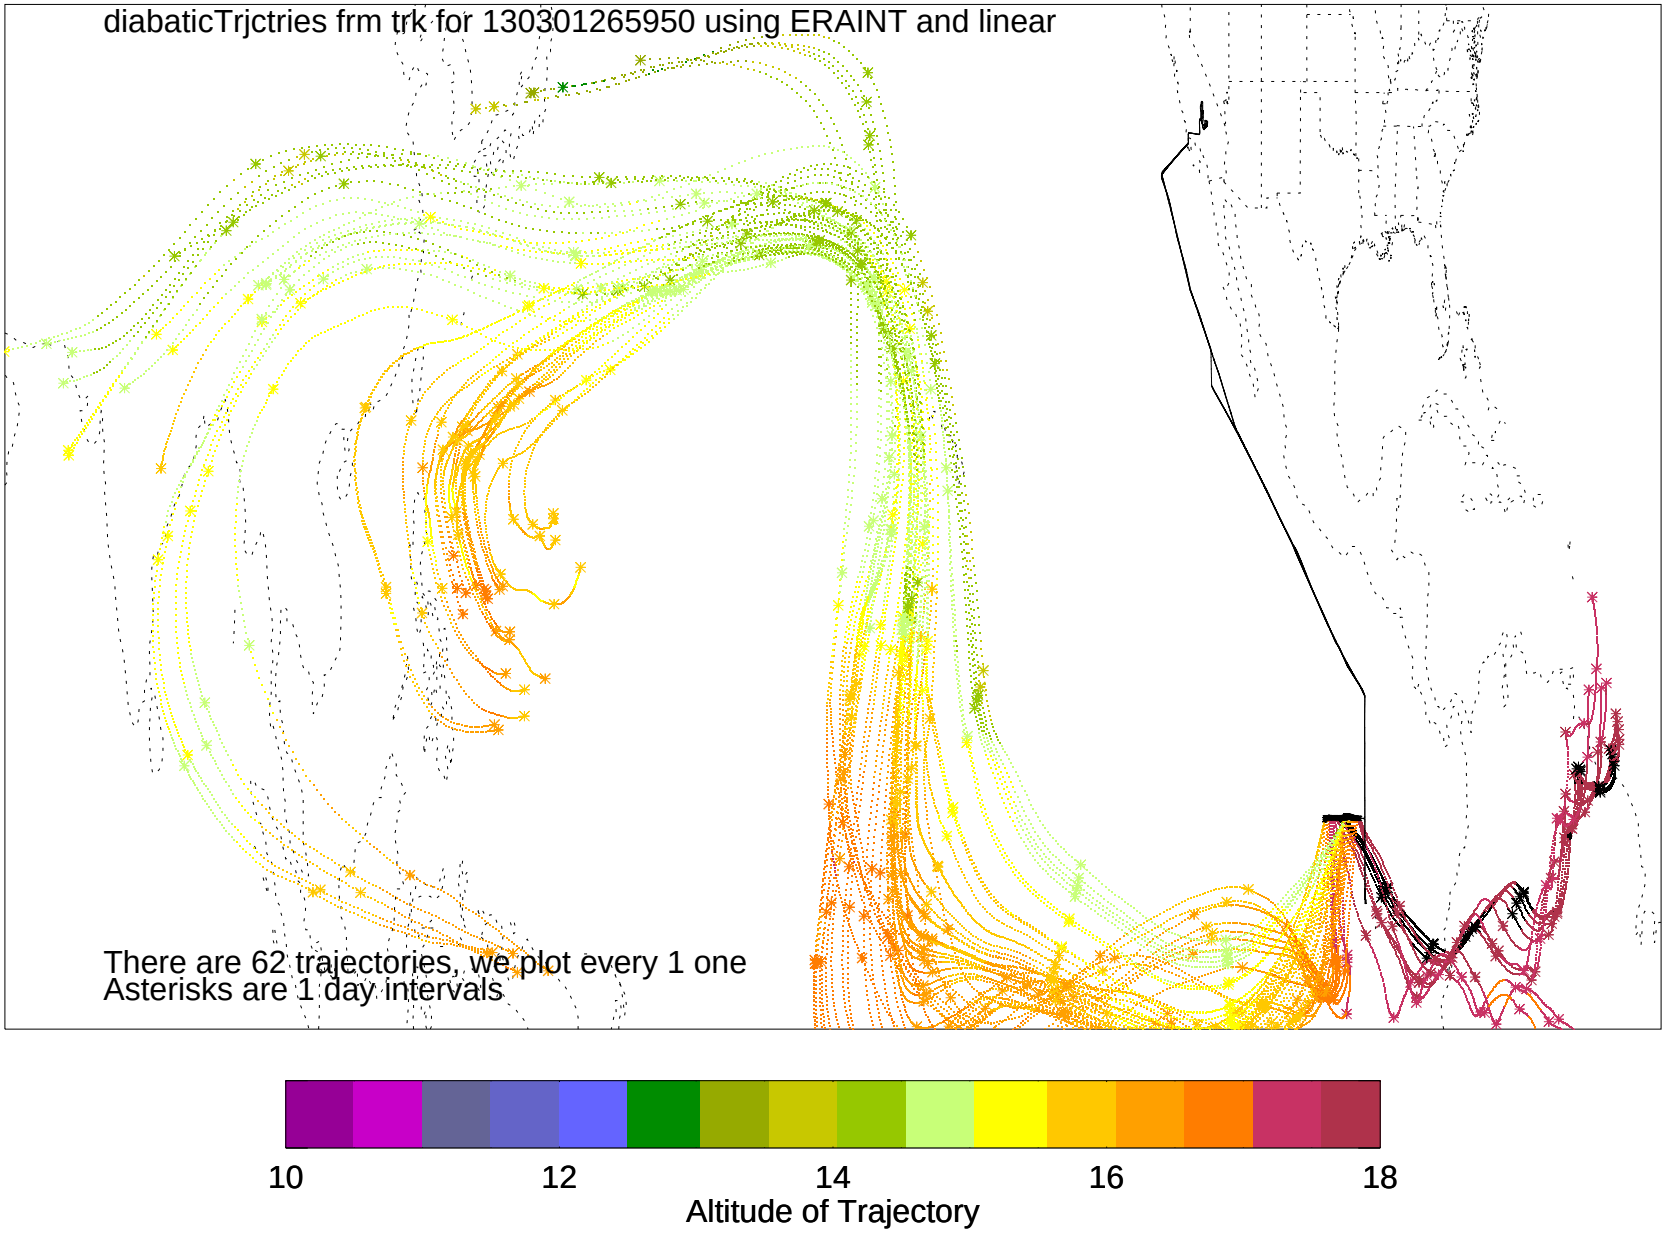
diabaticTrjctries frm trk for 130301235950 using ERAINT and linear
There are 54 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



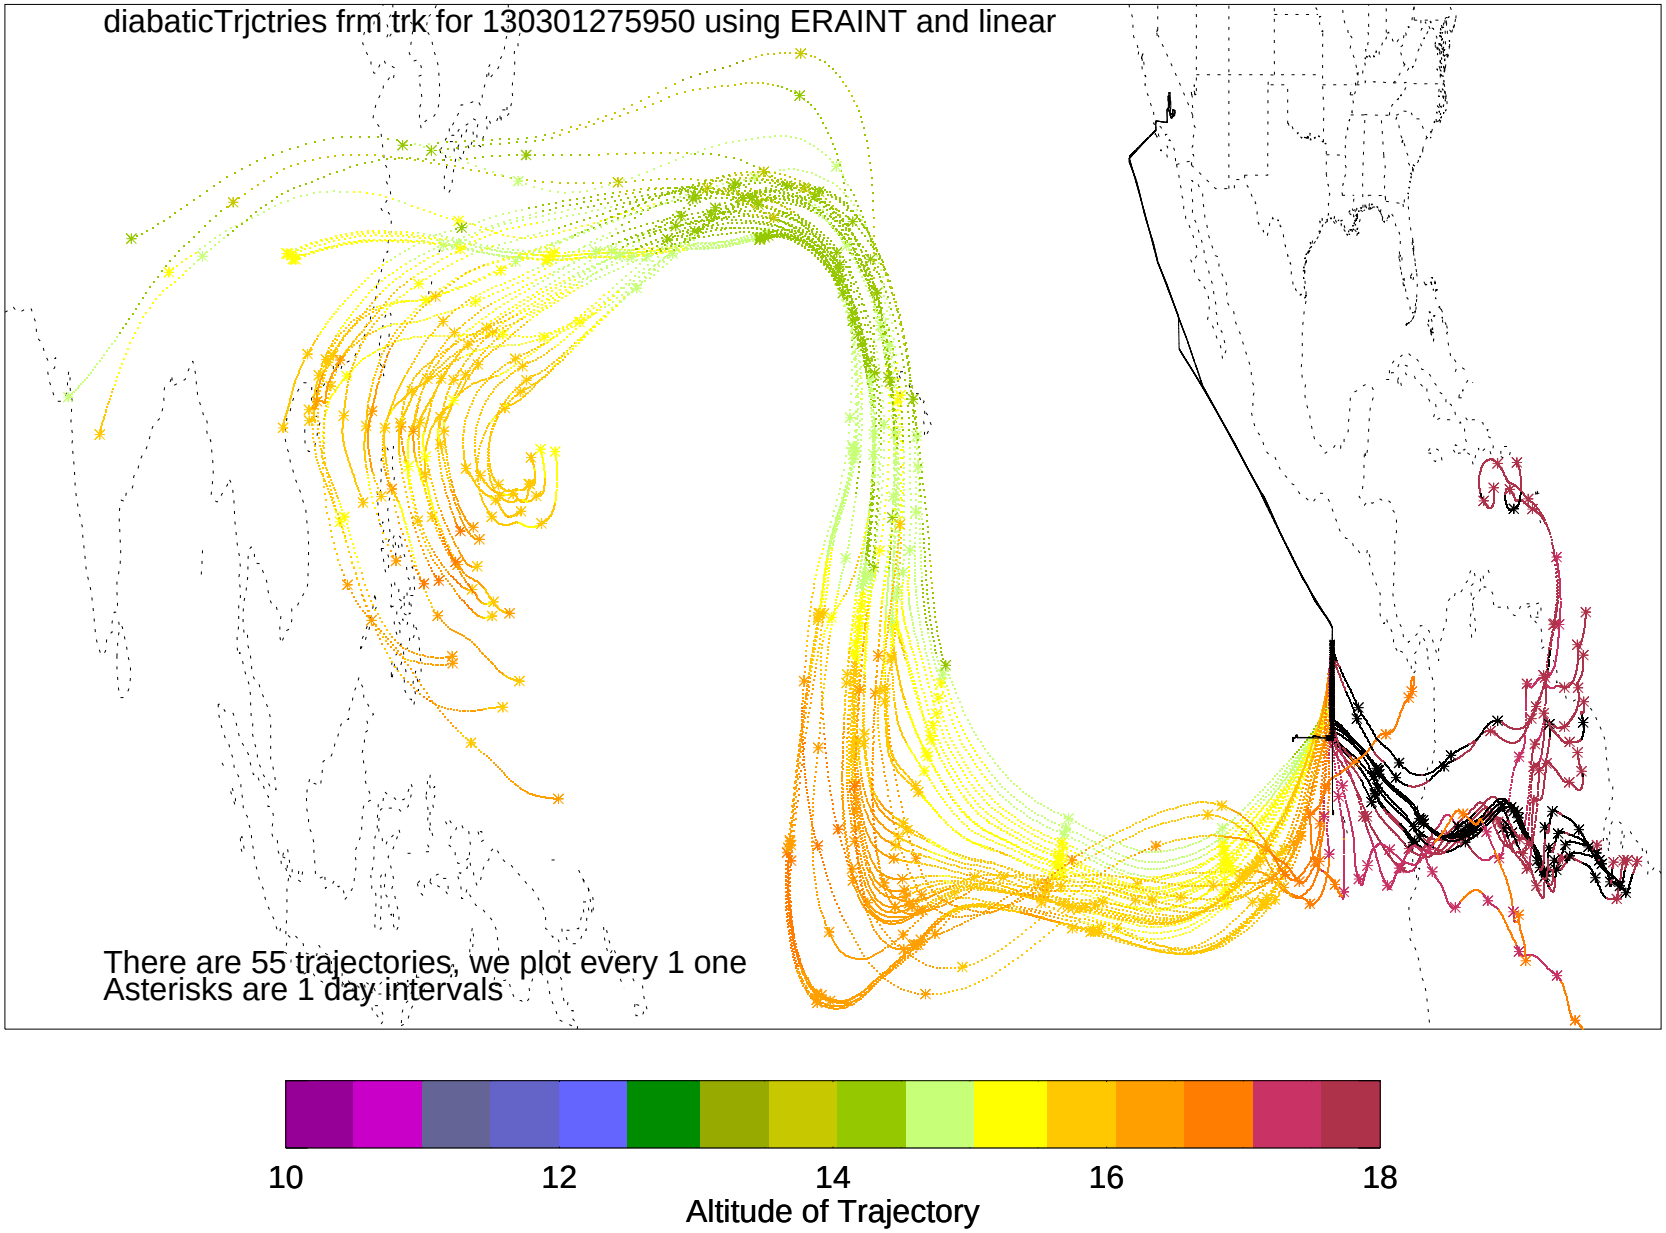
diabaticTrjctries frm trk for 130301245950 using ERAINT and linear
There are 59 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



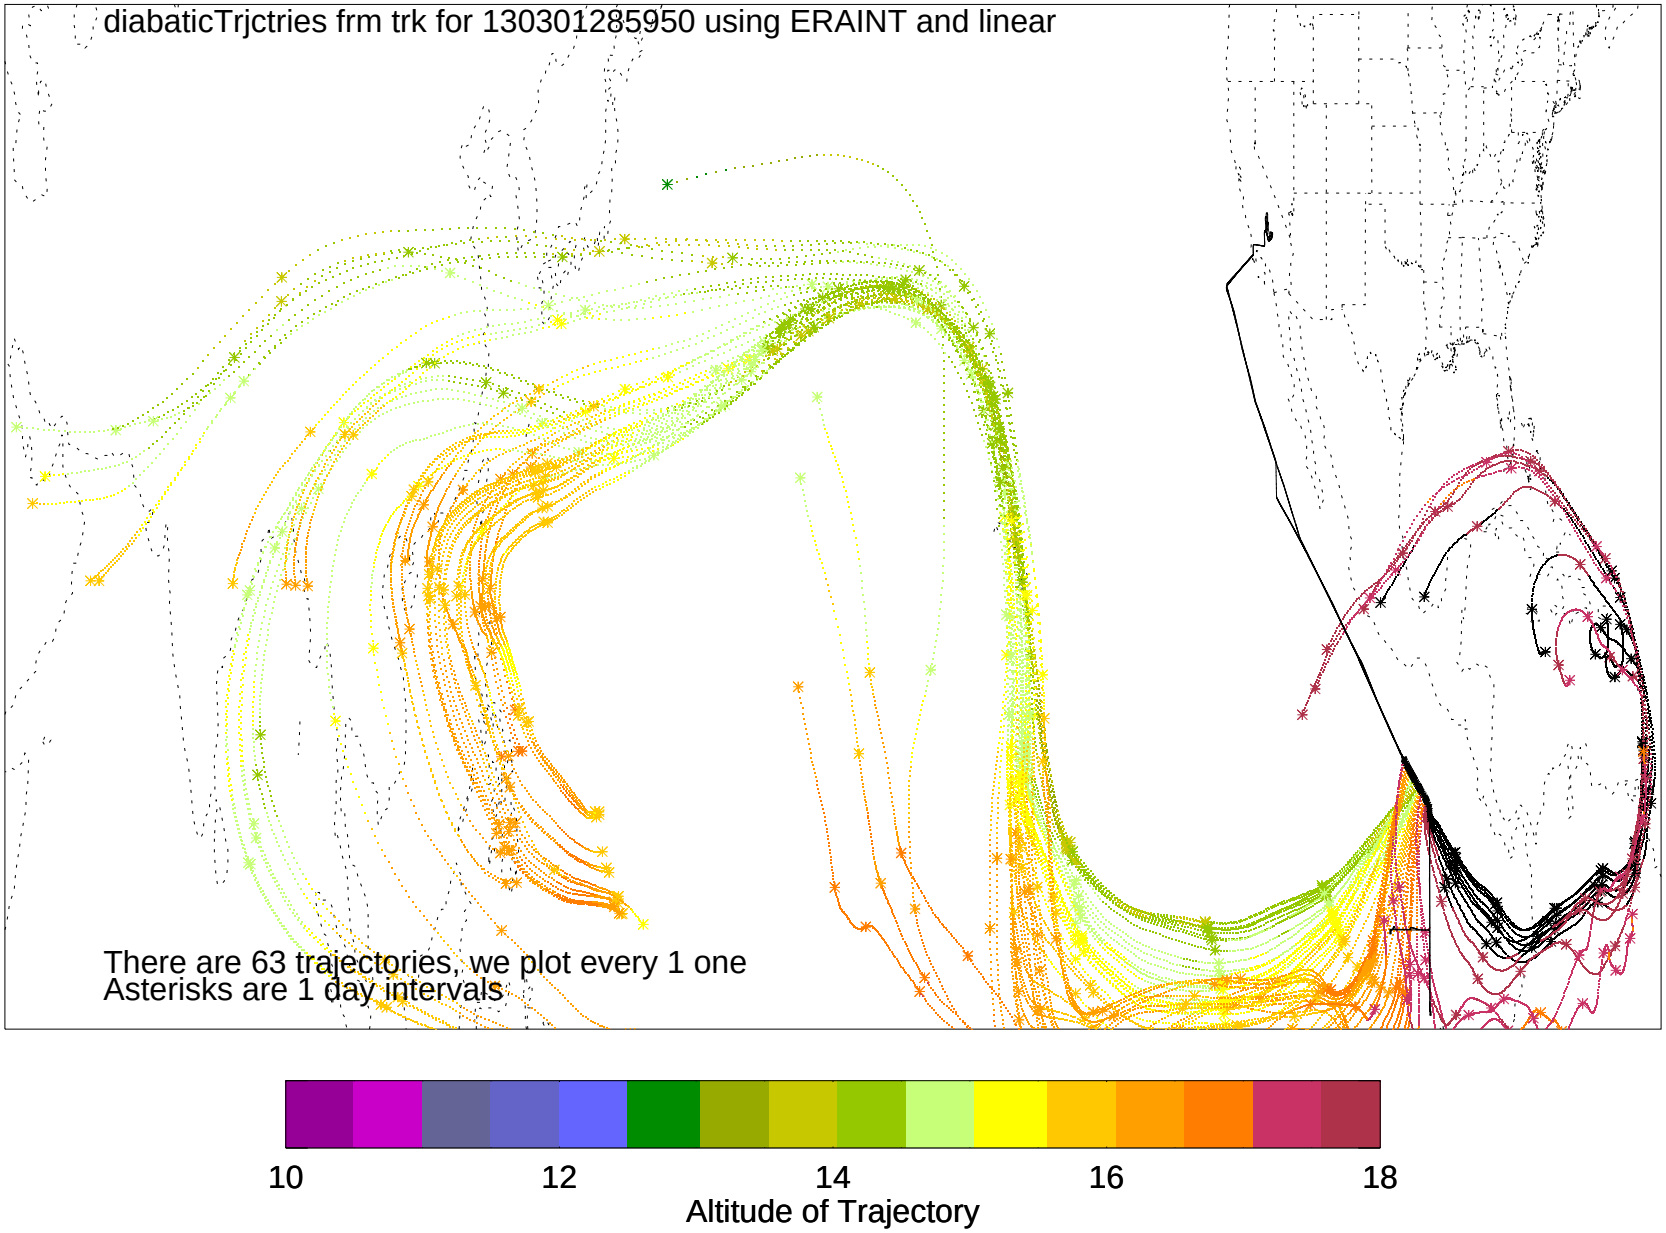
diabaticTrjctries frm trk for 130301255950 using ERAINT and linear
There are 49 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



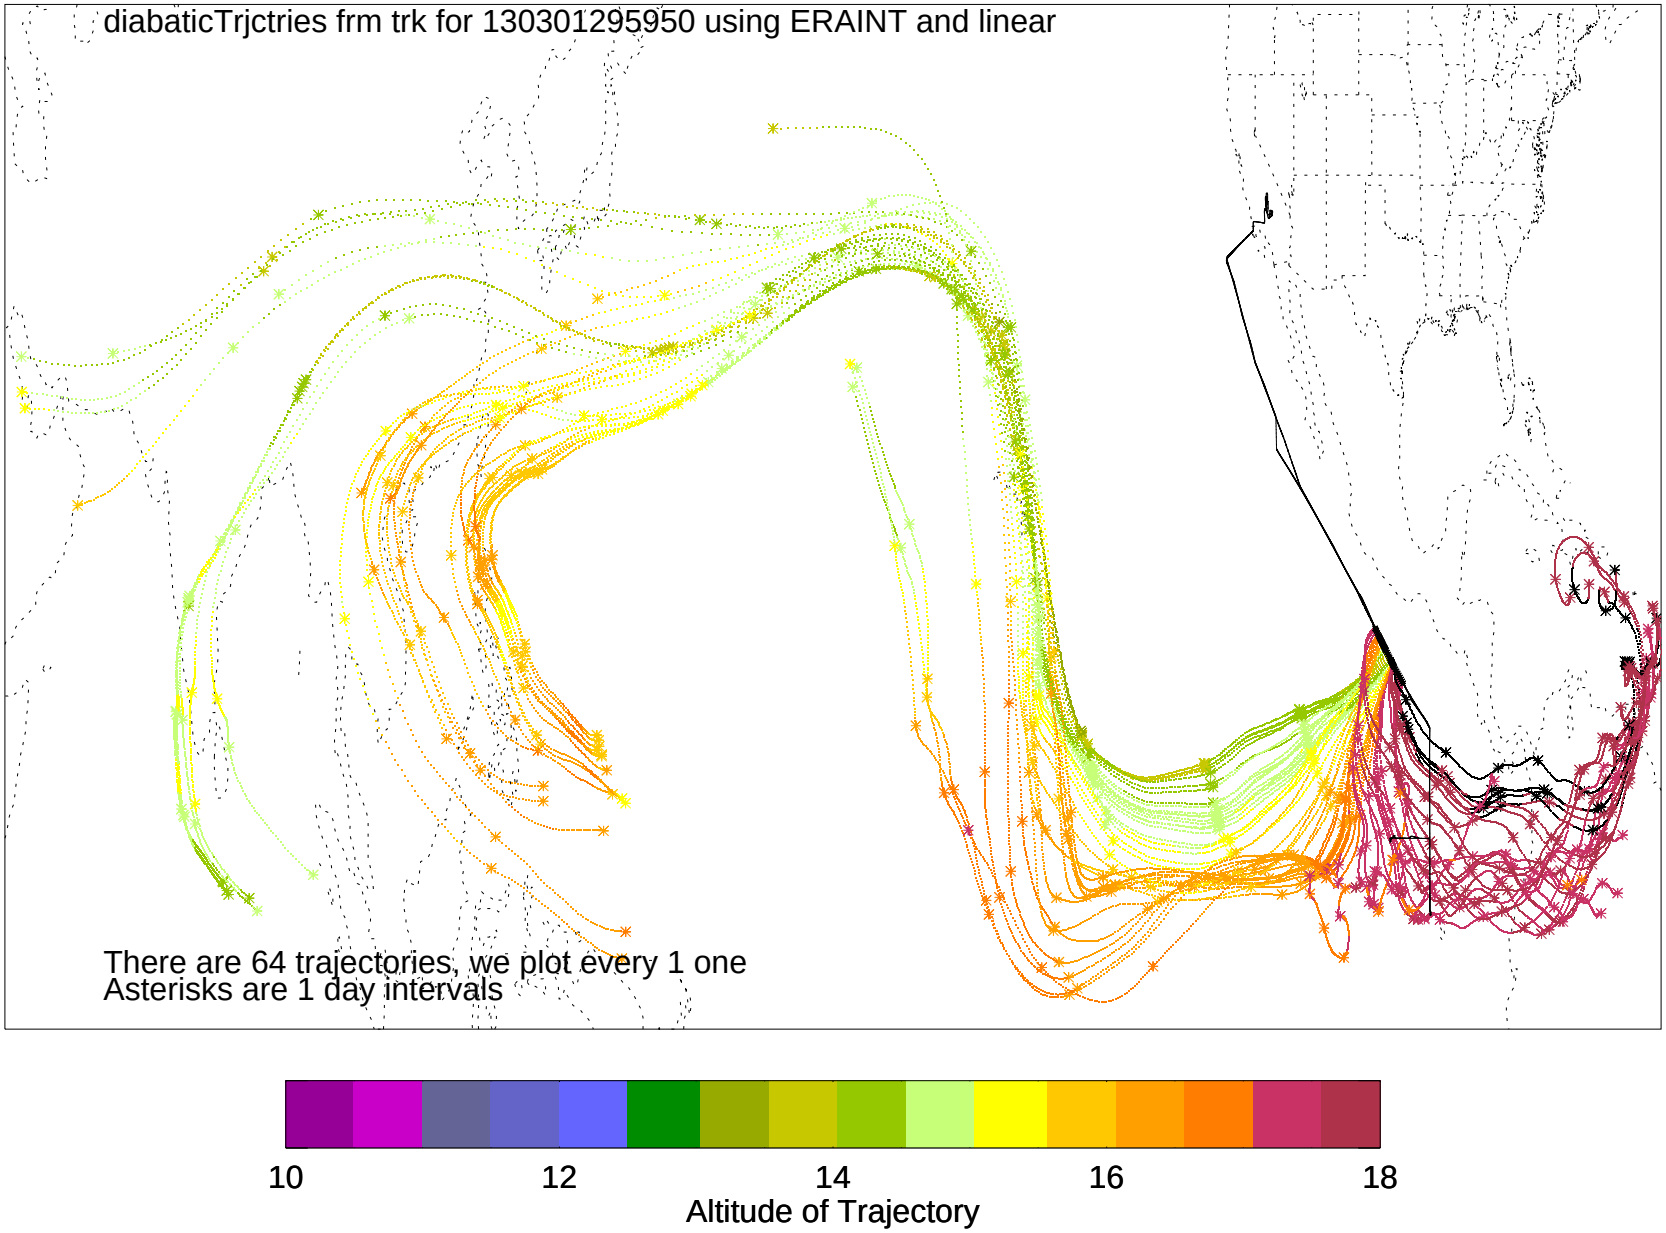
diabaticTrjctries frm trk for 130301265950 using ERAINT and linear
There are 62 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



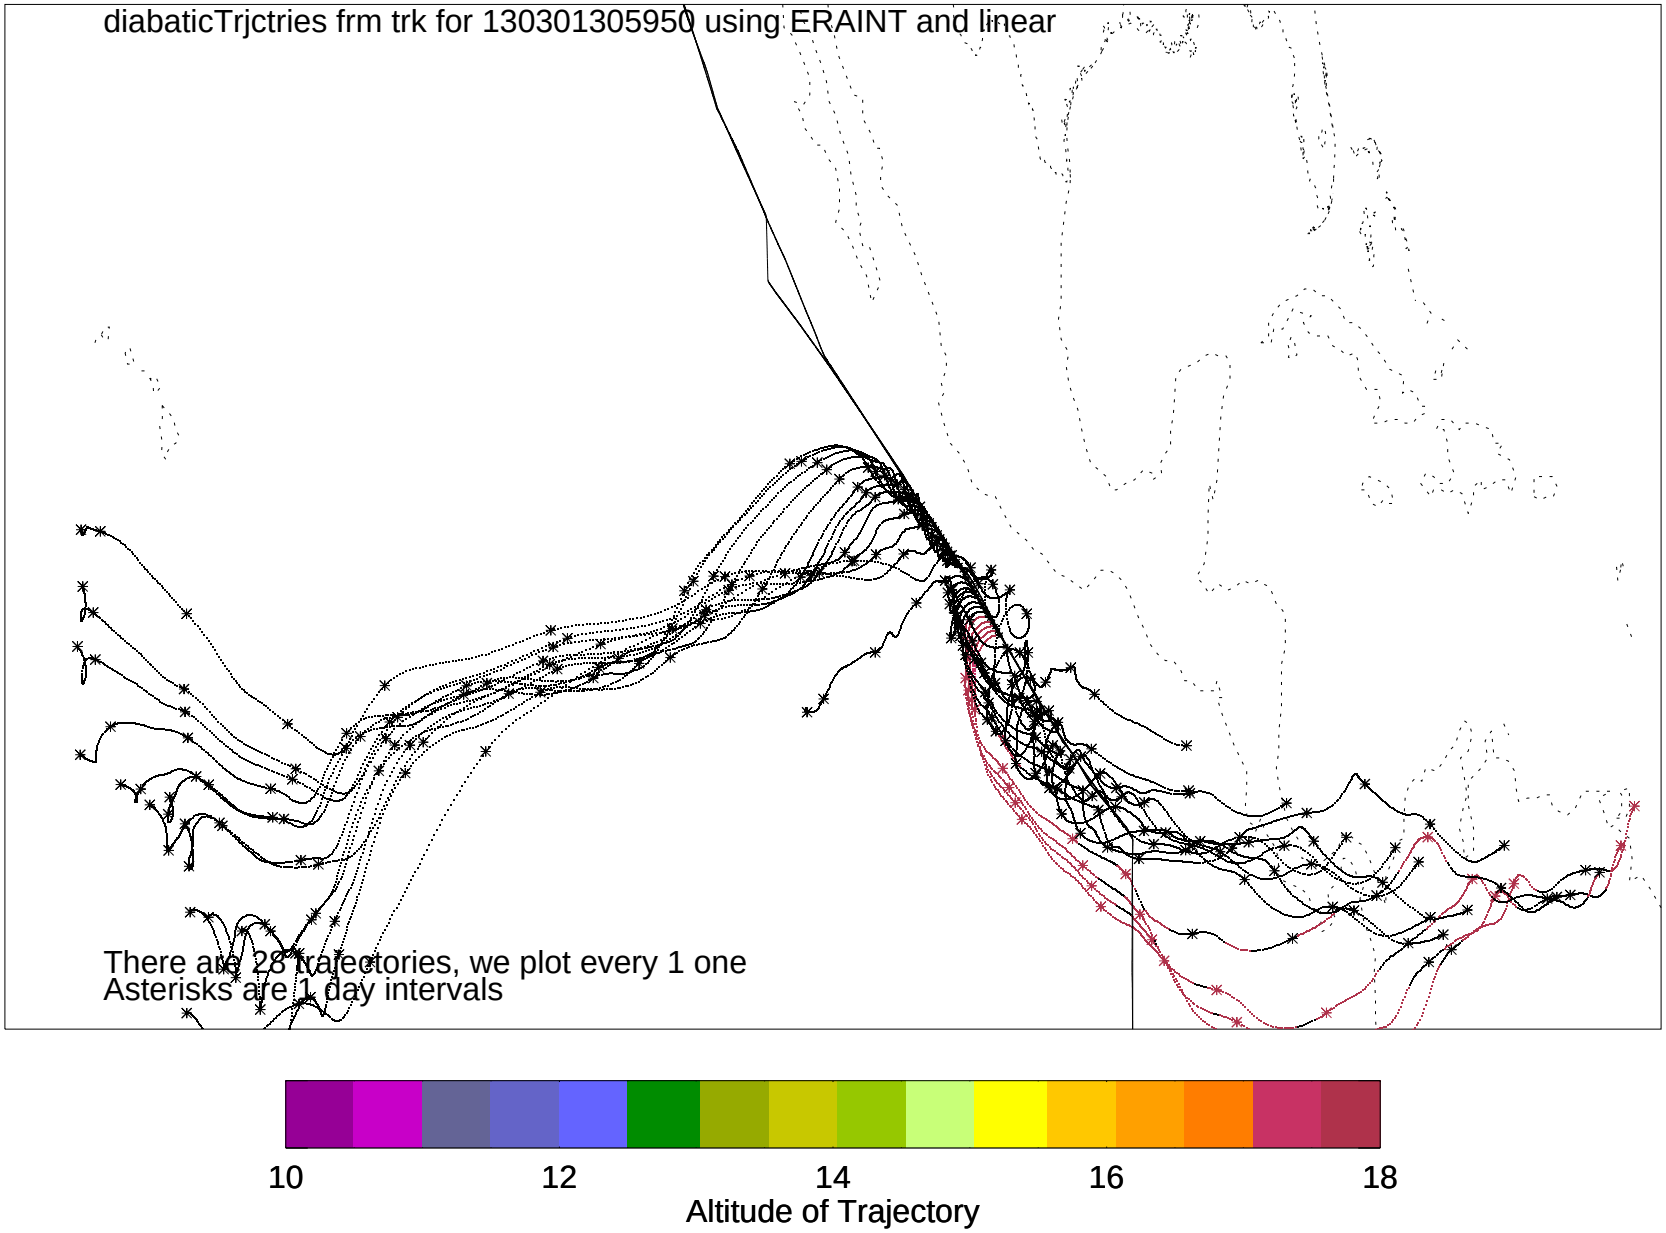
diabaticTrjctries frm trk for 130301275950 using ERAINT and linear
There are 55 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



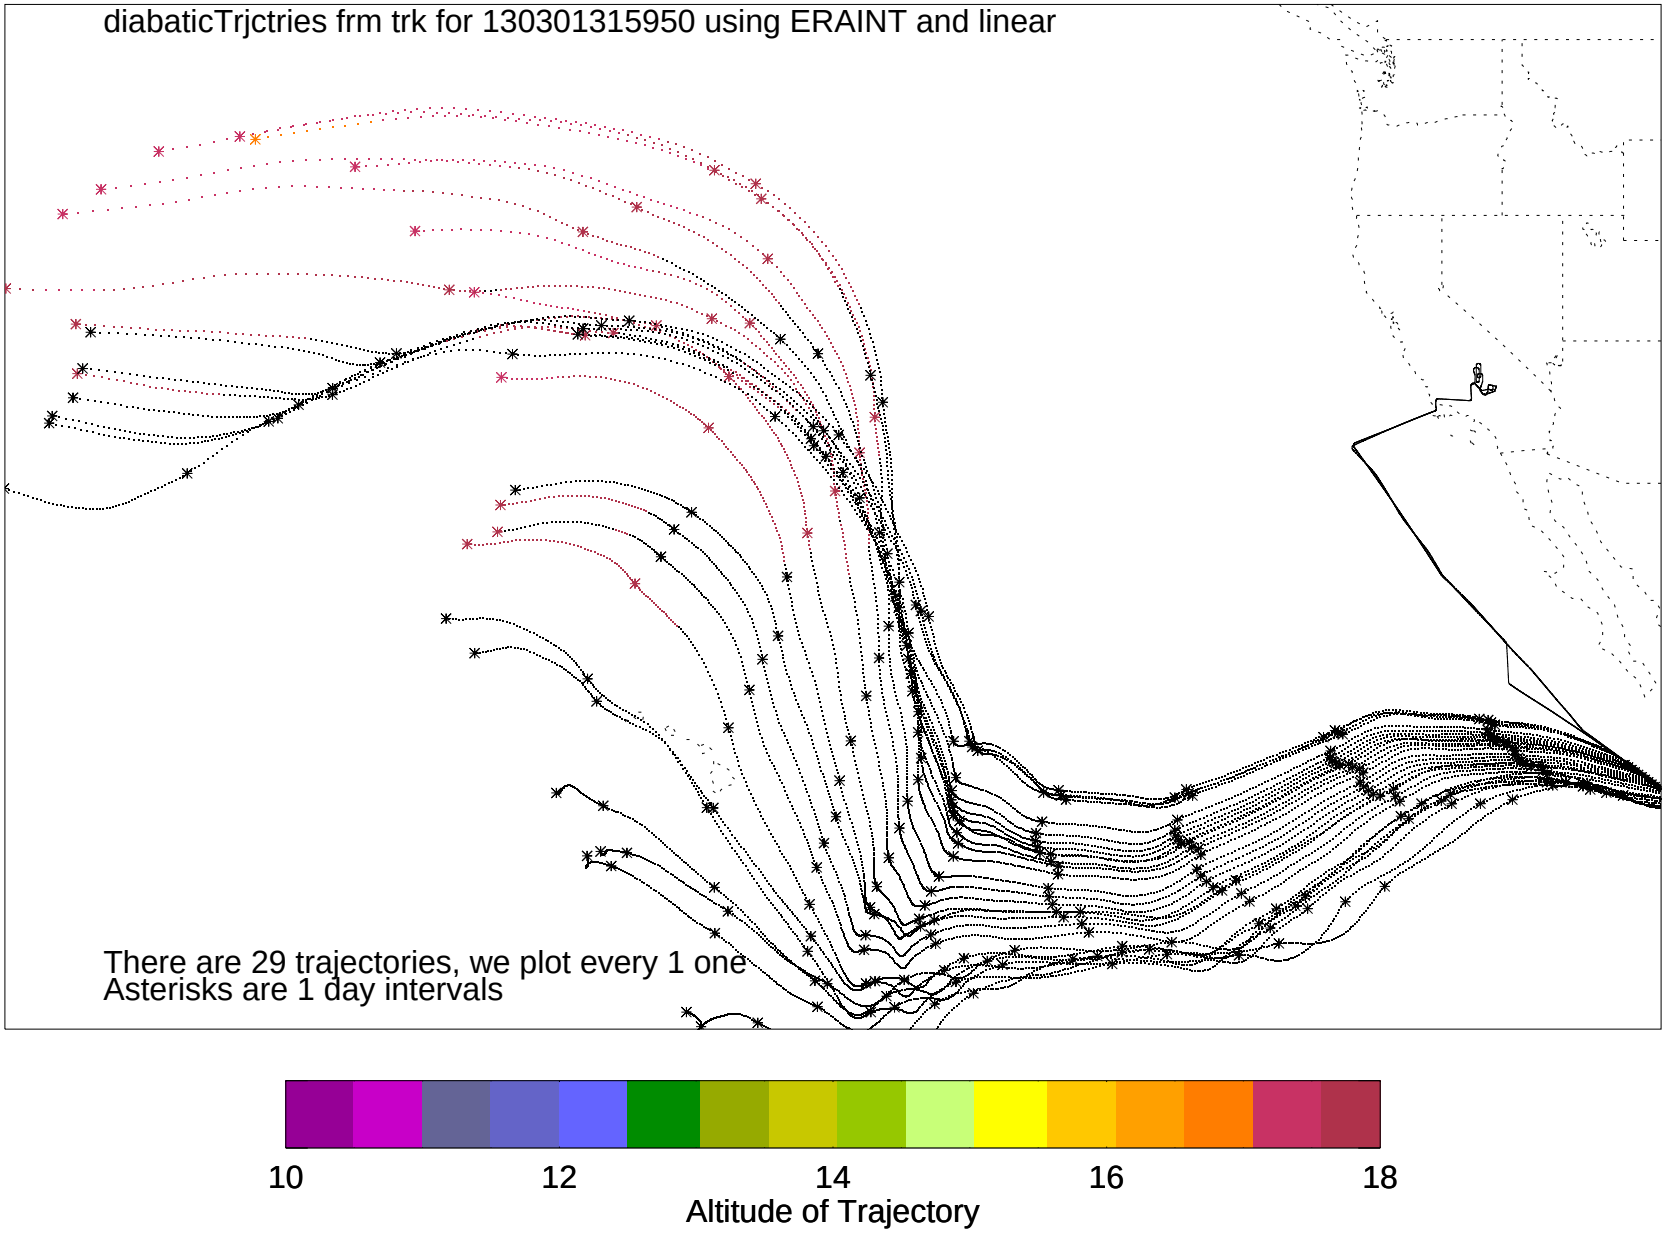
diabaticTrjctries frm trk for 130301285950 using ERAINT and linear
There are 63 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



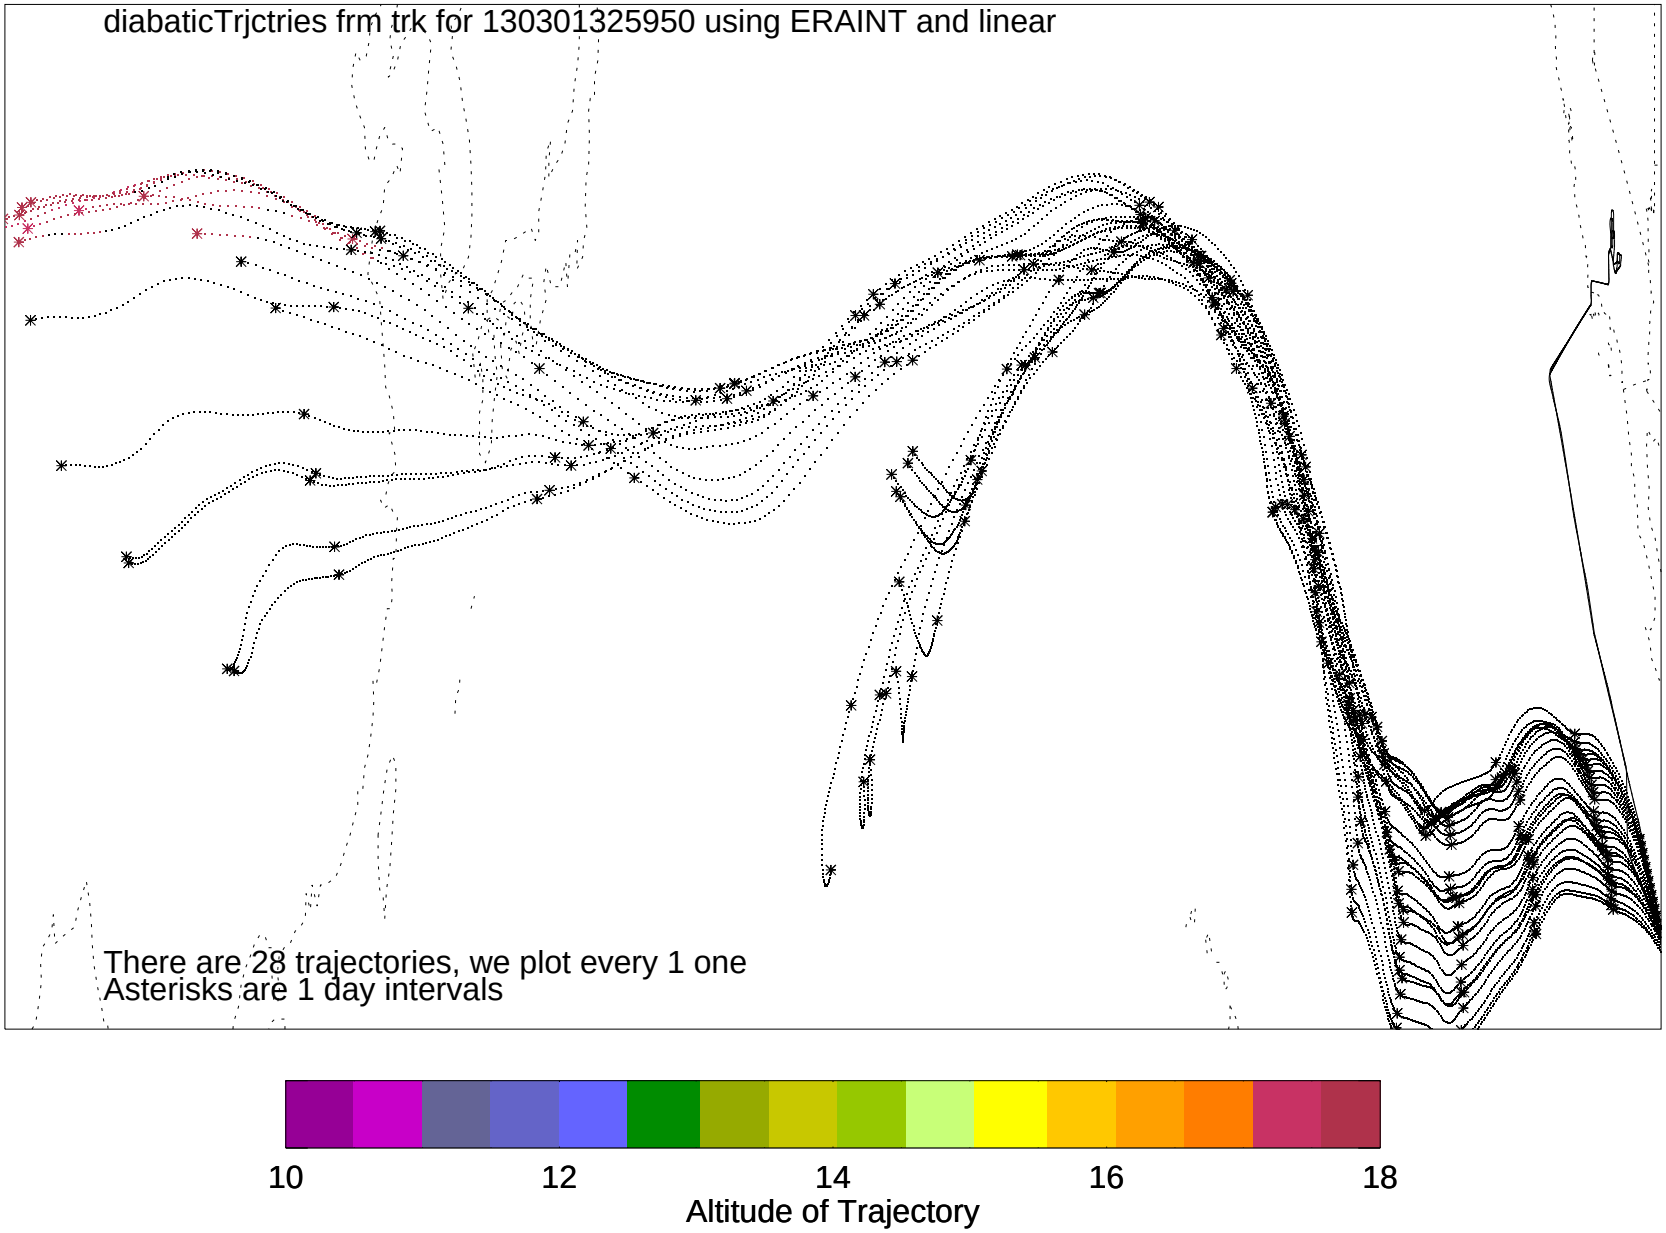
diabaticTrjctries frm trk for 130301295950 using ERAINT and linear
There are 64 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



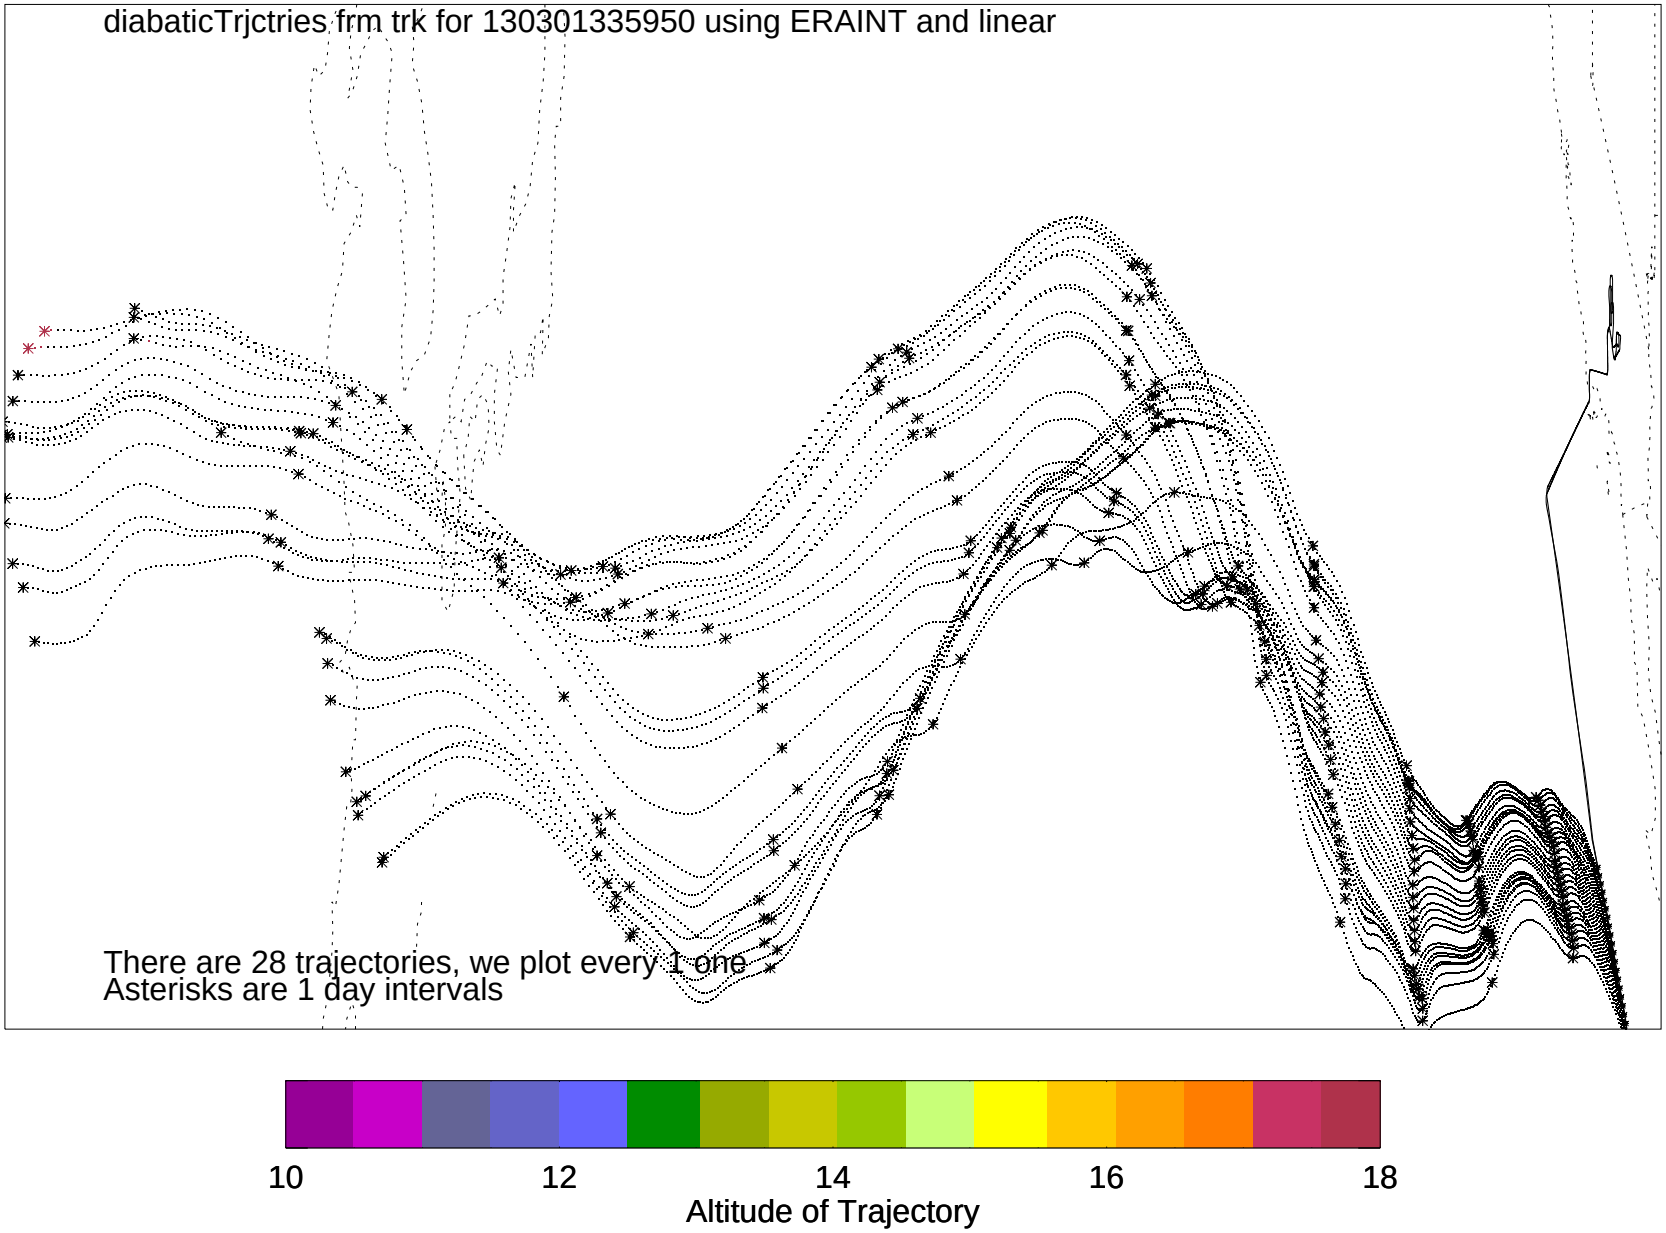
diabaticTrjctries frm trk for 130301305950 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



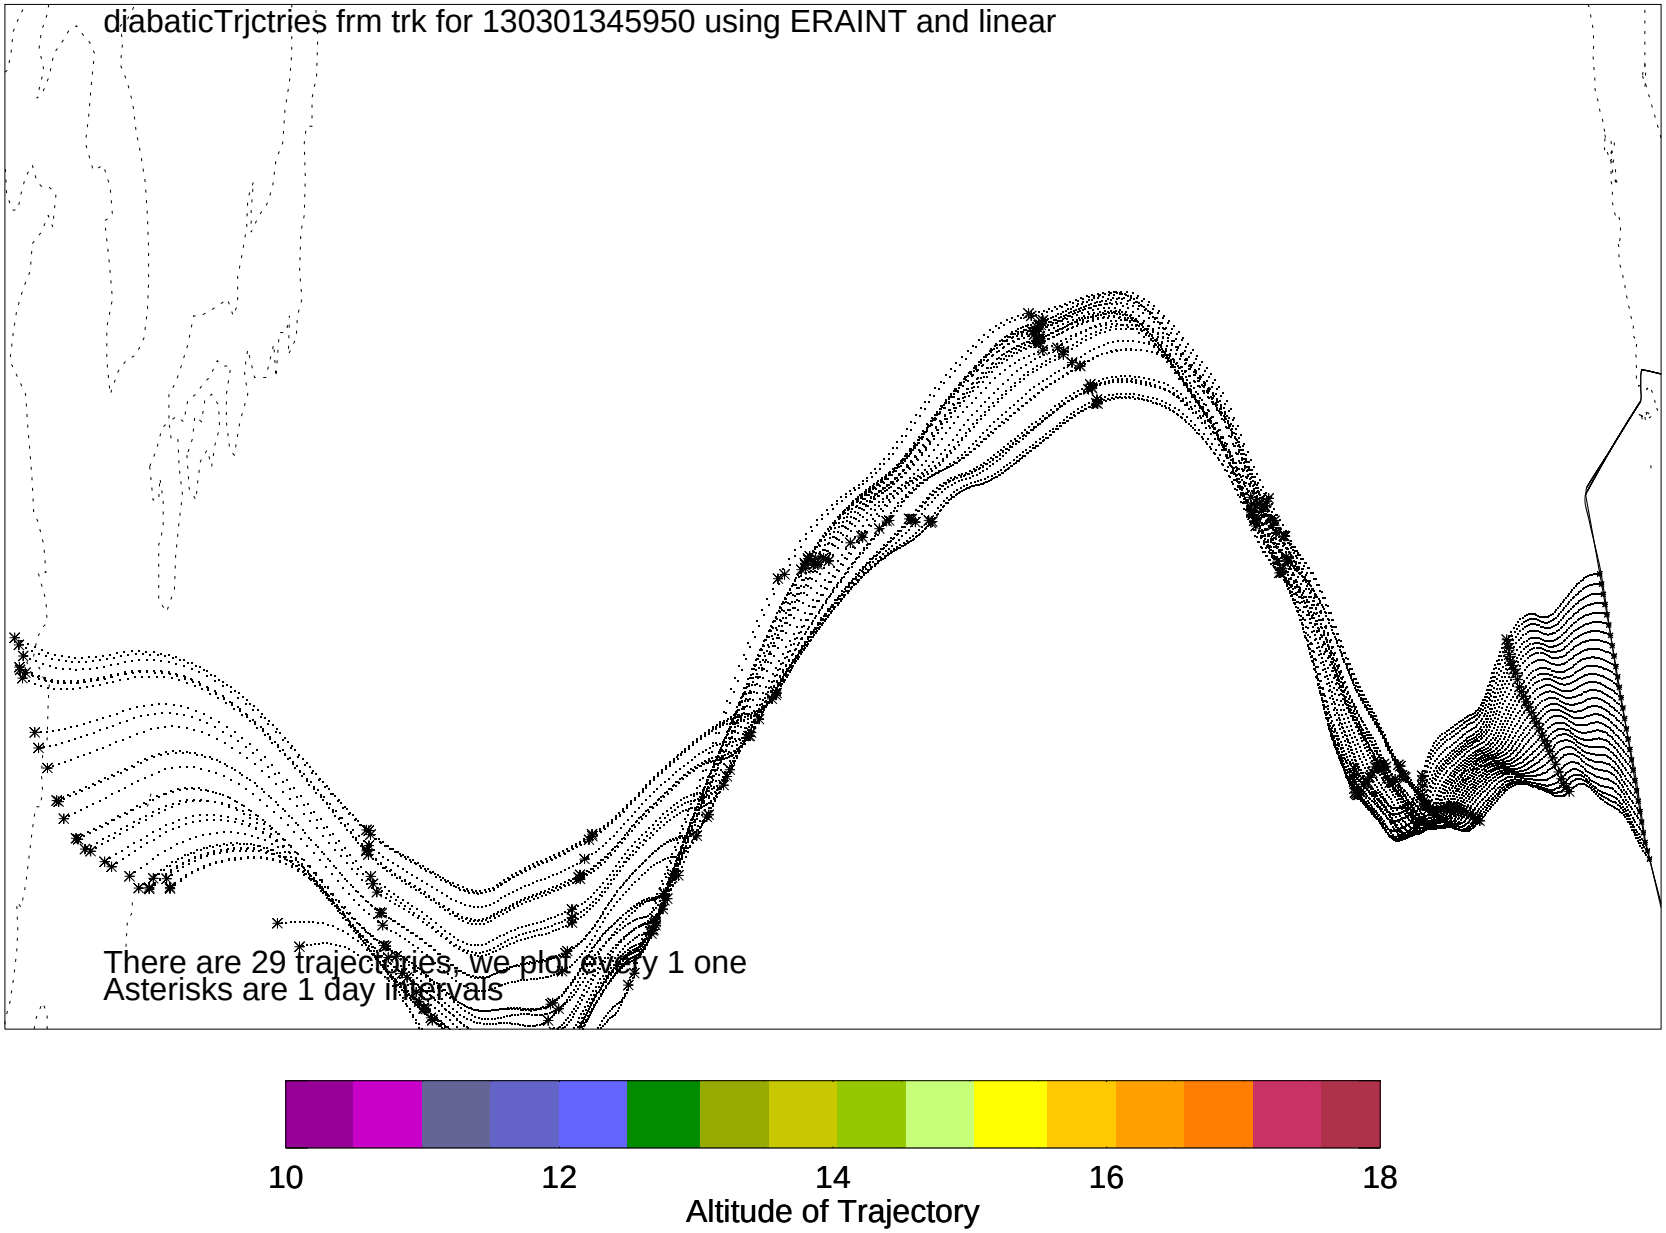
diabaticTrjctries frm trk for 130301315950 using ERAINT and linear
There are 29 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130301325950 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130301335950 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130301345950 using ERAINT and linear
There are 29 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
