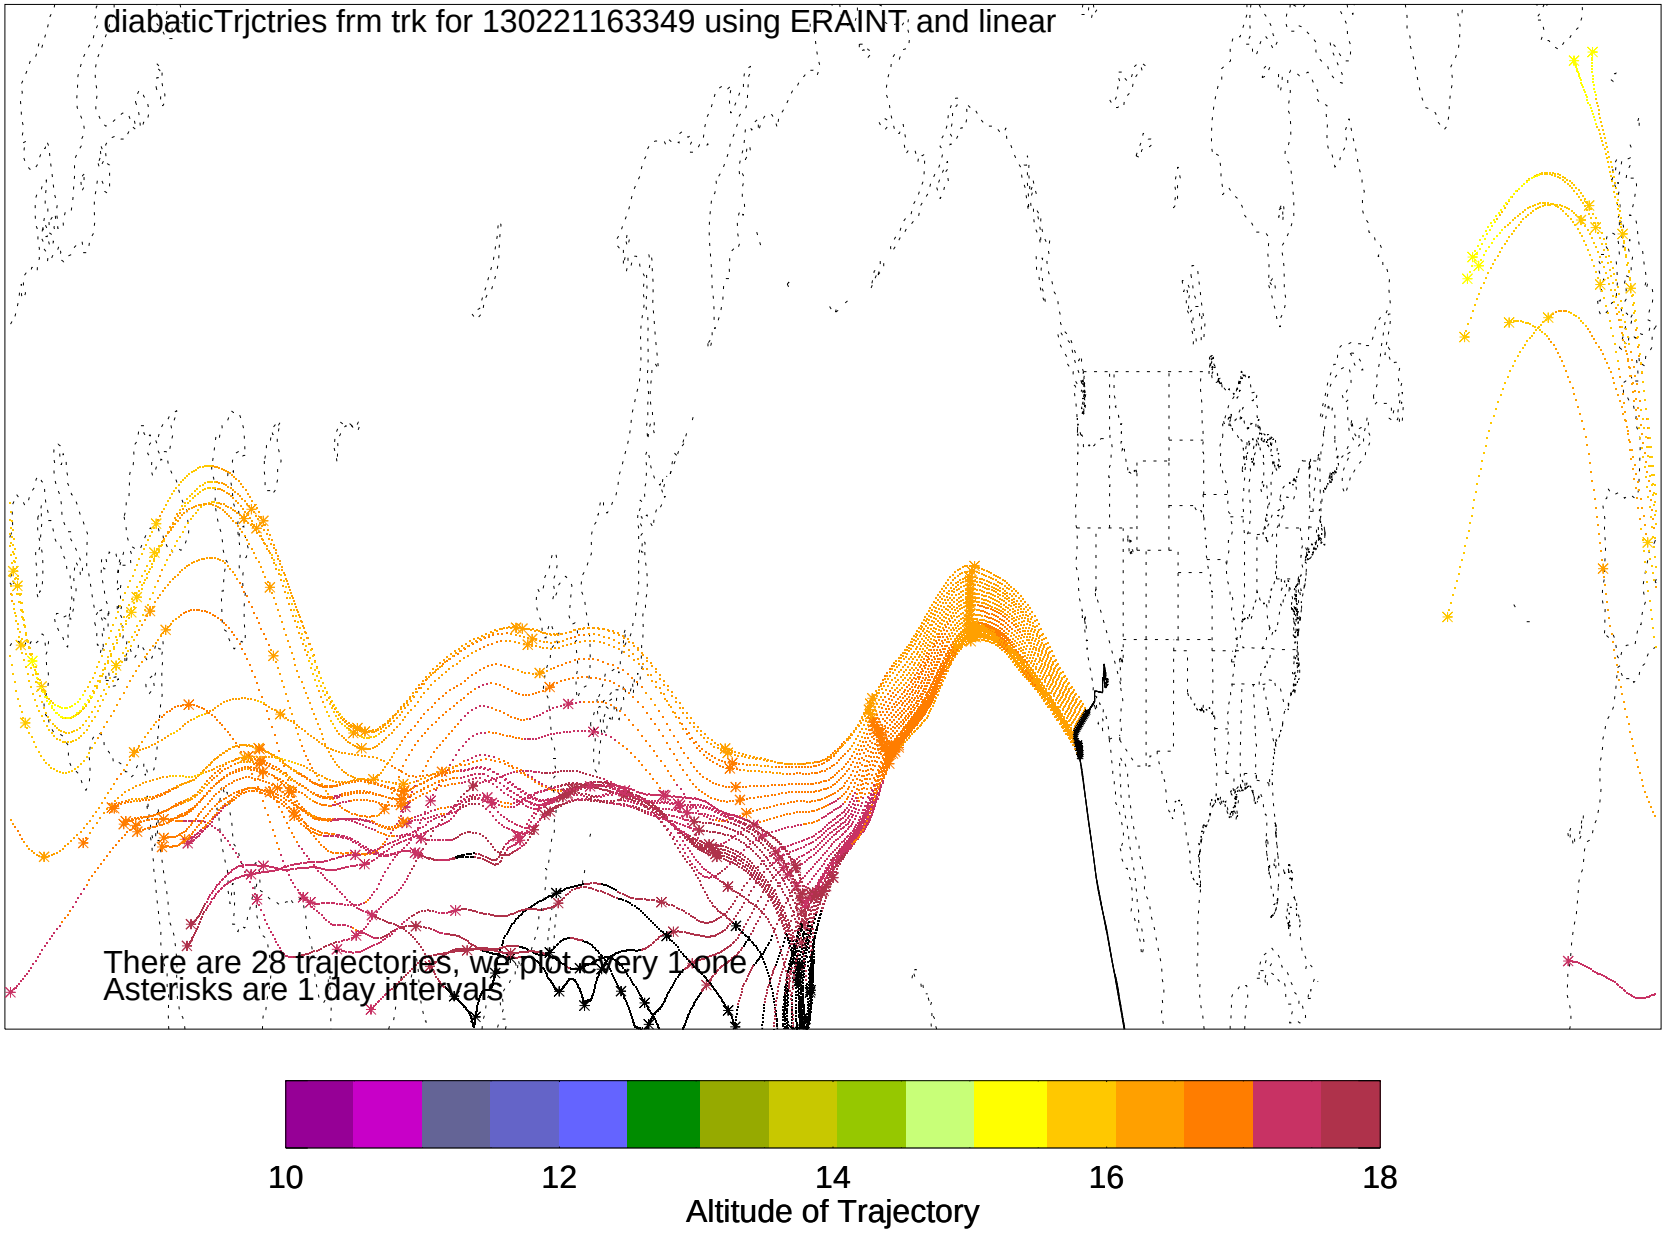
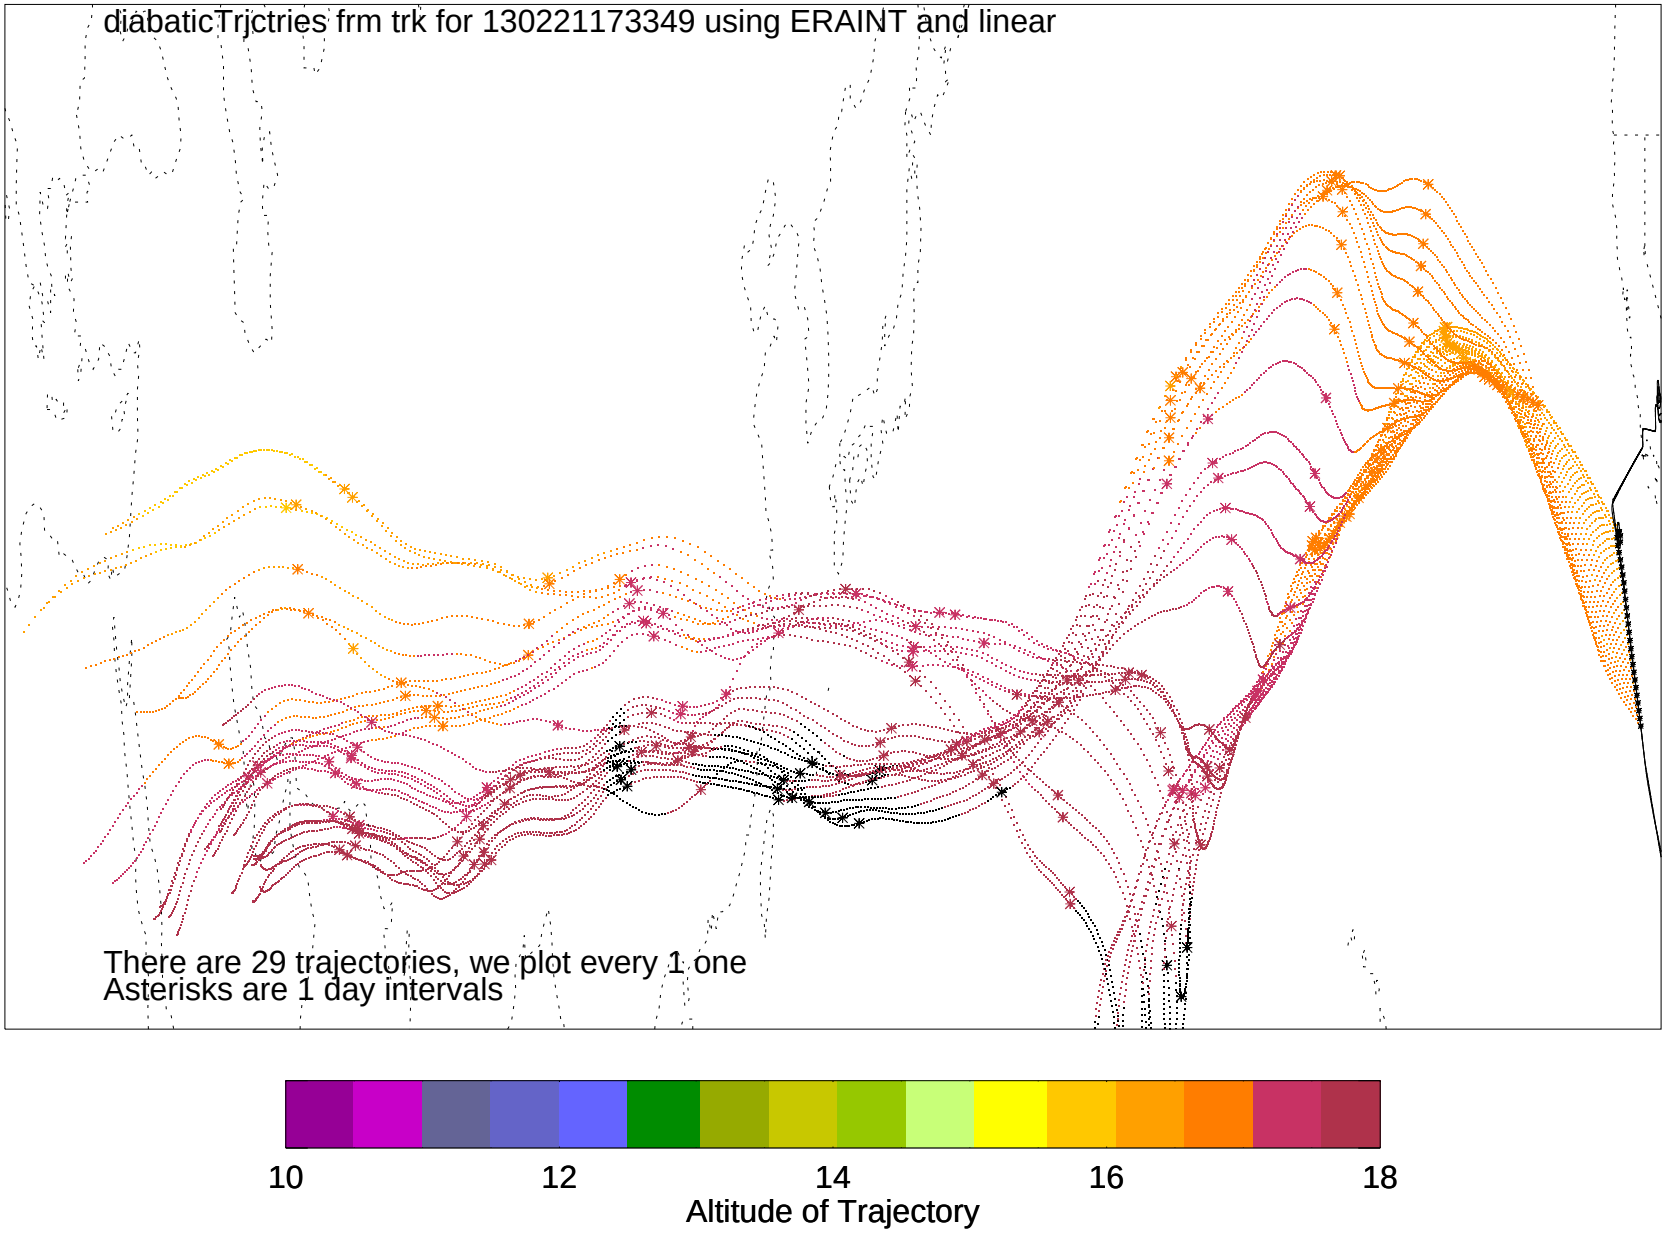
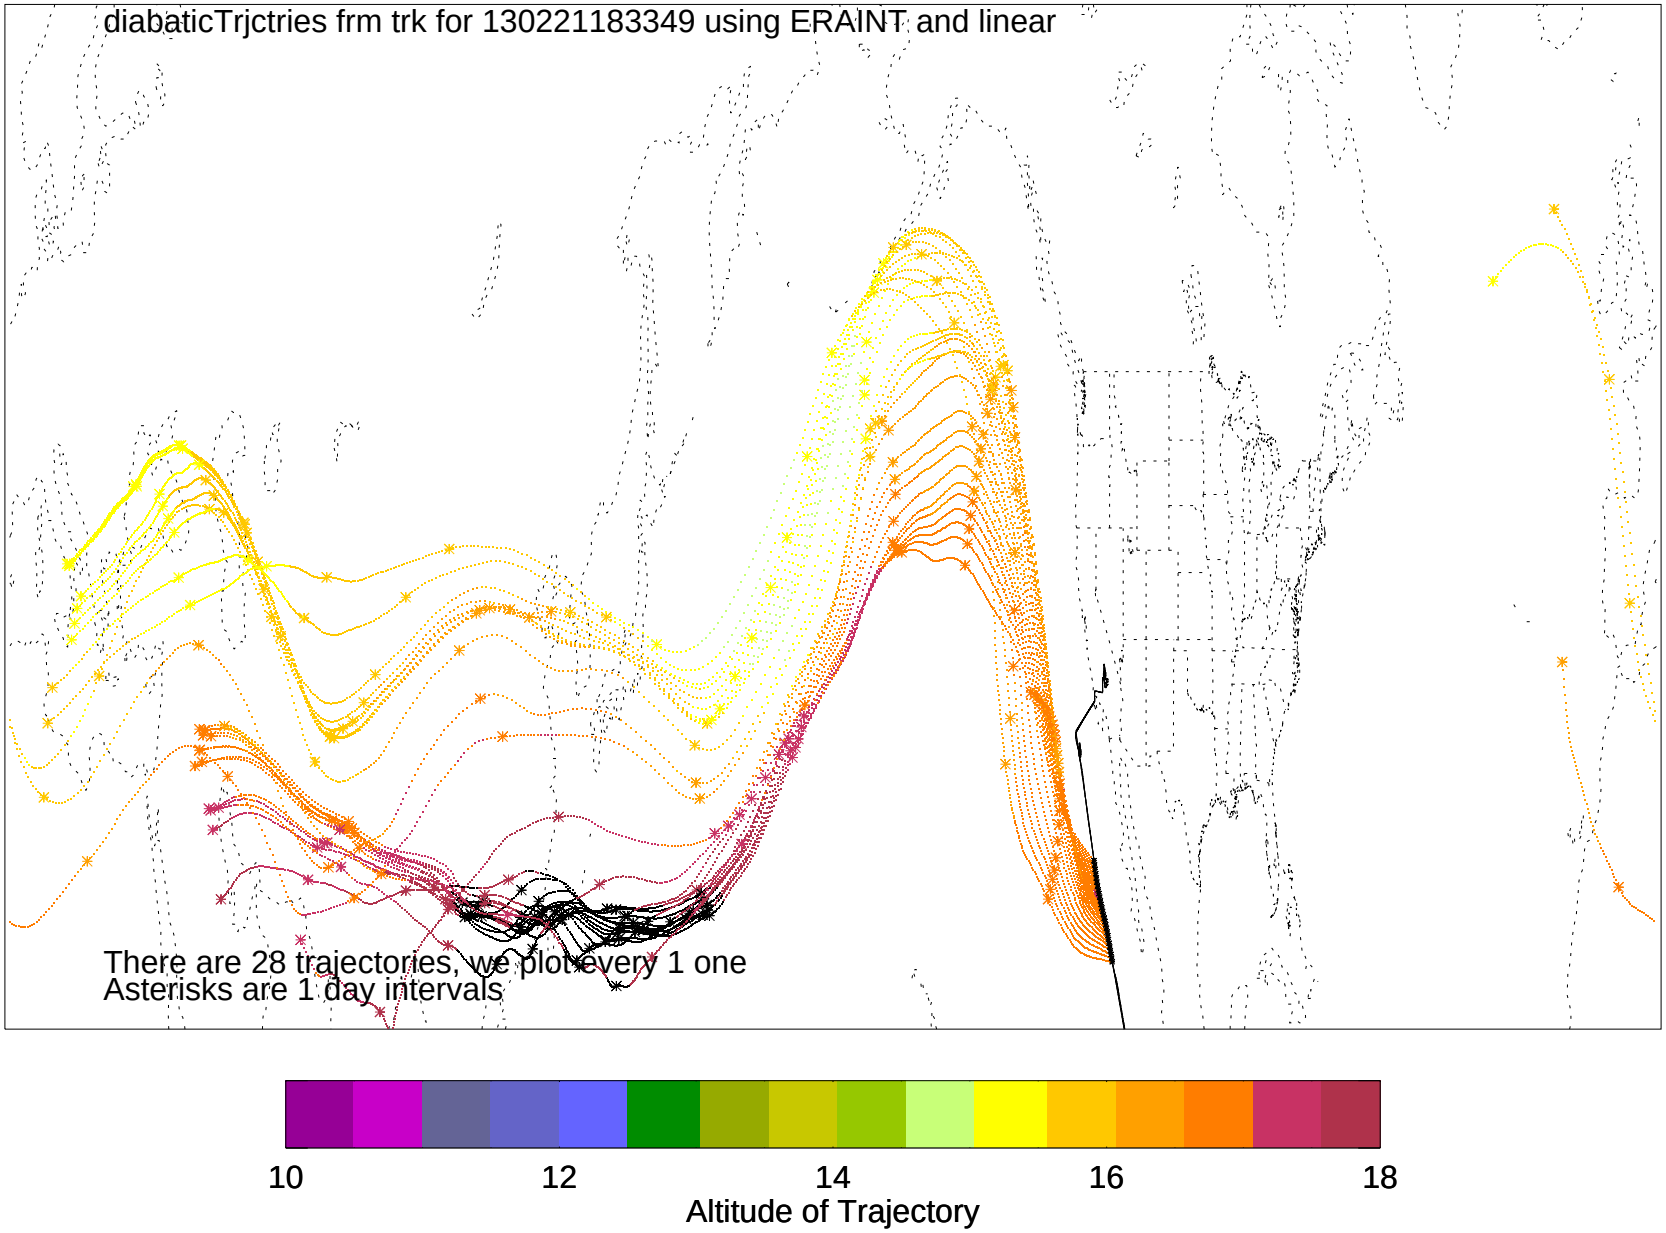
diabaticTrjctries frm trk for 130221153349 using ERAINT and linear
There are 45 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



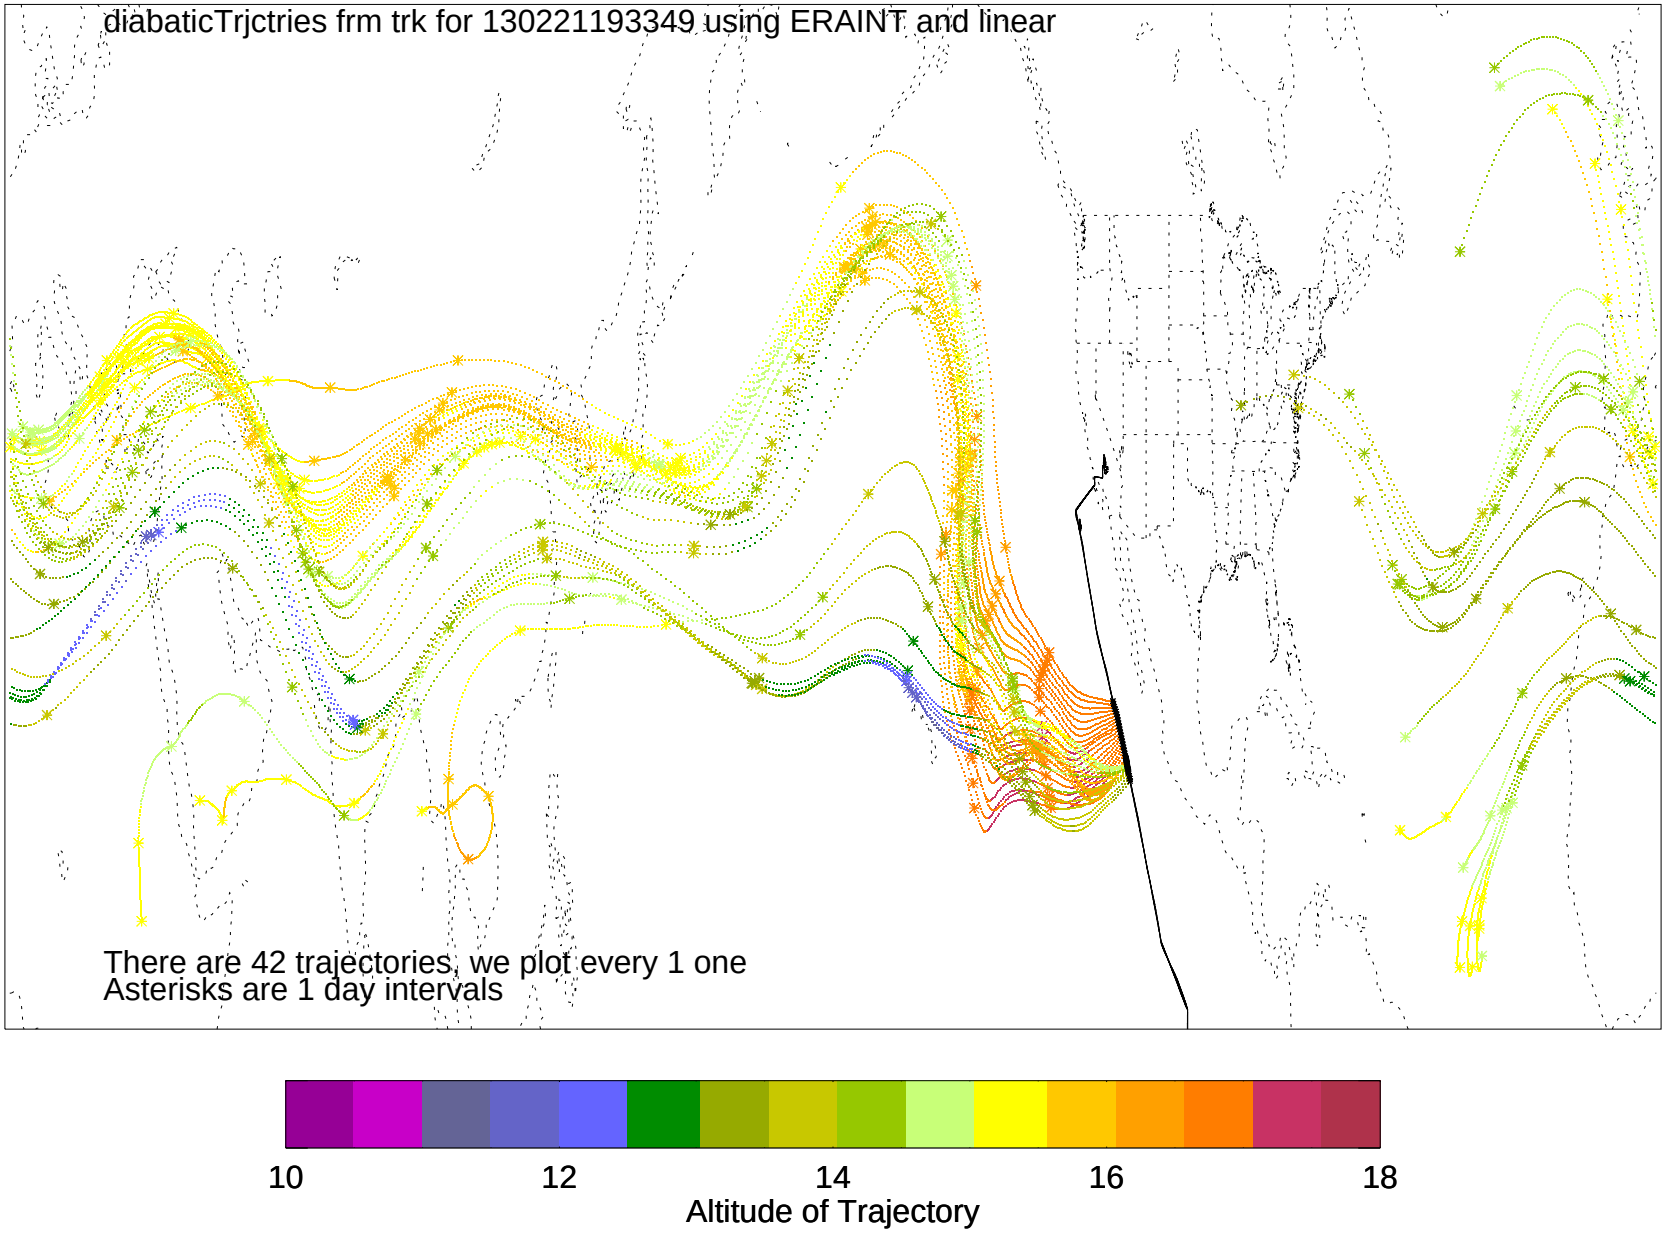
diabaticTrjctries frm trk for 130221163349 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



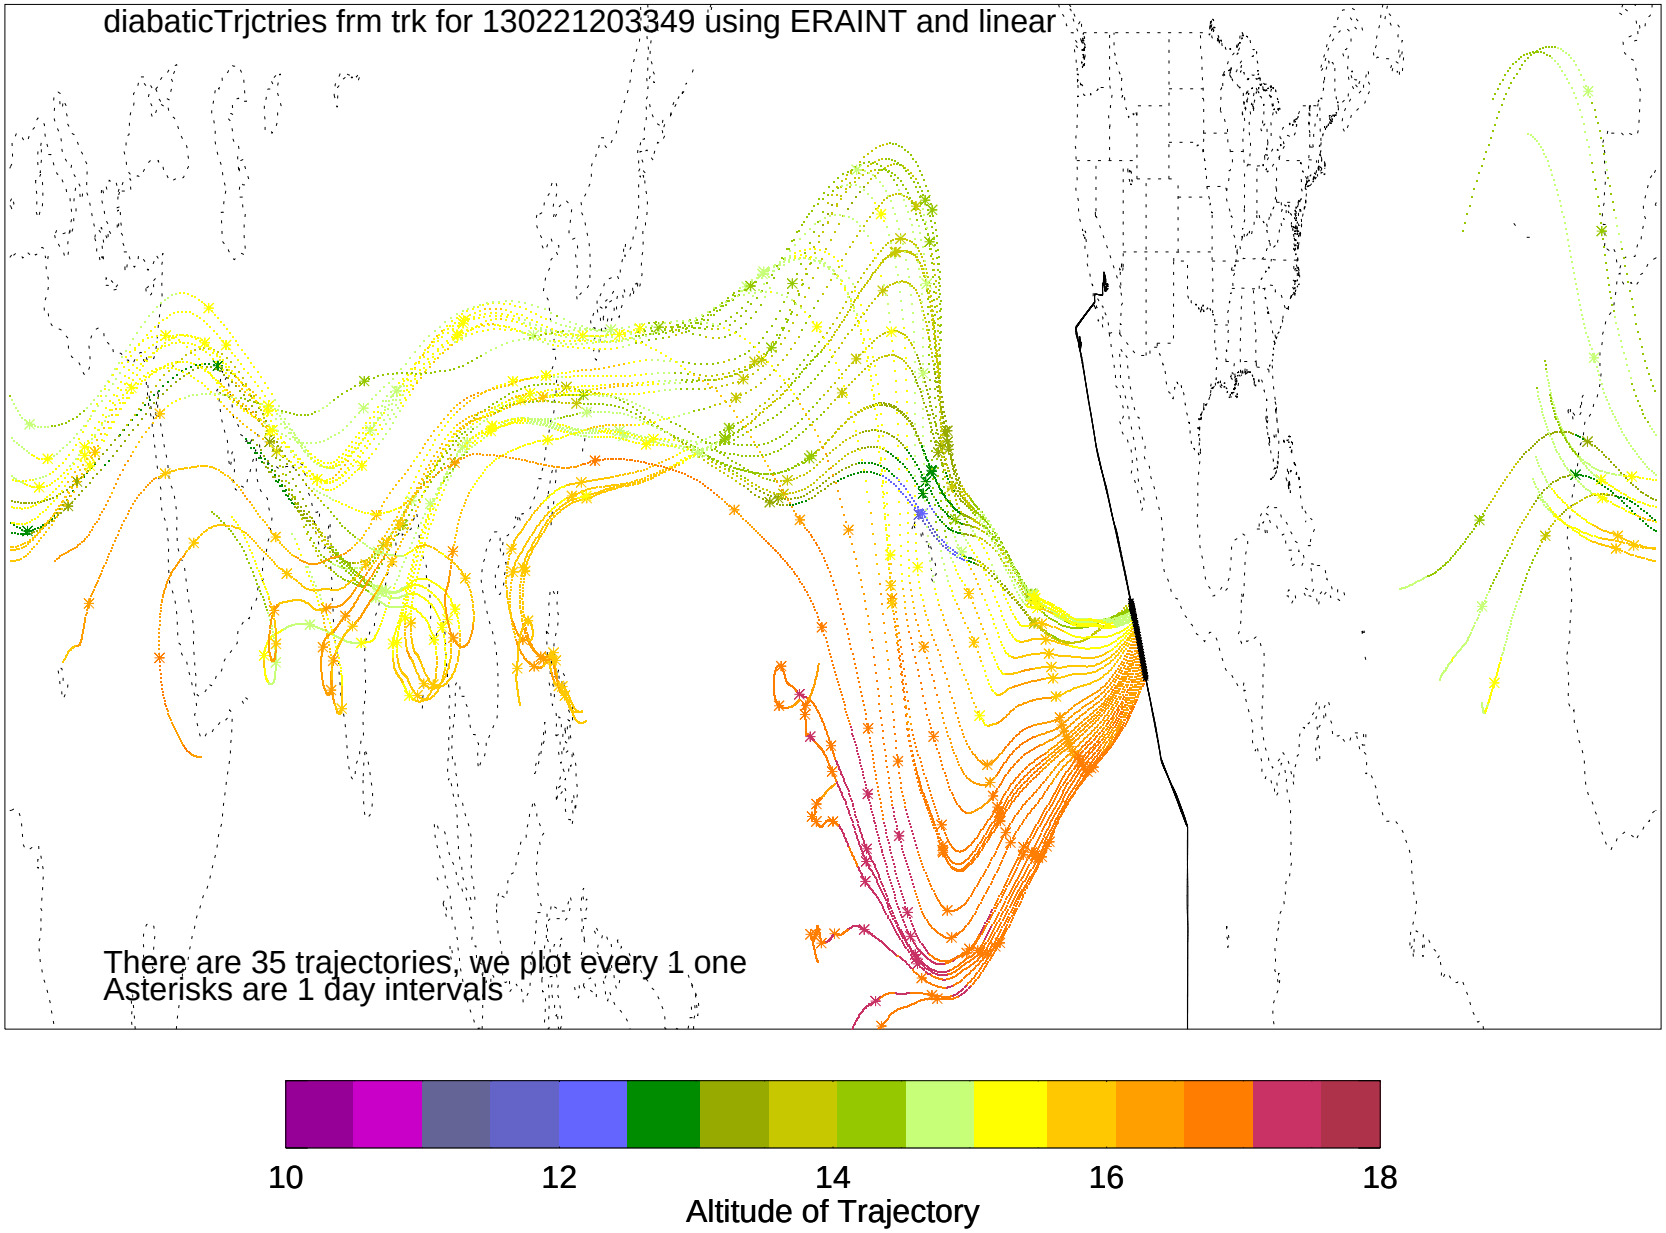
diabaticTrjctries frm trk for 130221173349 using ERAINT and linear
There are 29 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



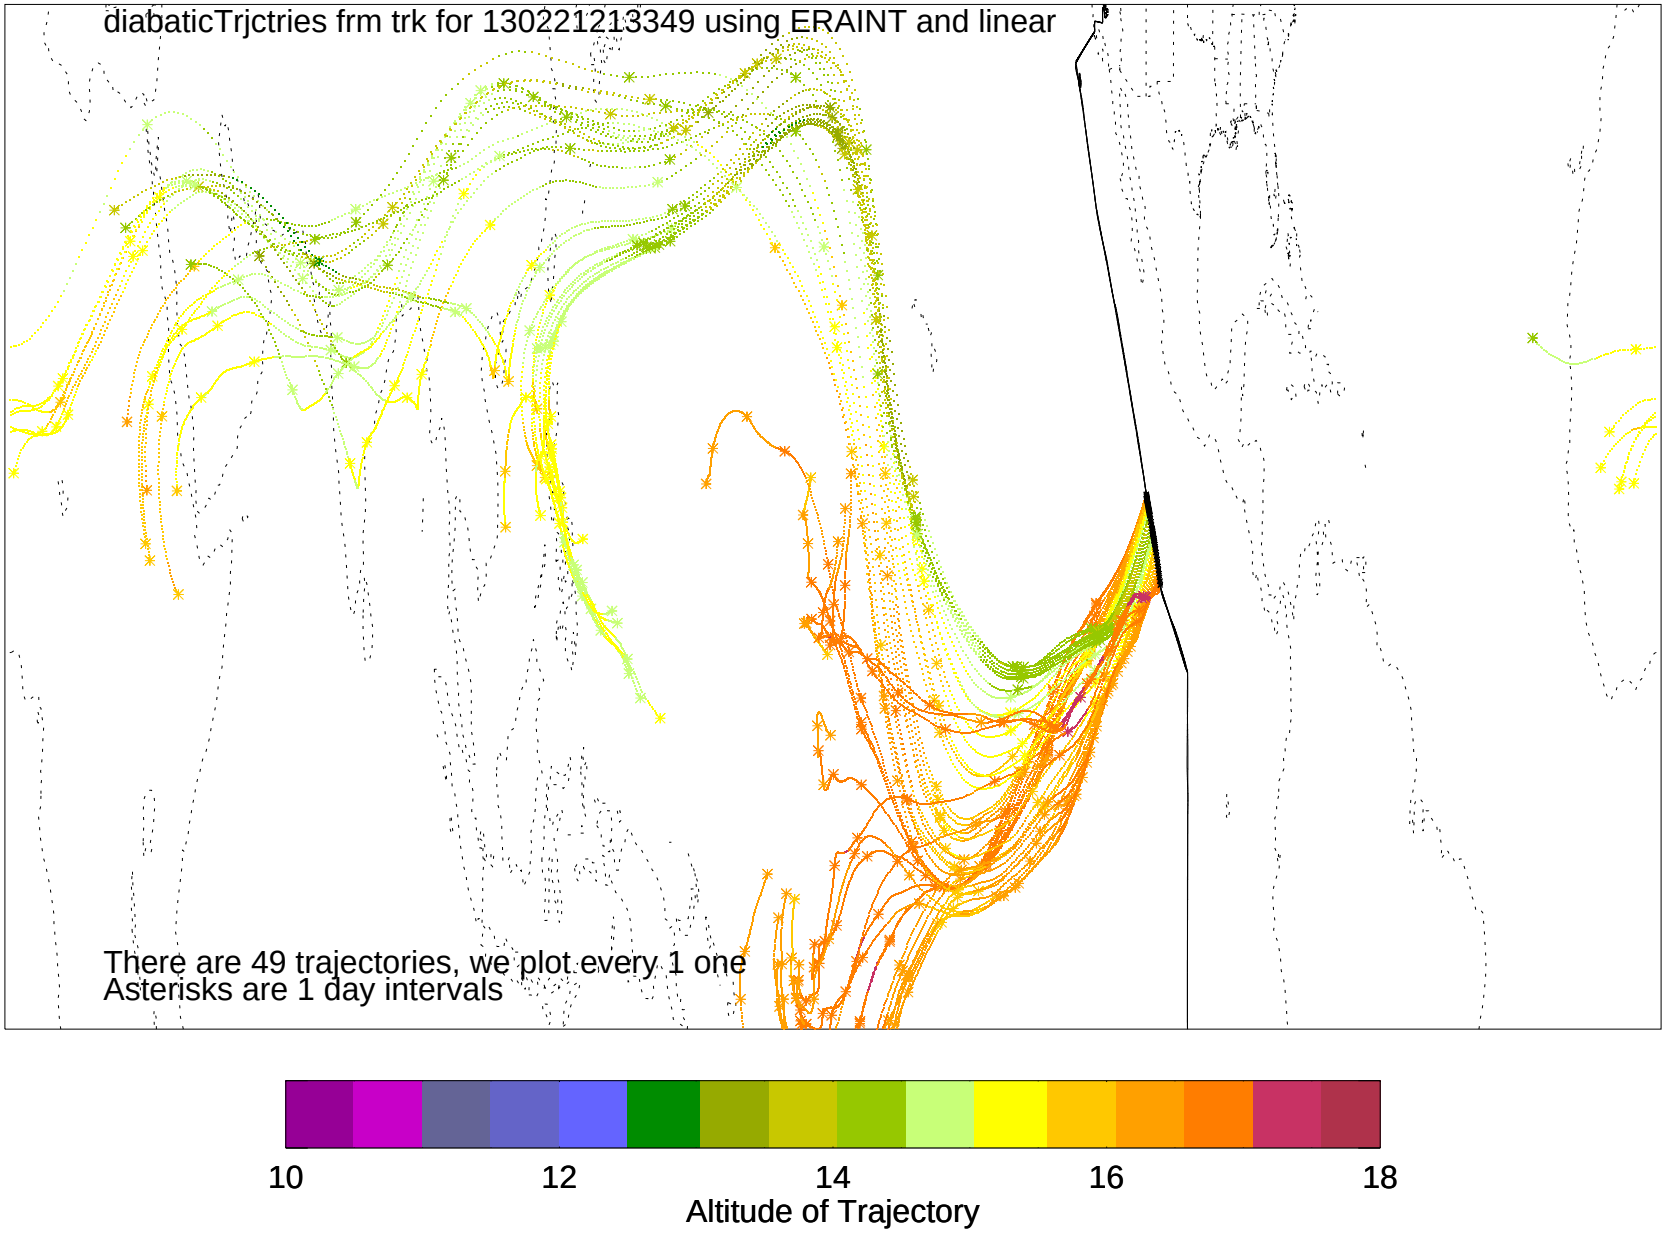
diabaticTrjctries frm trk for 130221183349 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



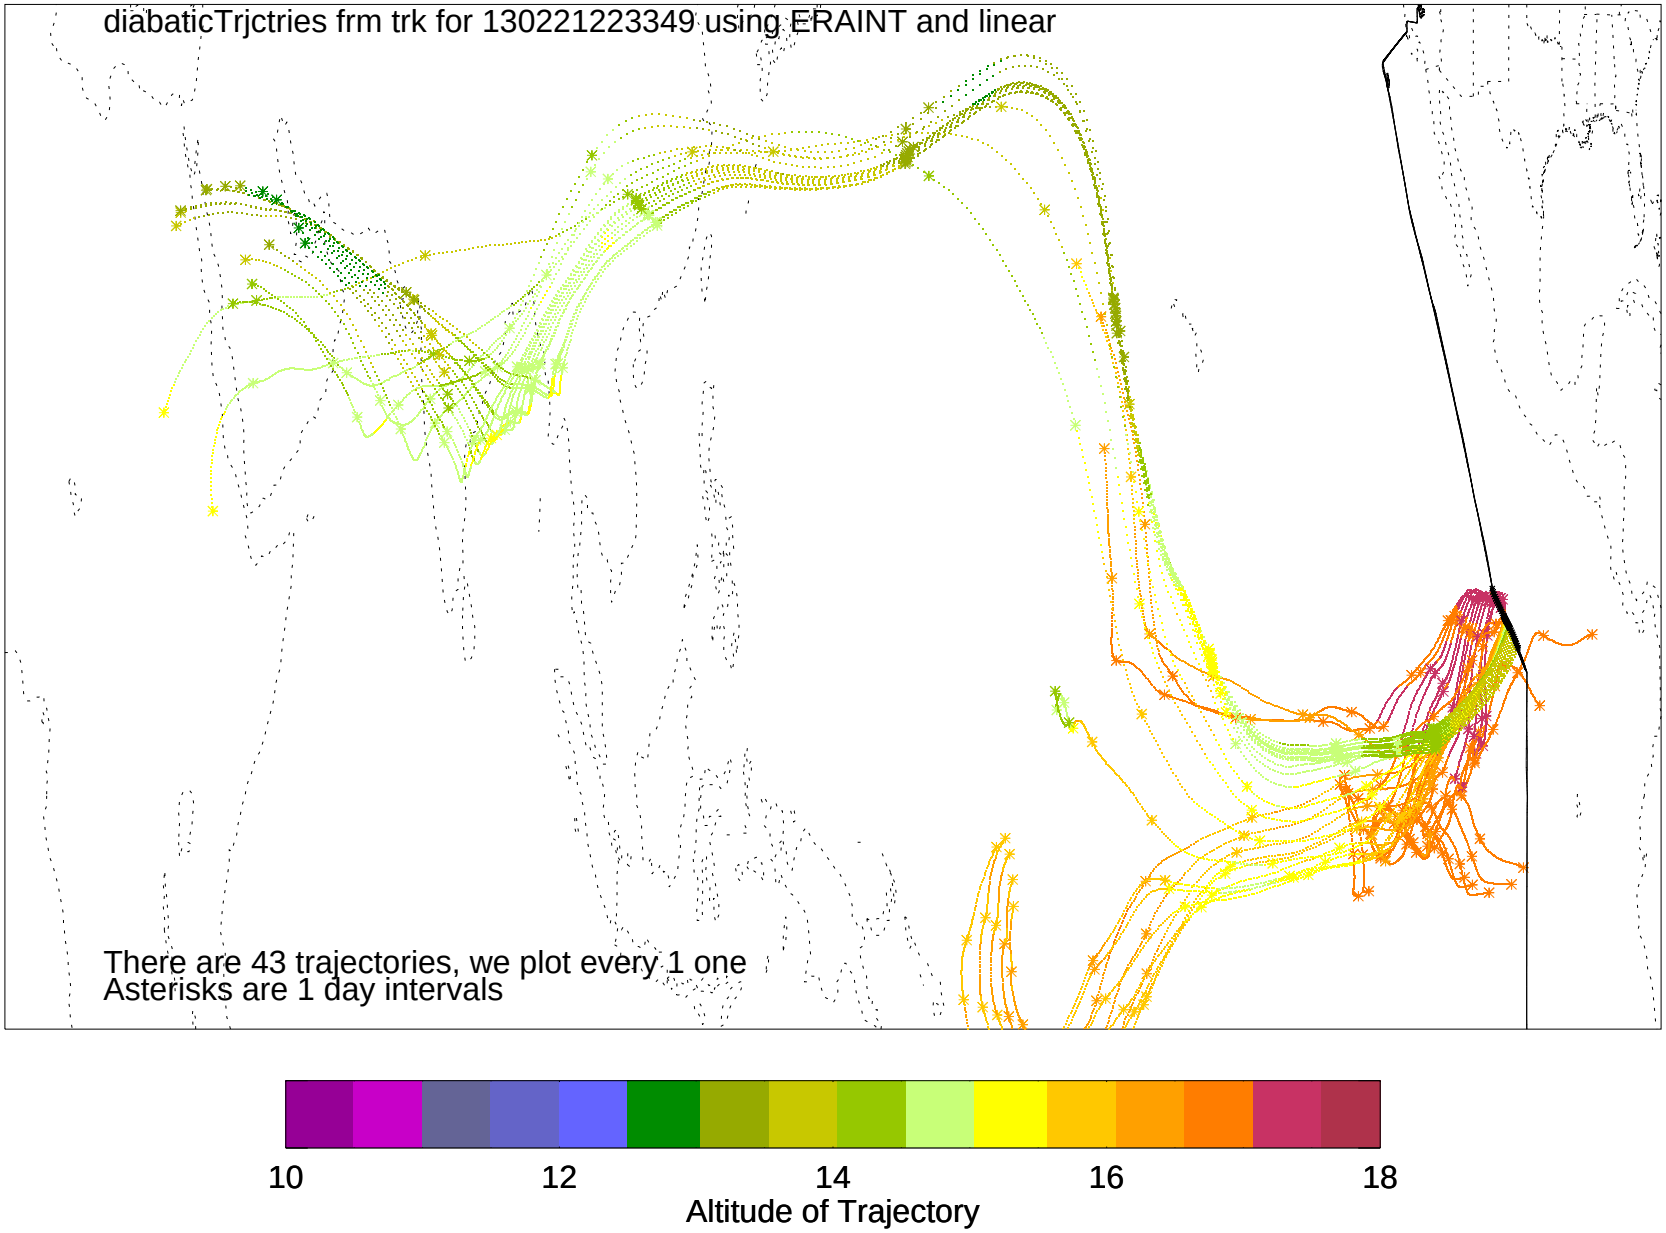
diabaticTrjctries frm trk for 130221193349 using ERAINT and linear
There are 42 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



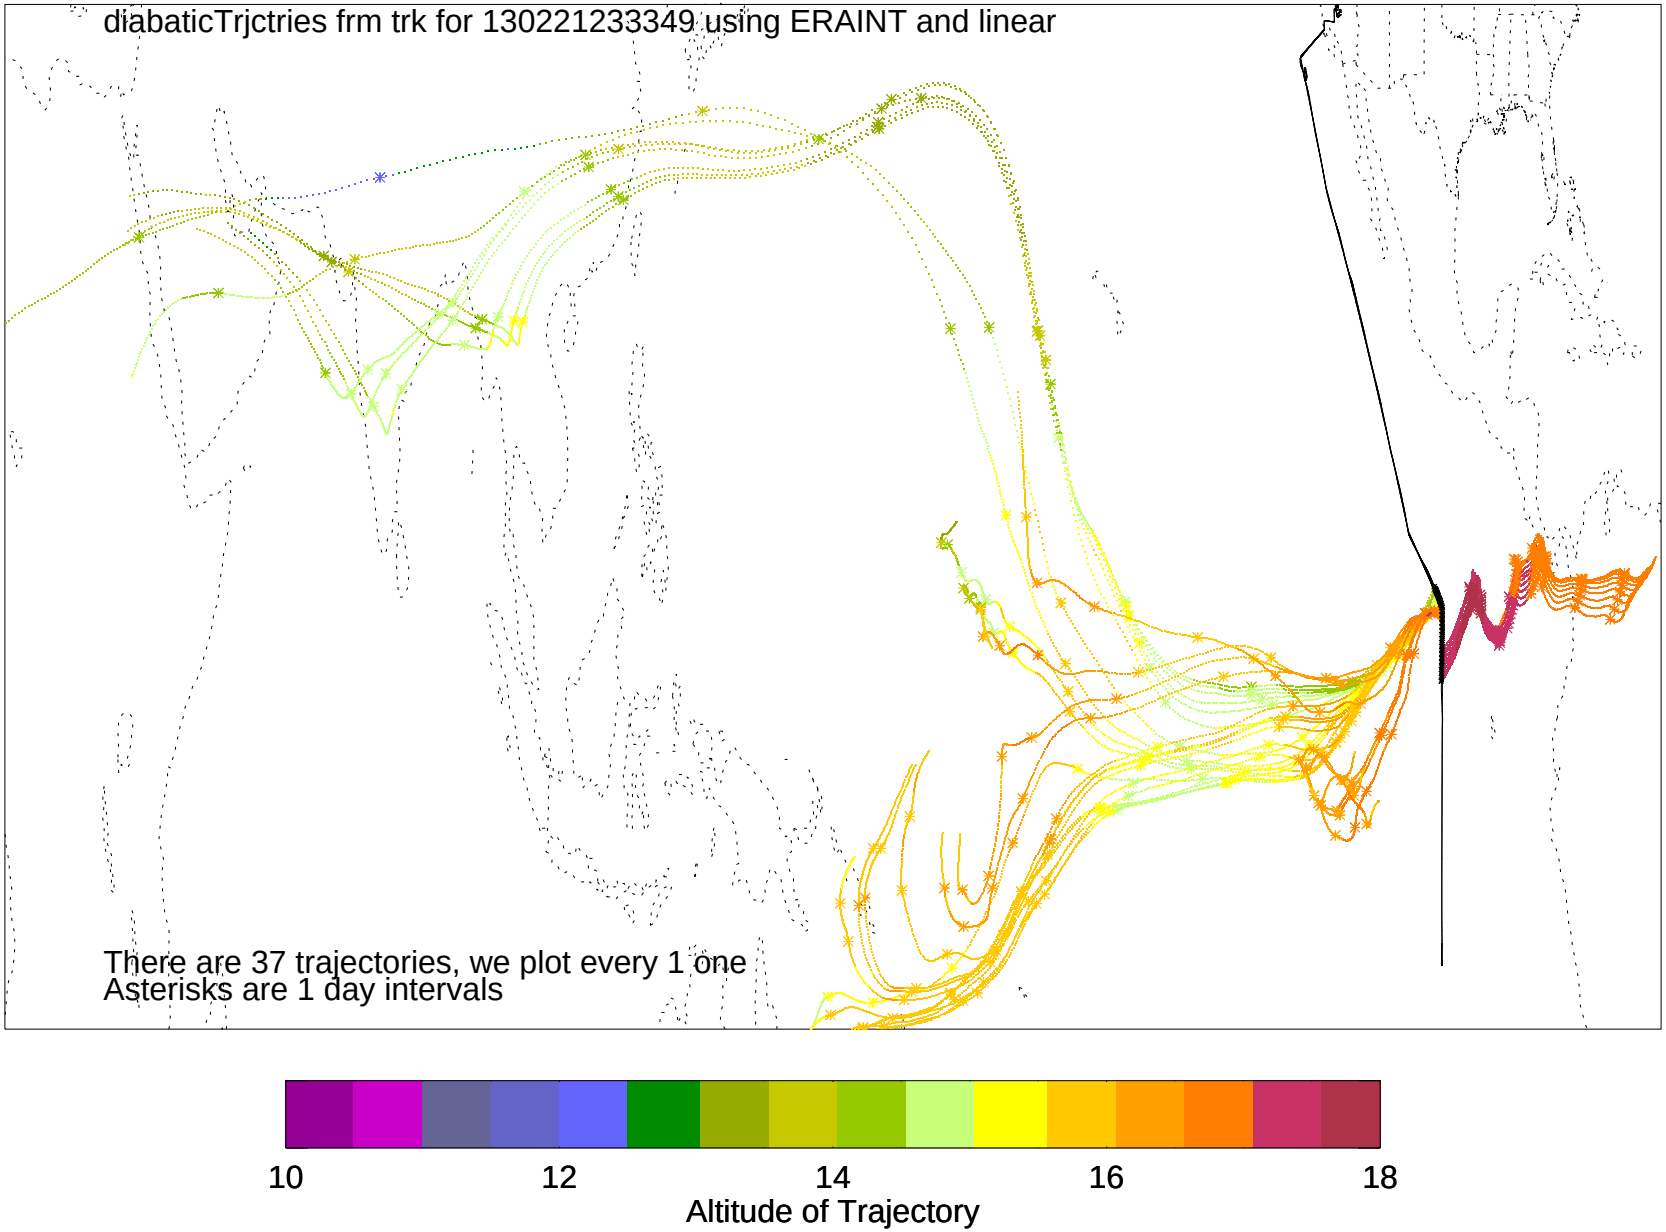
diabaticTrjctries frm trk for 130221203349 using ERAINT and linear
There are 35 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



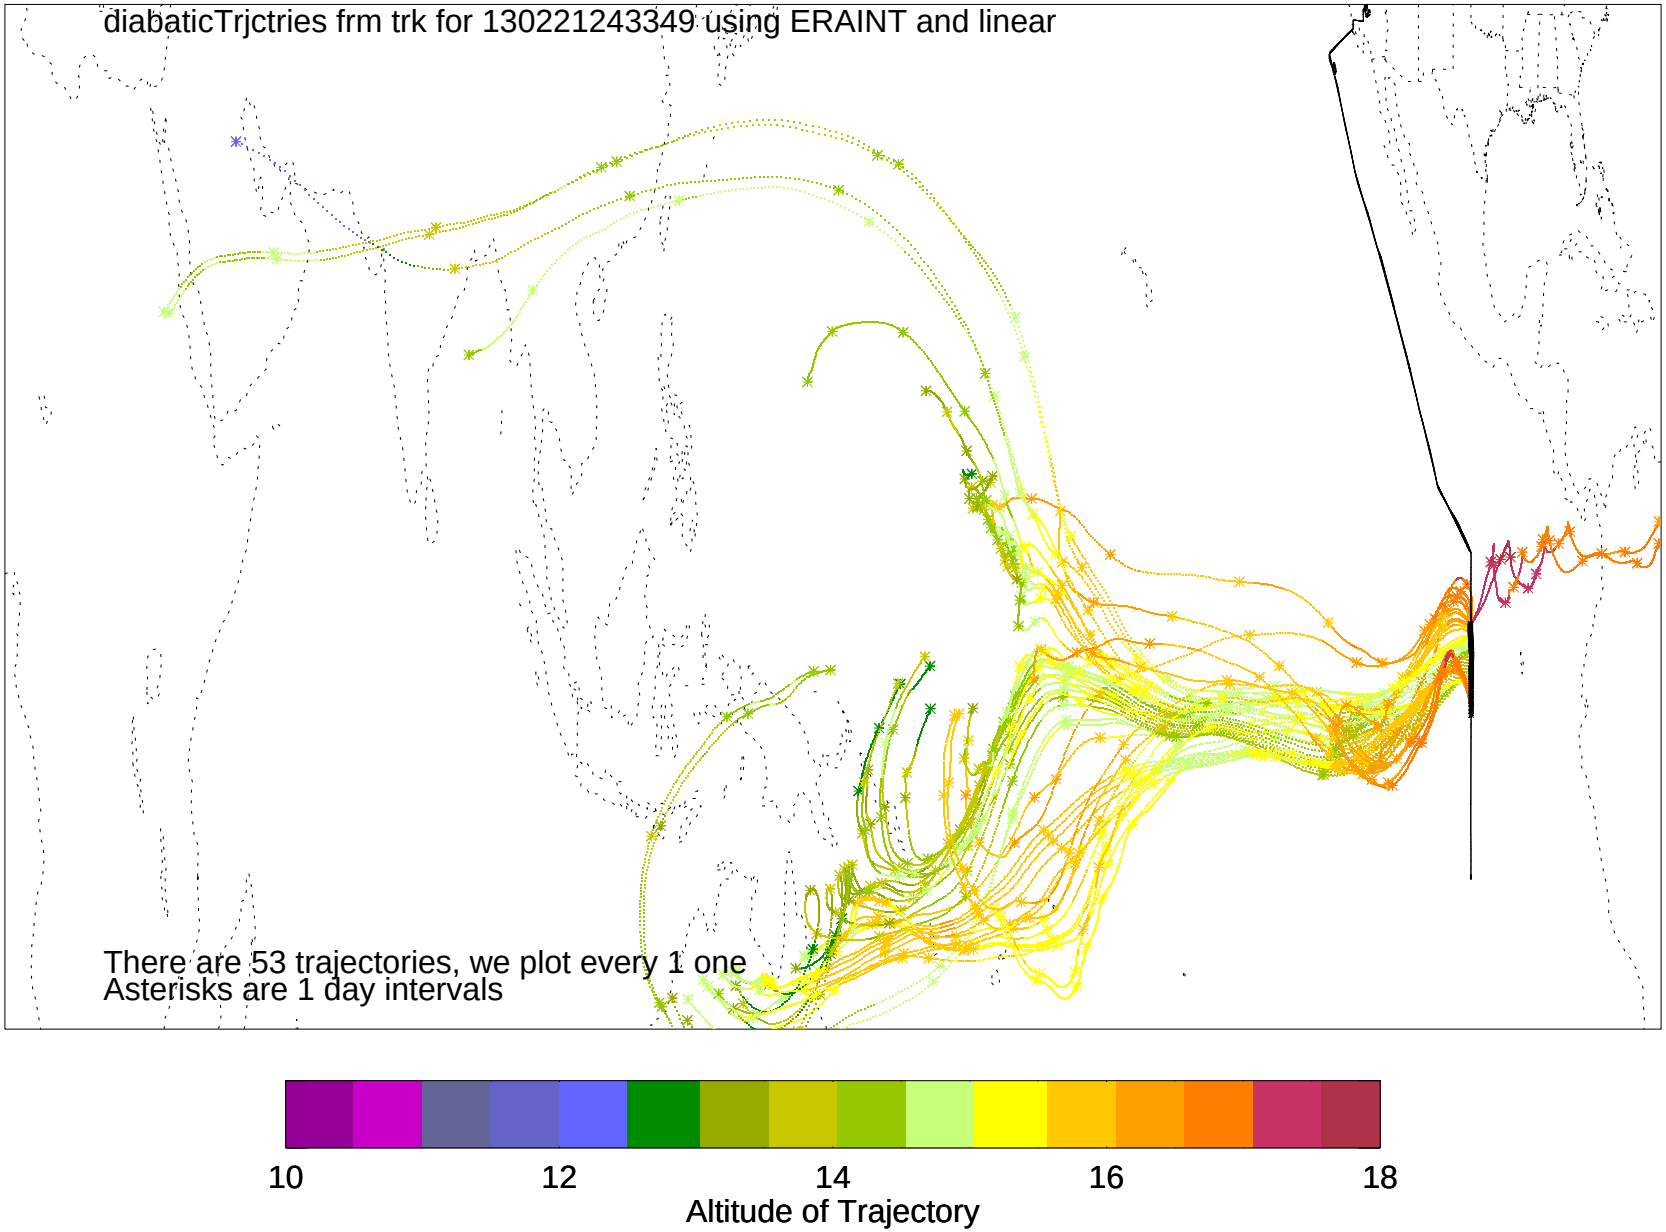
diabaticTrjctries frm trk for 130221213349 using ERAINT and linear
There are 49 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



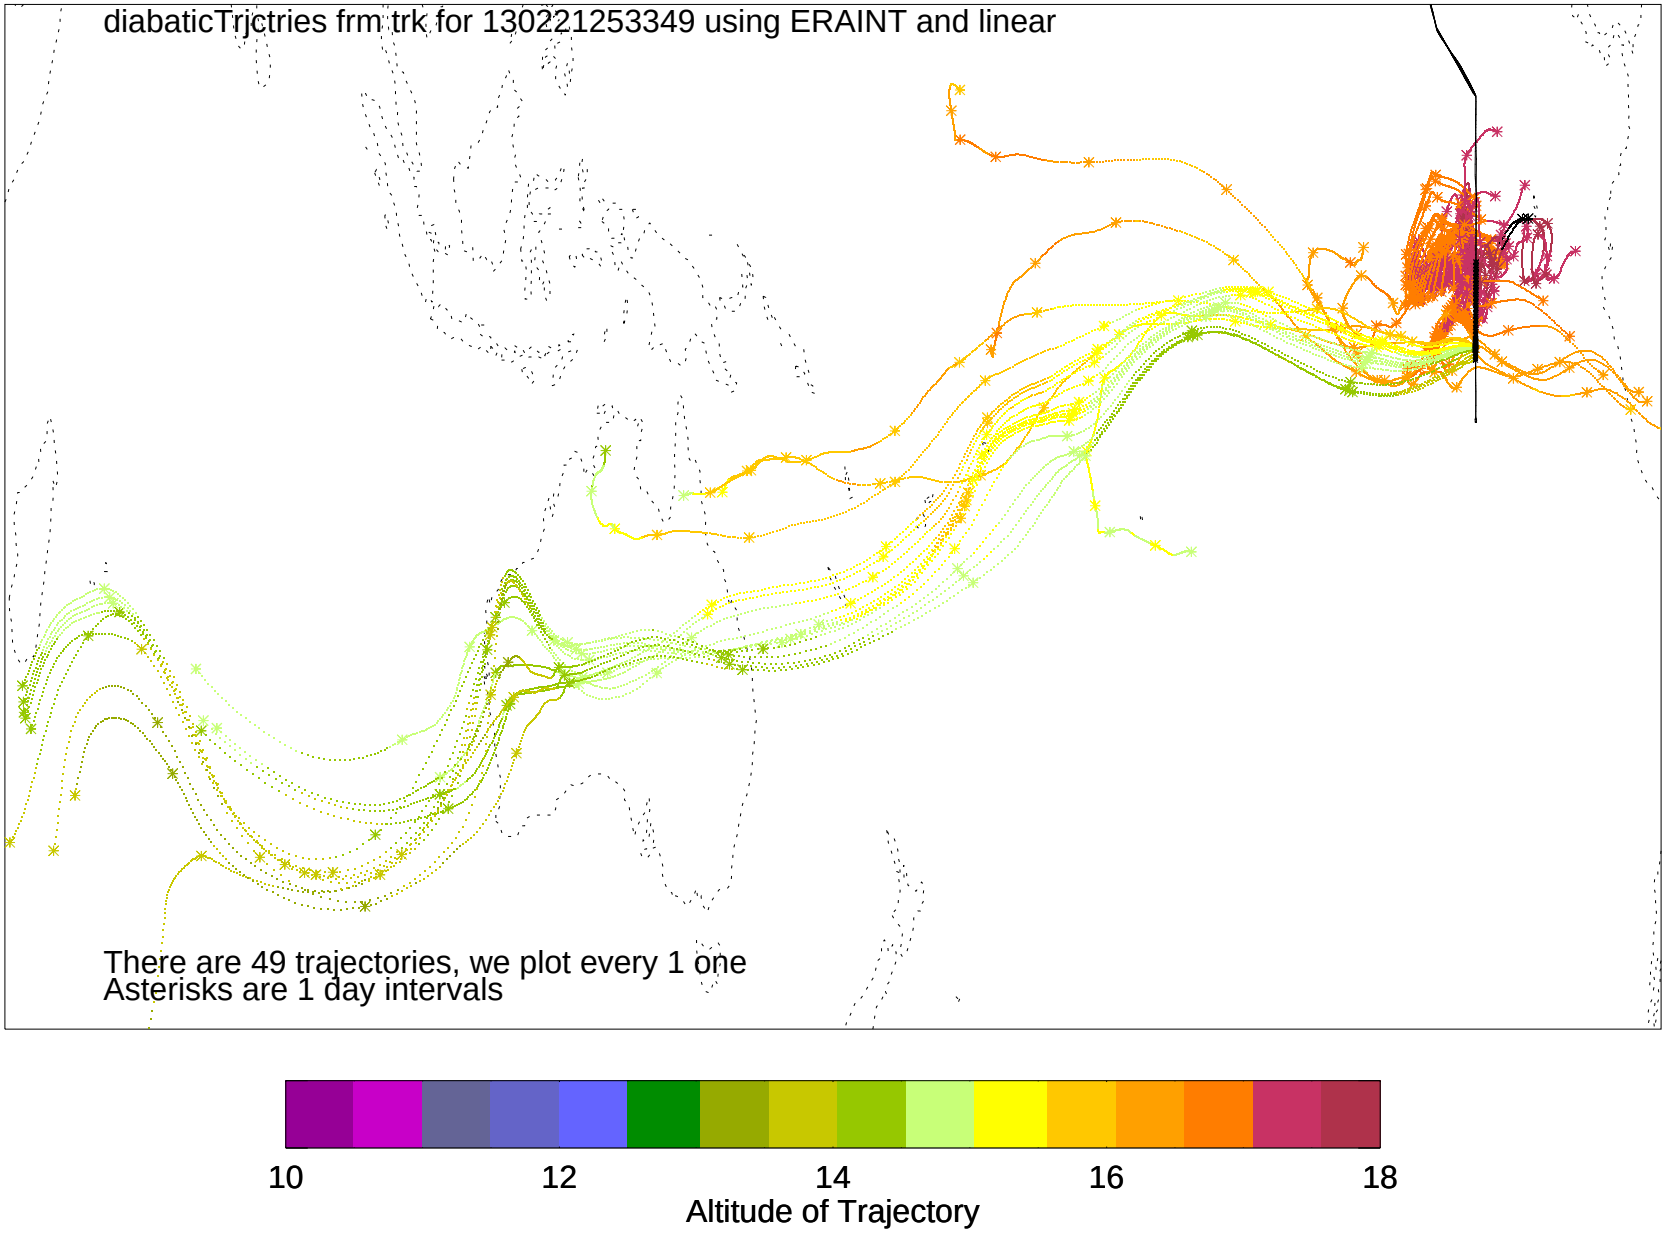
diabaticTrjctries frm trk for 130221223349 using ERAINT and linear
There are 43 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



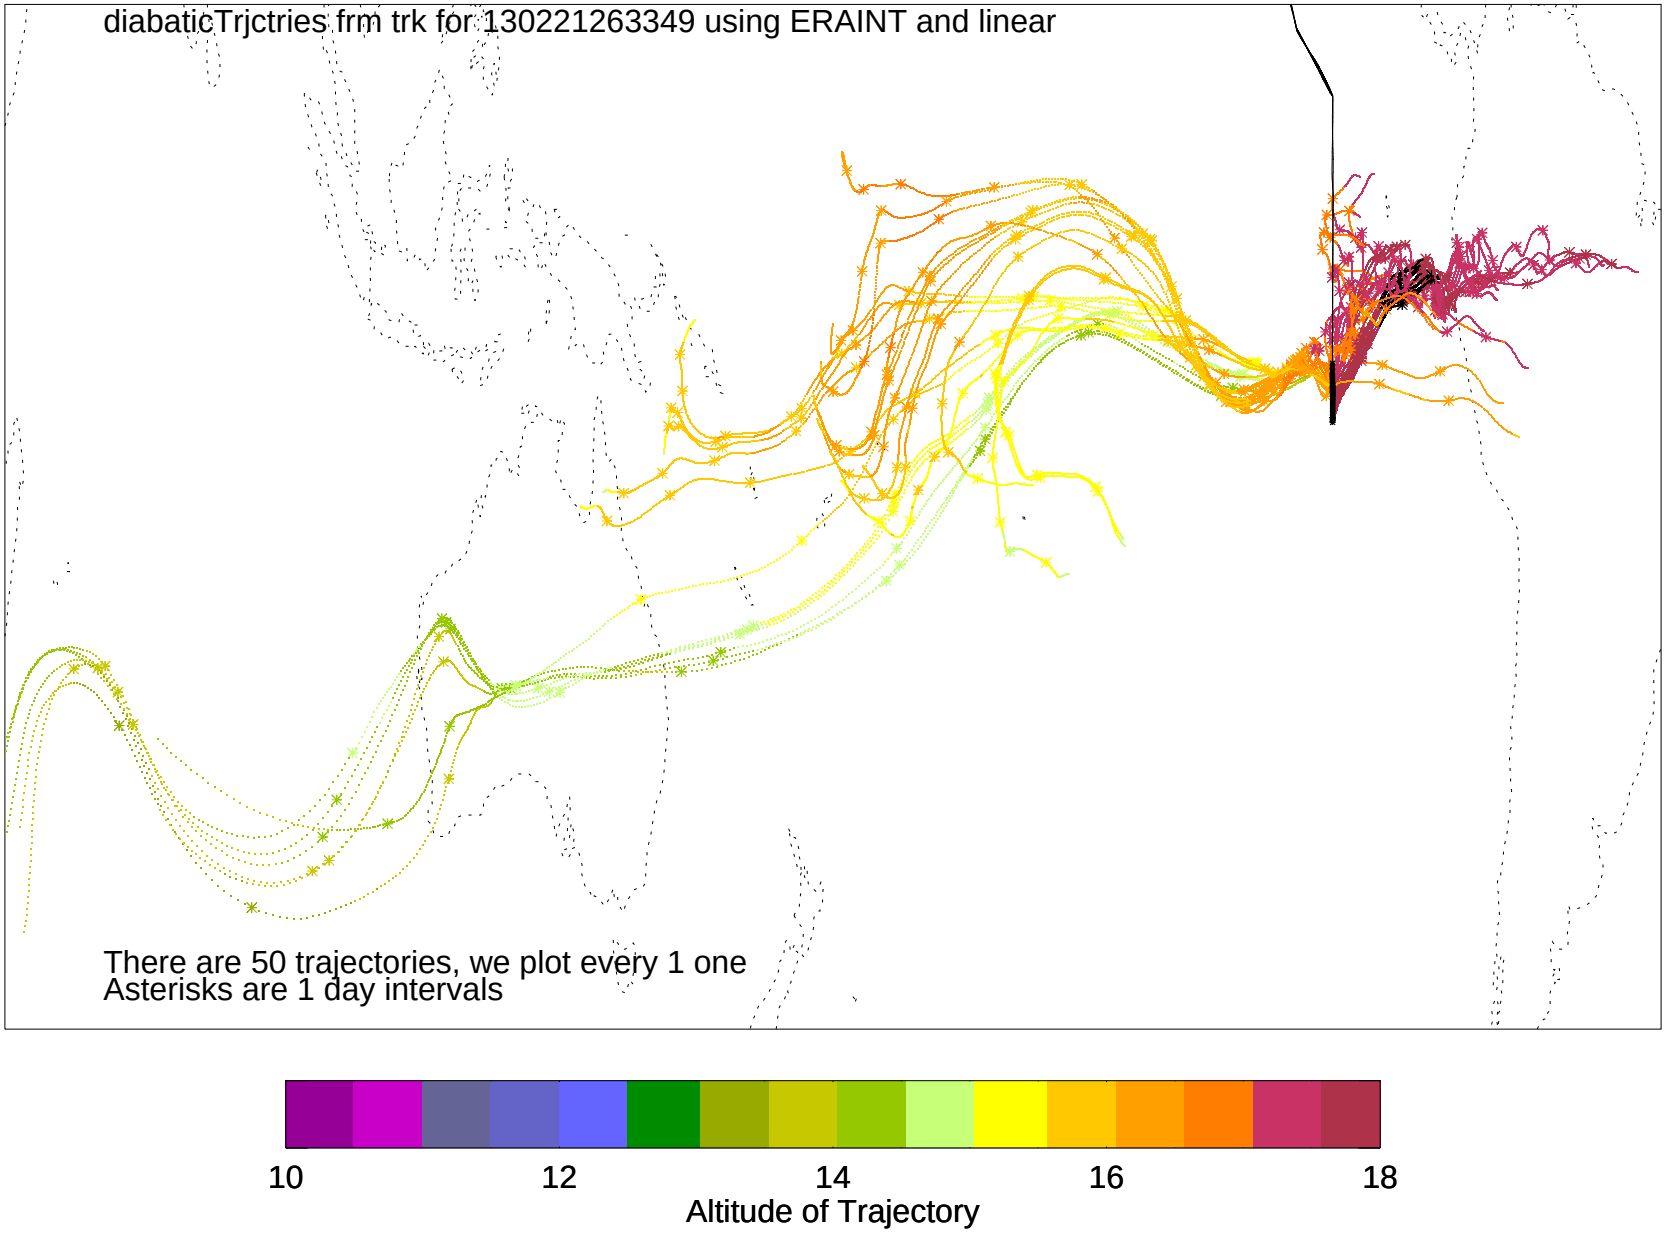
diabaticTrjctries frm trk for 130221233349 using ERAINT and linear
There are 37 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



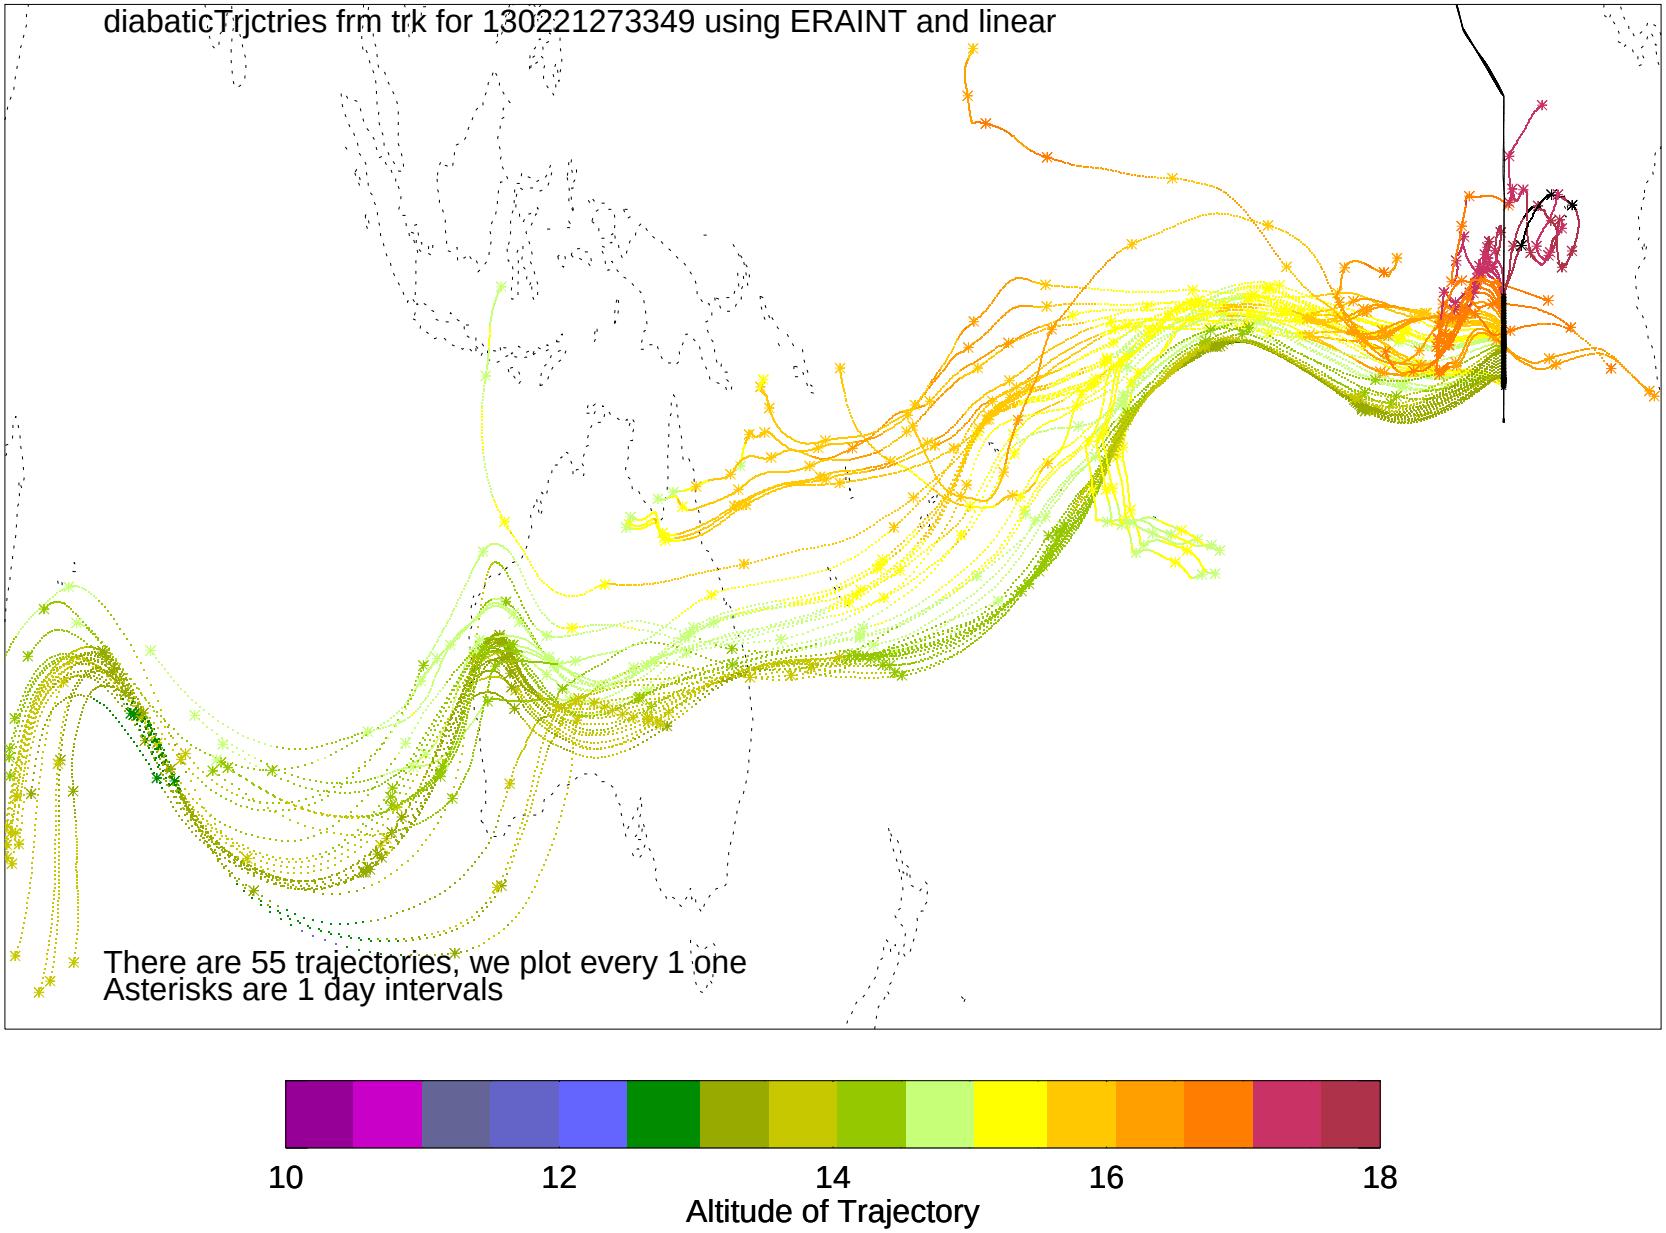
diabaticTrjctries frm trk for 130221243349 using ERAINT and linear
There are 53 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



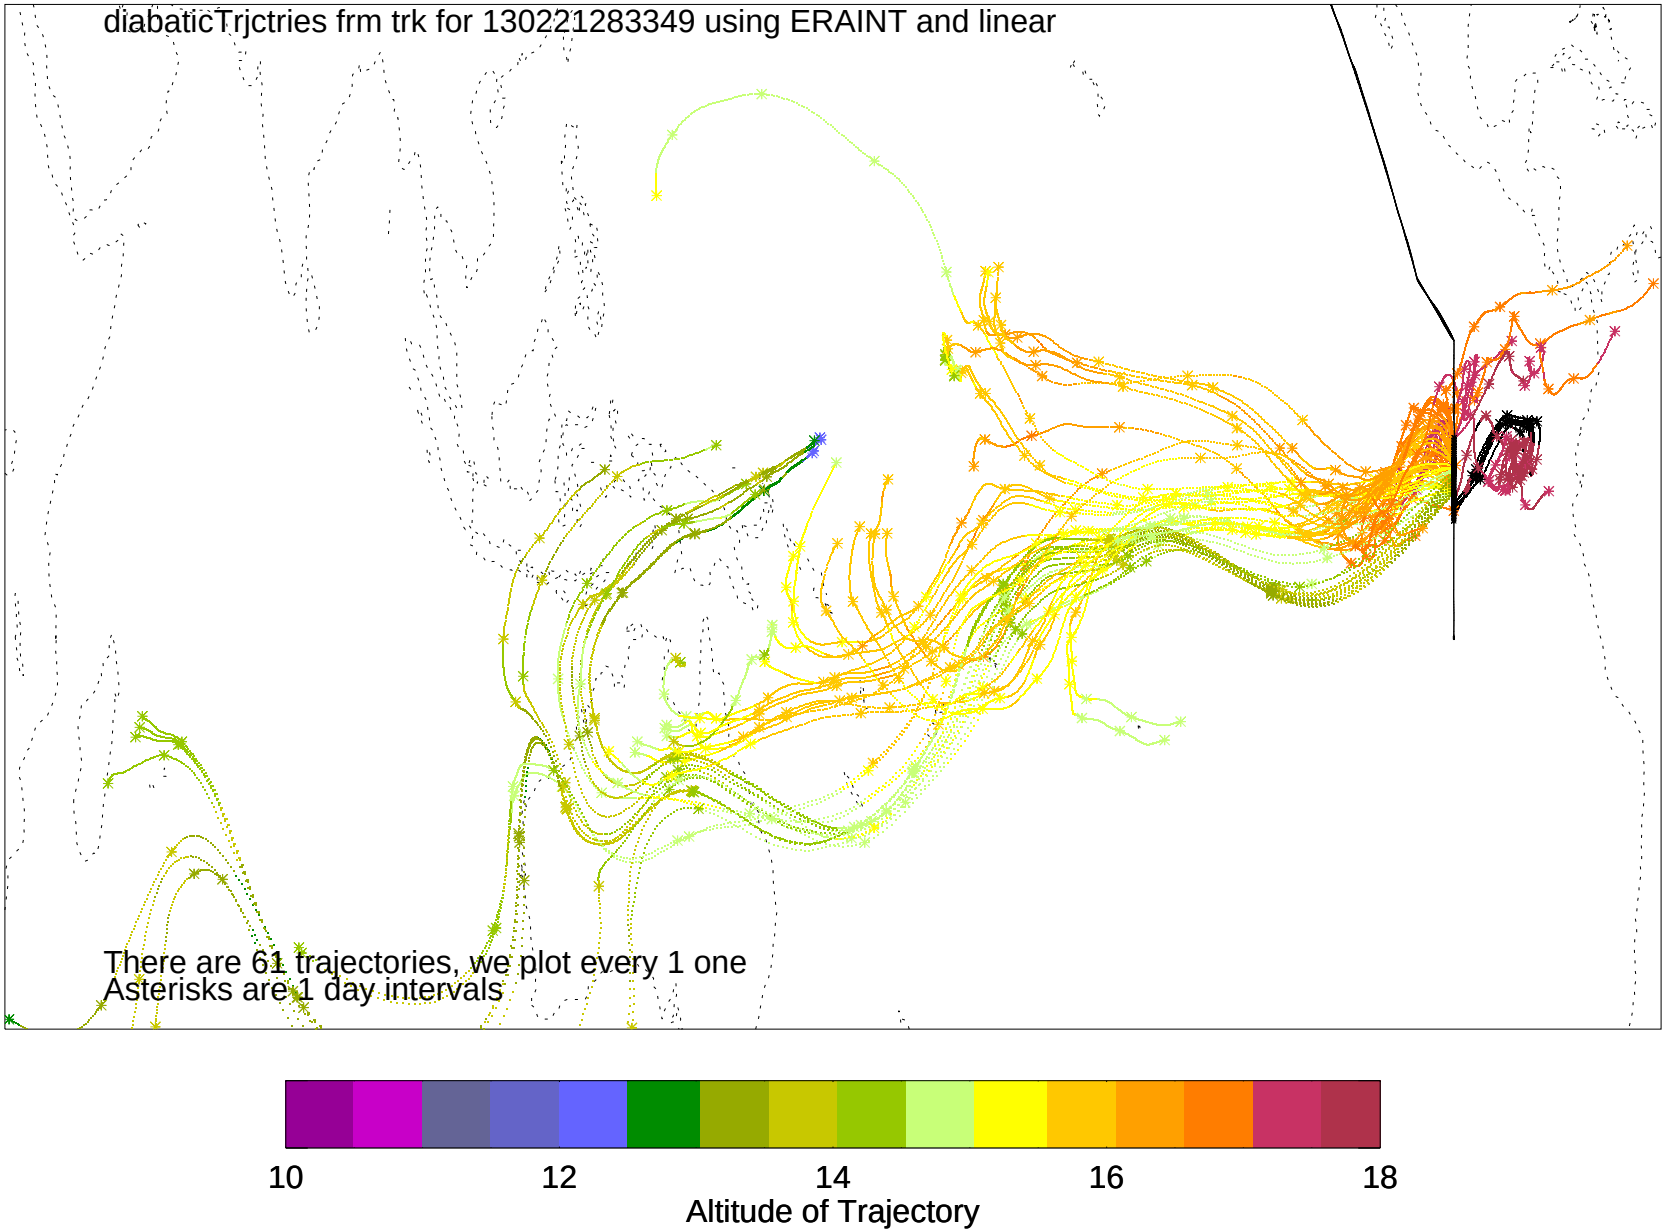
diabaticTrjctries frm trk for 130221253349 using ERAINT and linear
There are 49 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



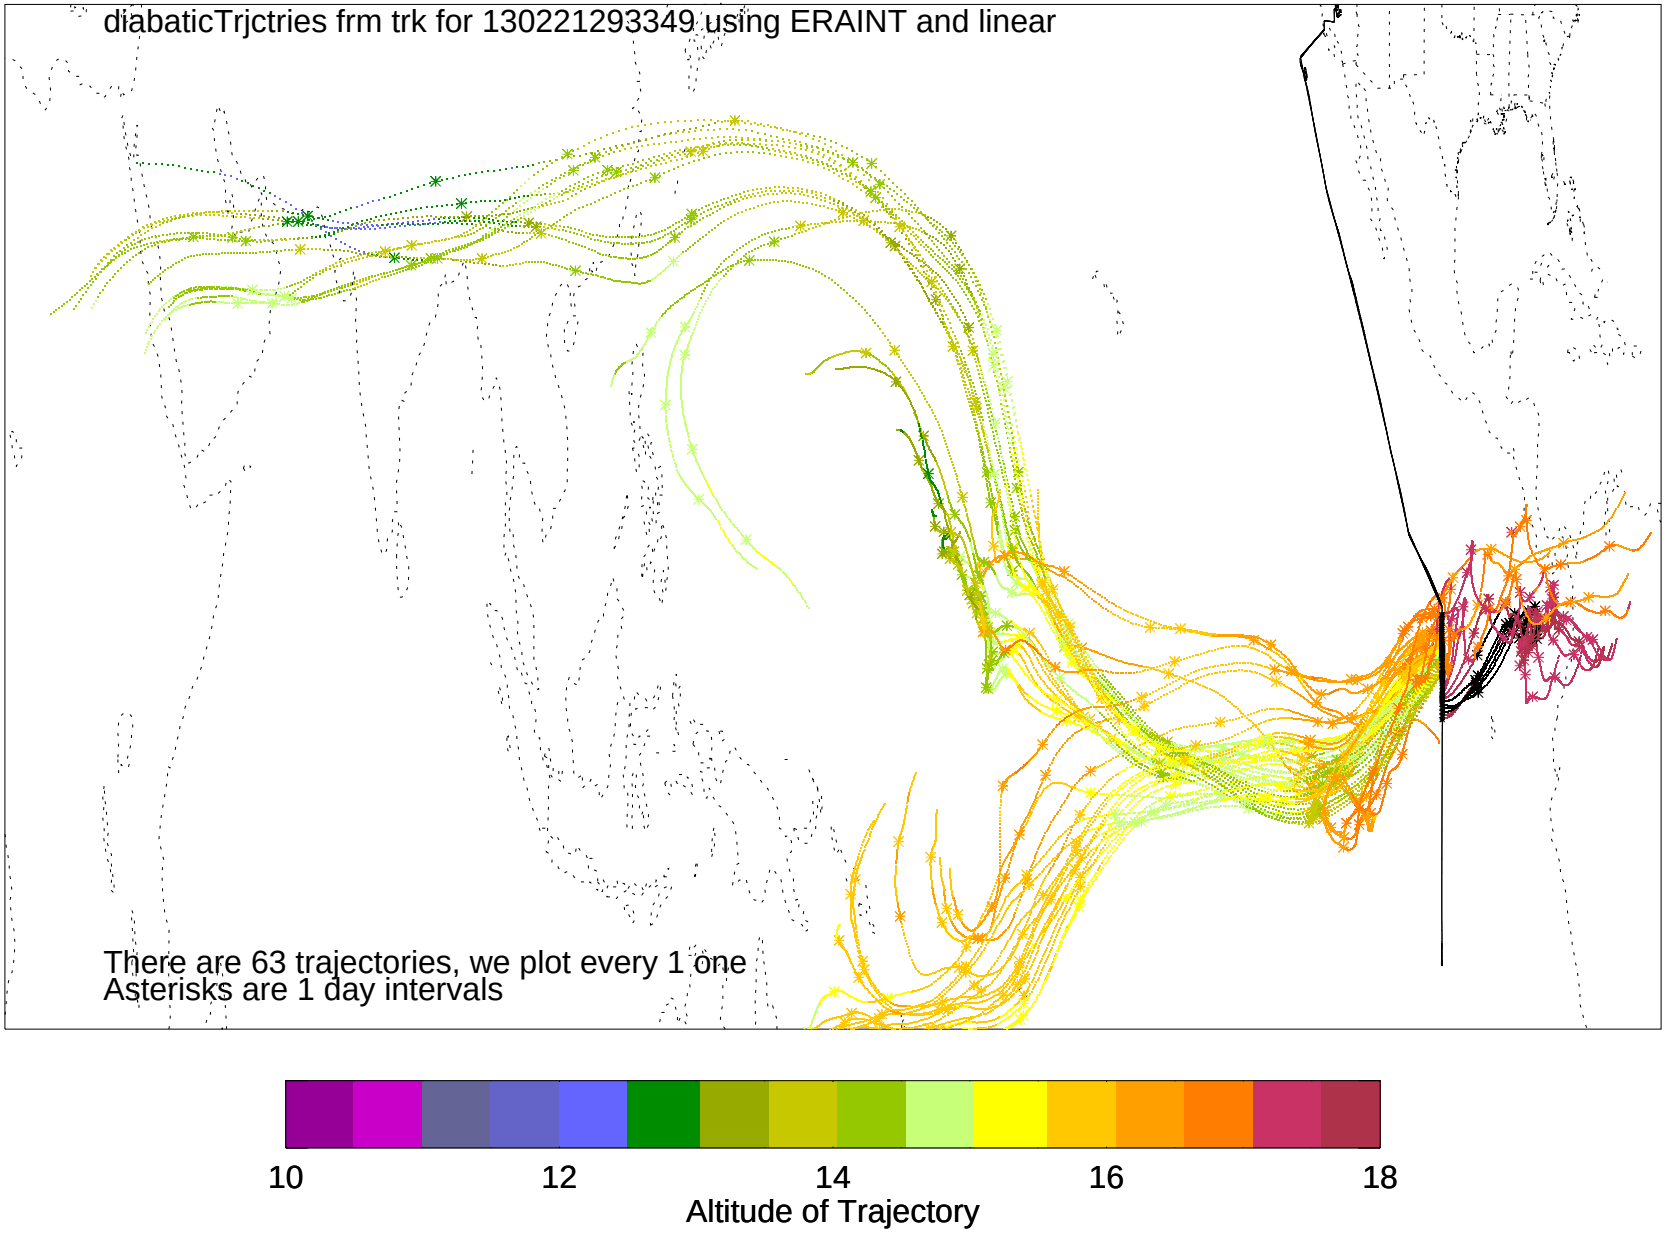
diabaticTrjctries frm trk for 130221263349 using ERAINT and linear
There are 50 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



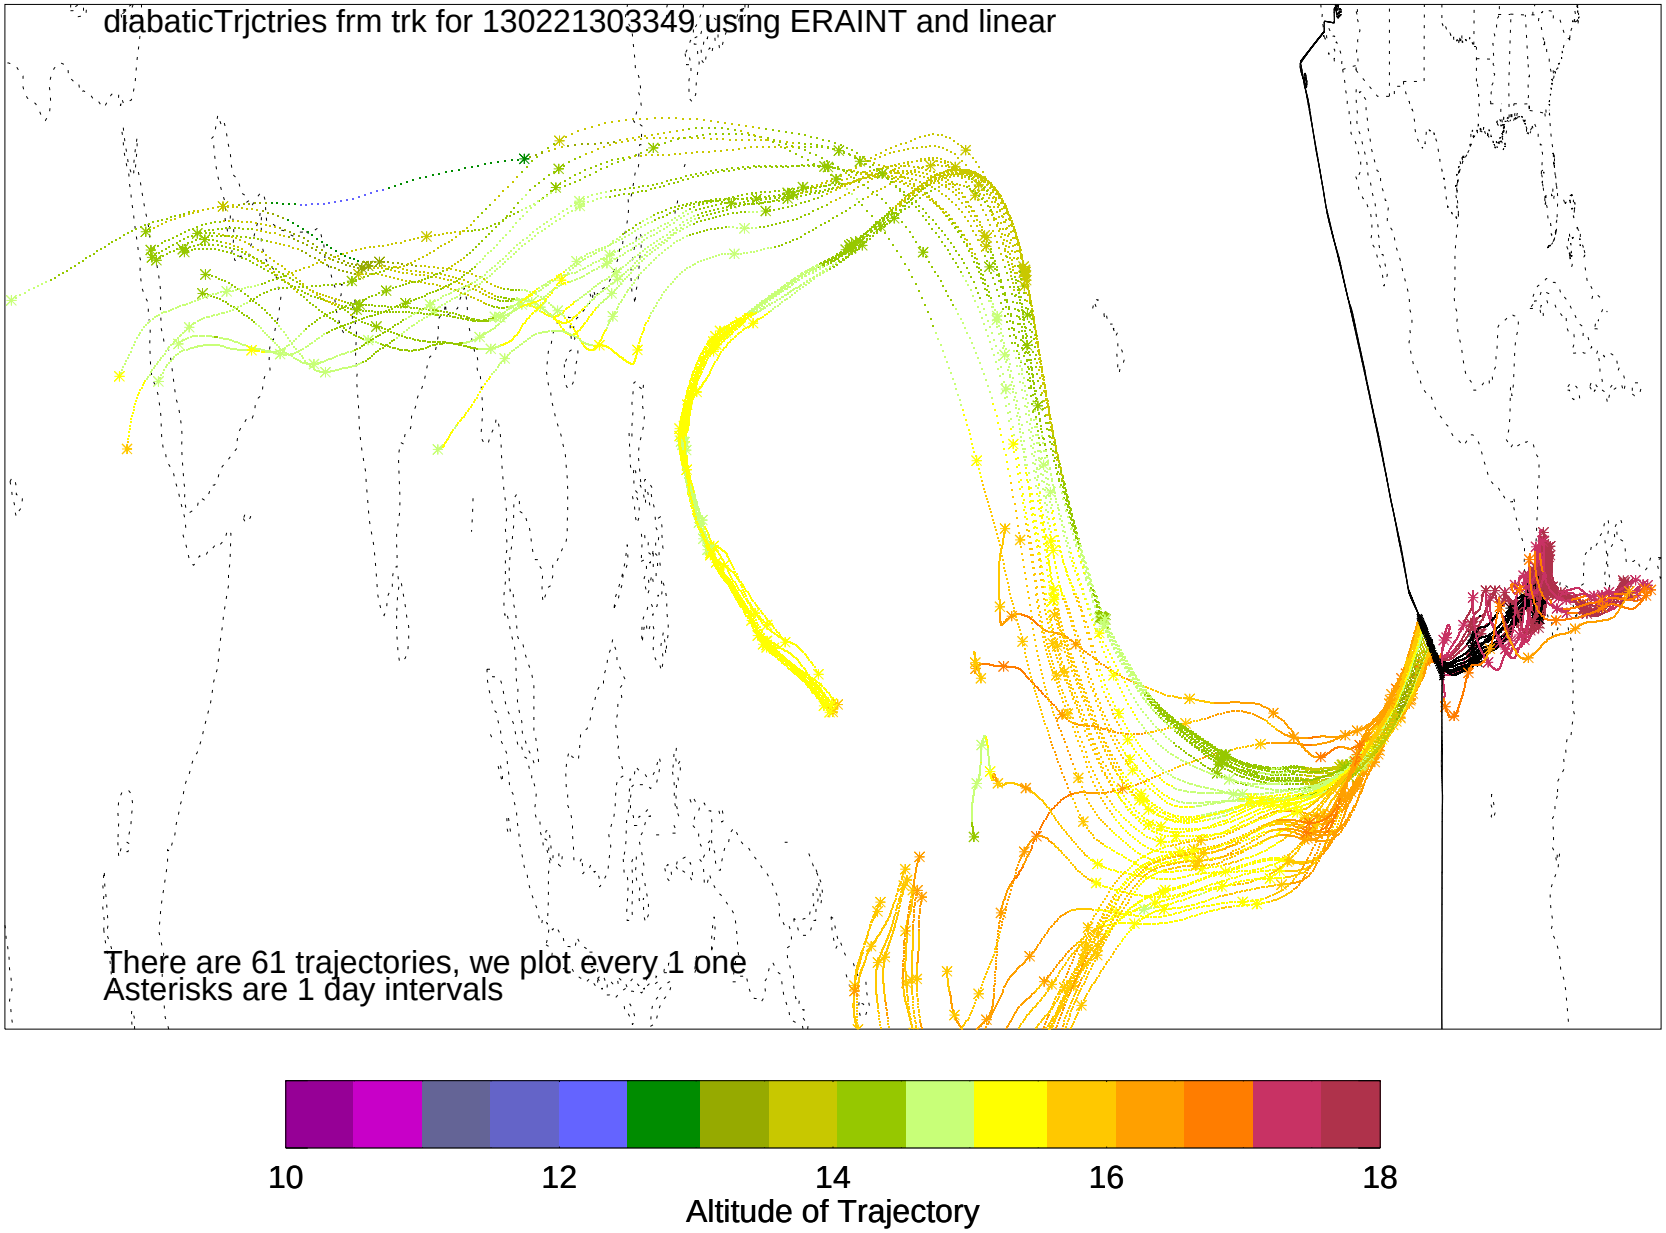
diabaticTrjctries frm trk for 130221273349 using ERAINT and linear
There are 55 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



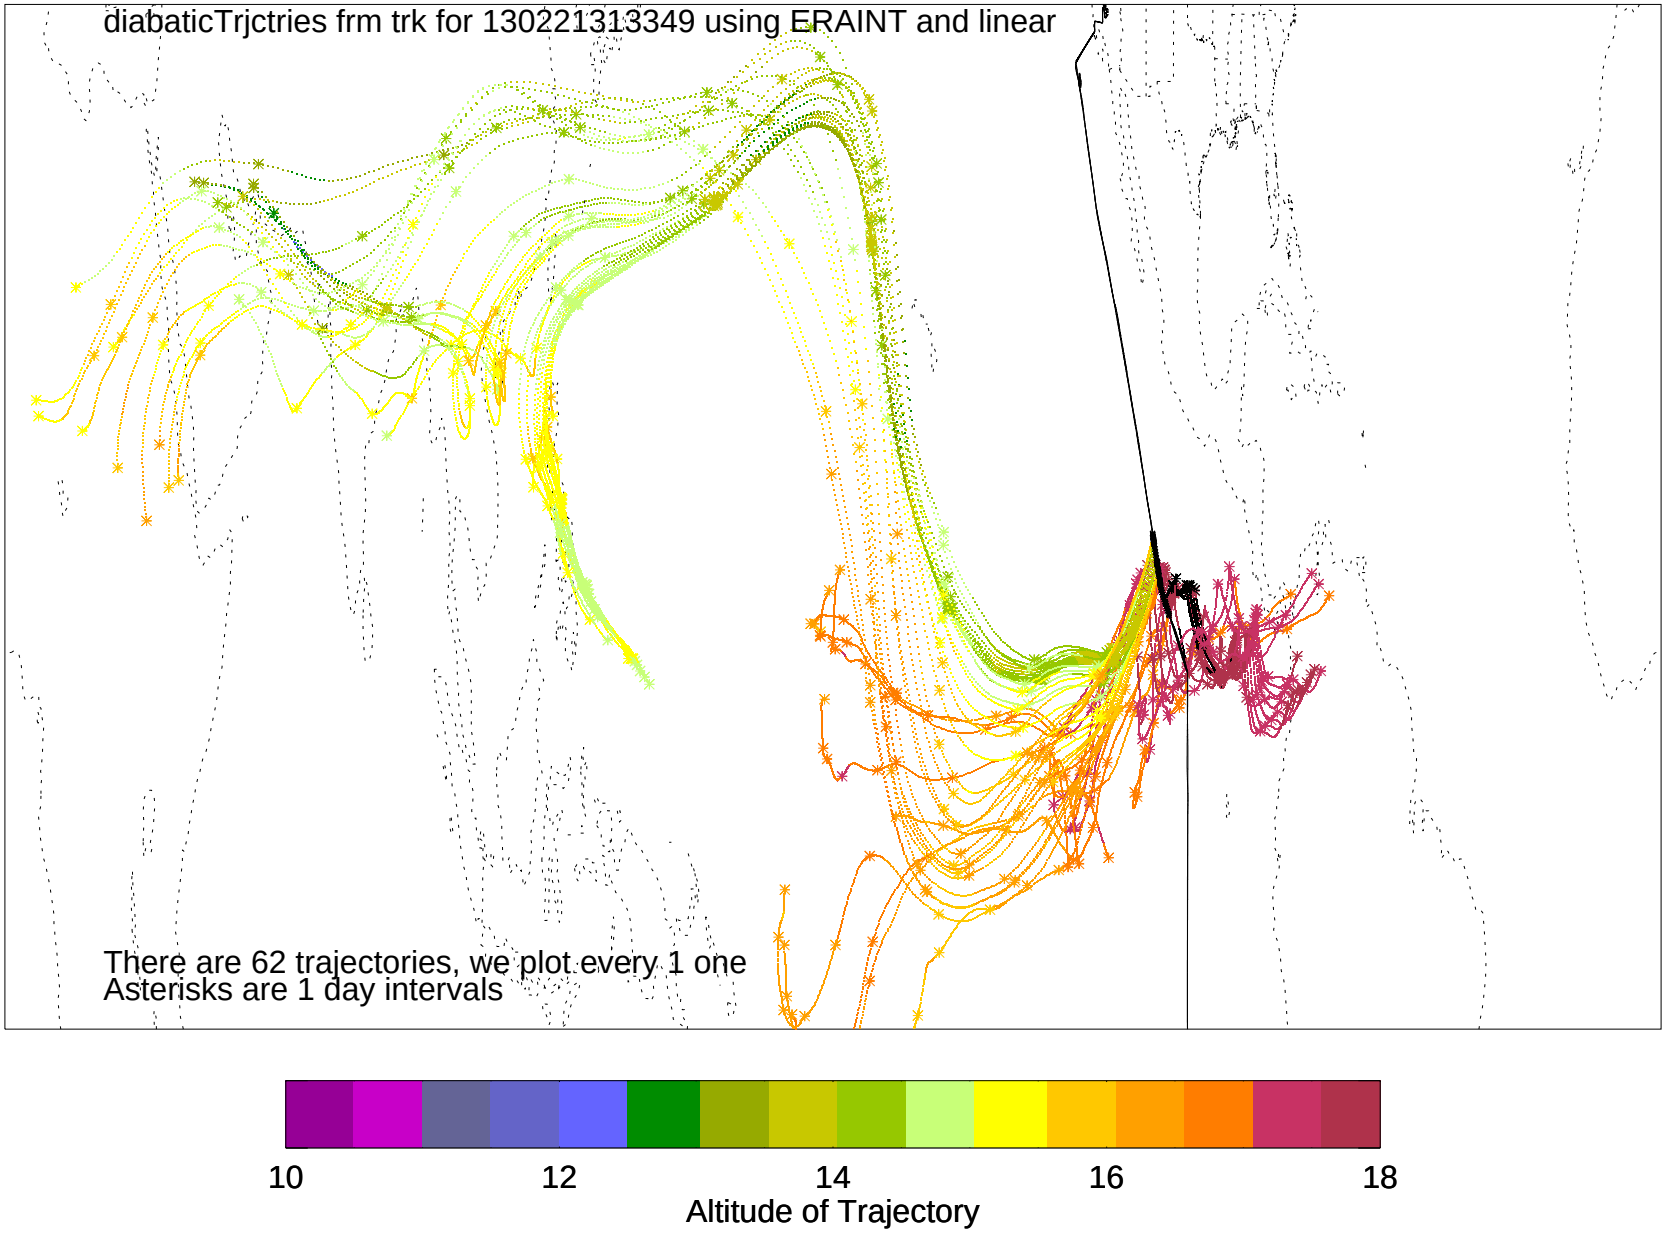
diabaticTrjctries frm trk for 130221283349 using ERAINT and linear
There are 61 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



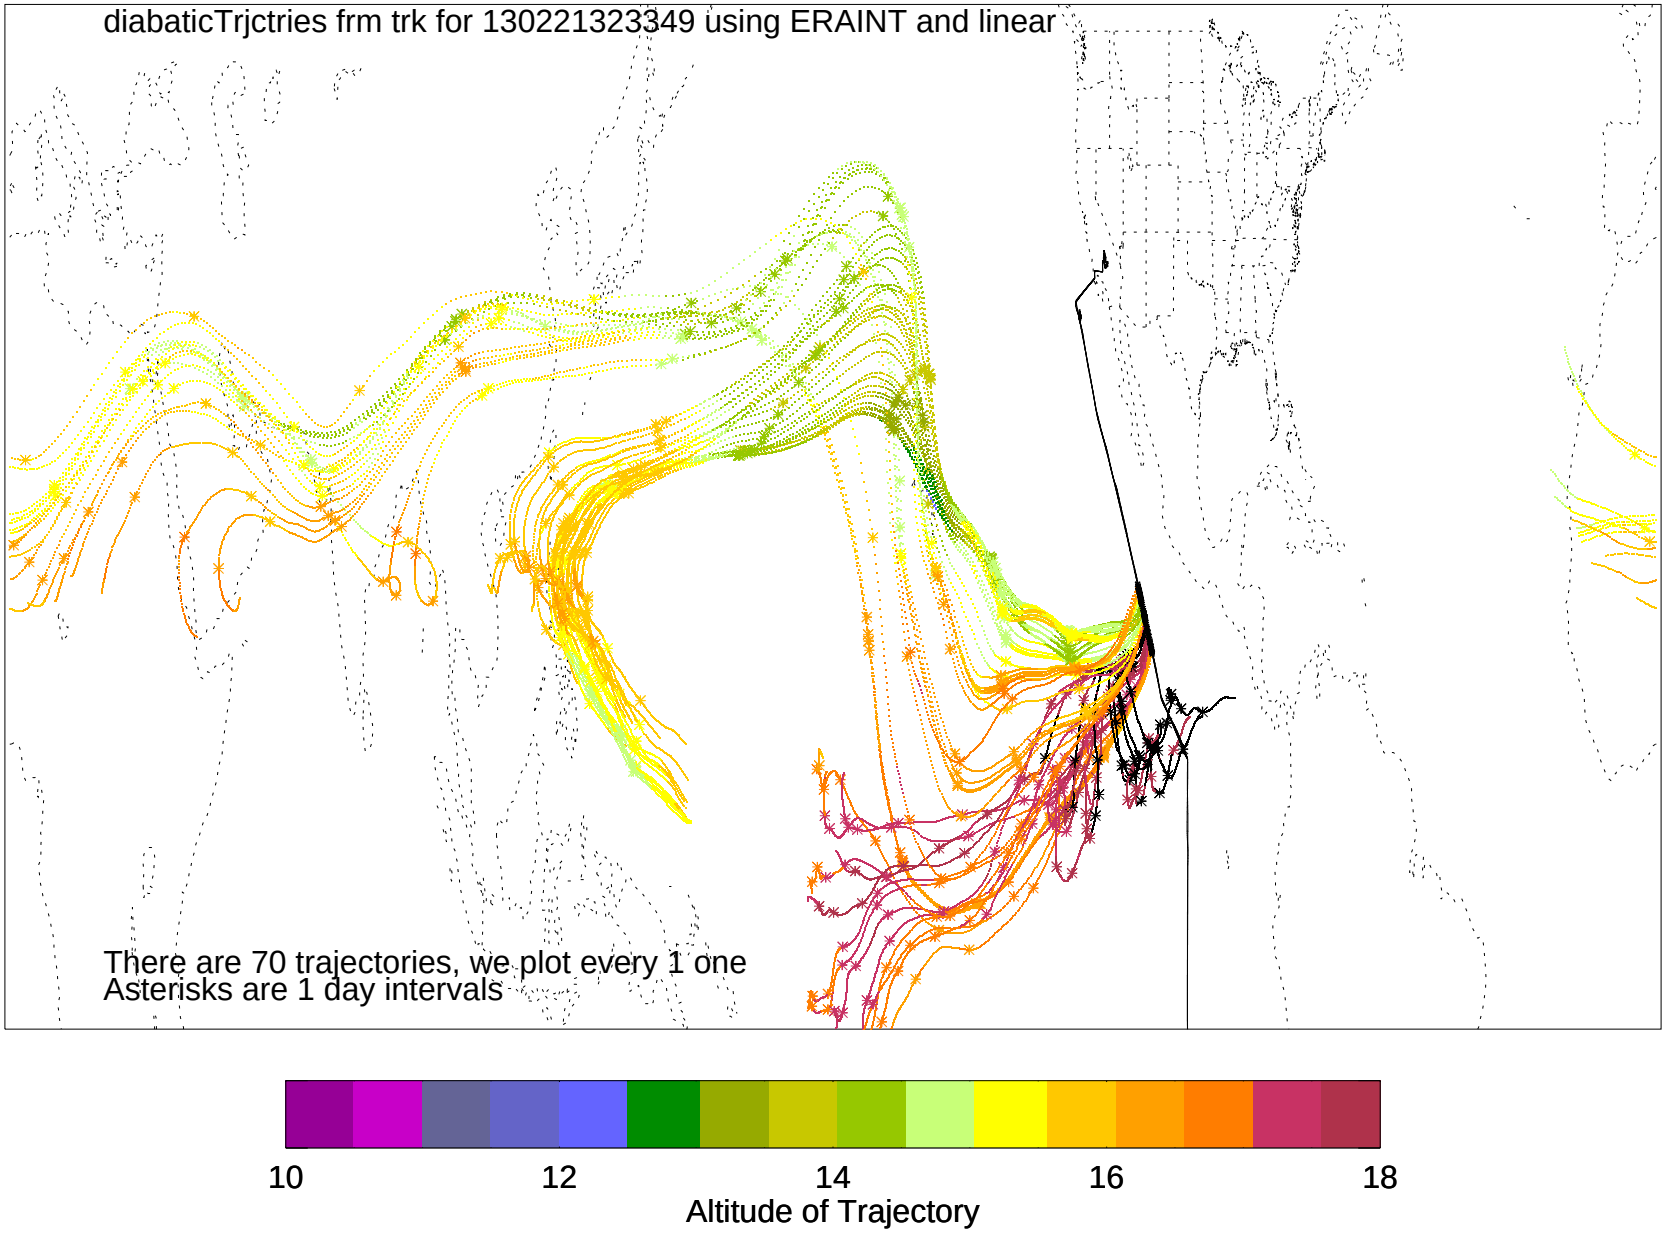
diabaticTrjctries frm trk for 130221293349 using ERAINT and linear
There are 63 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



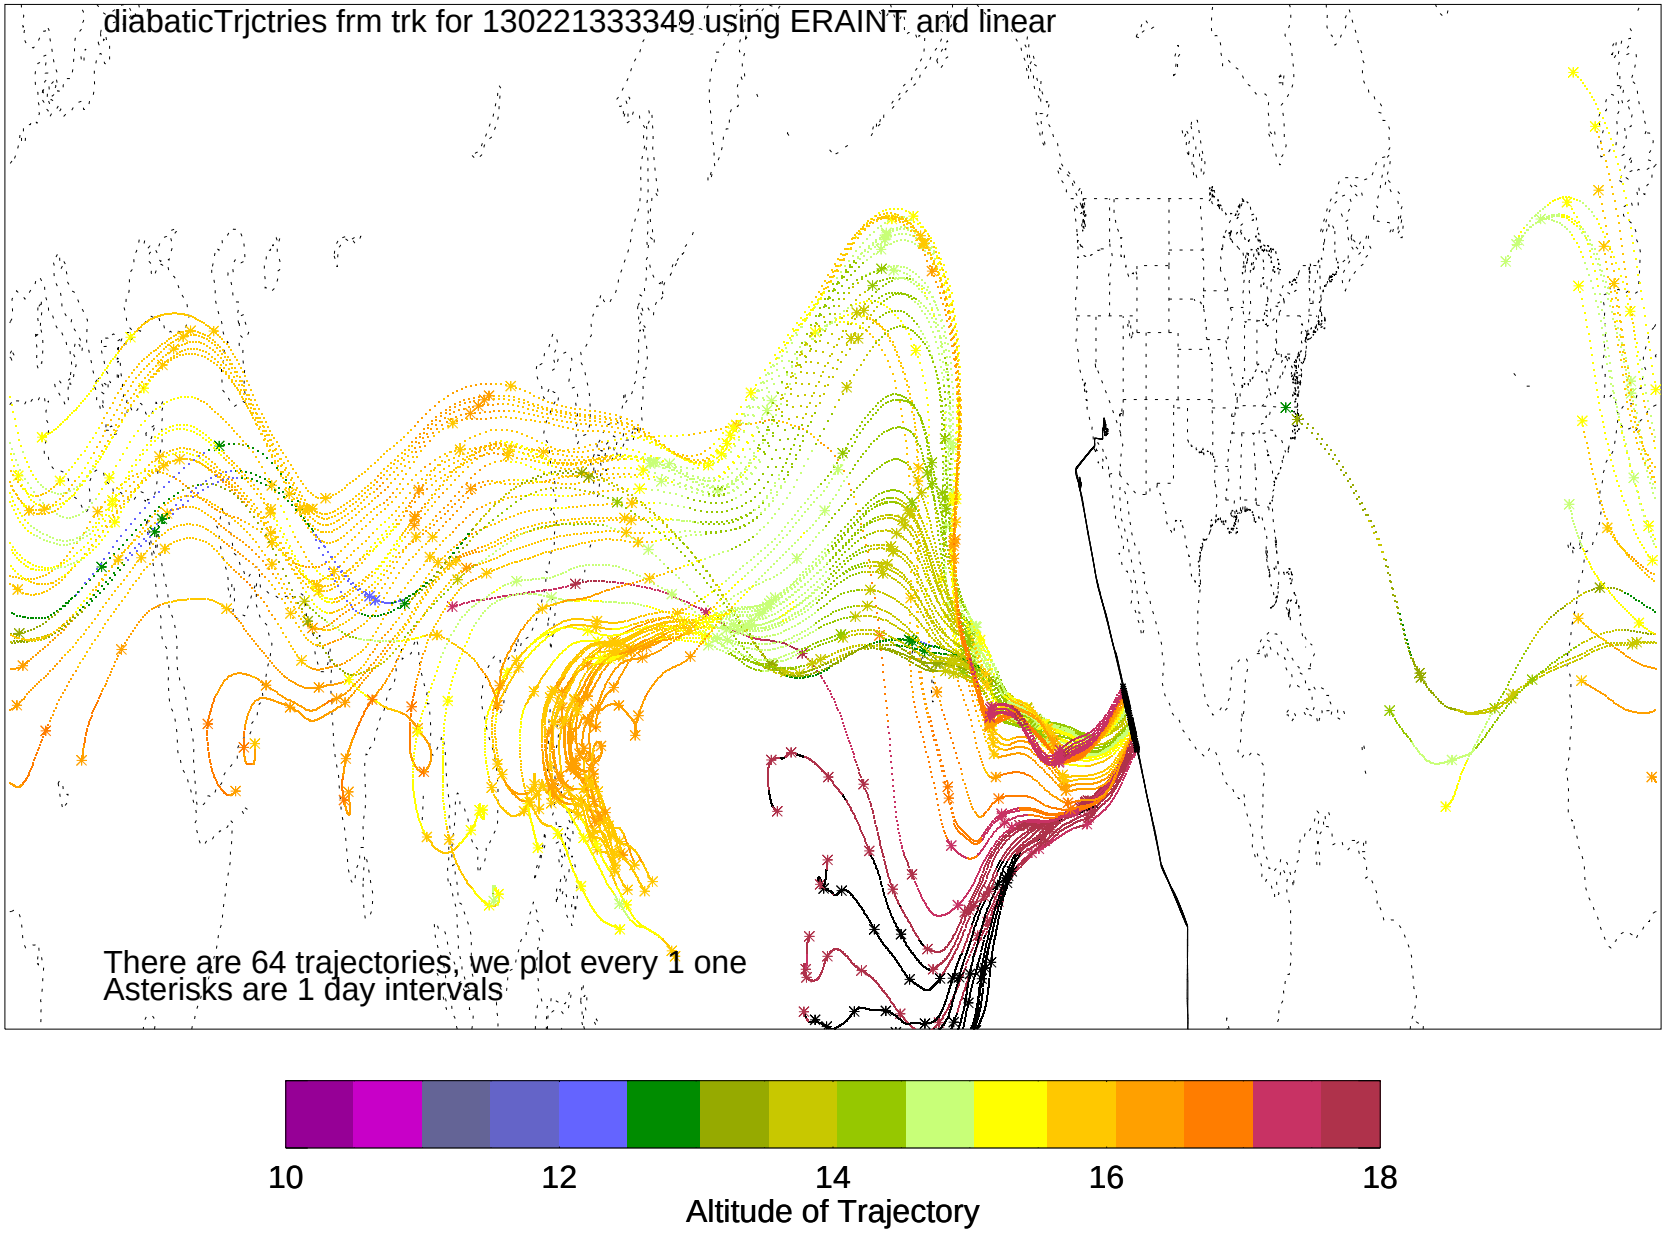
diabaticTrjctries frm trk for 130221303349 using ERAINT and linear
There are 61 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



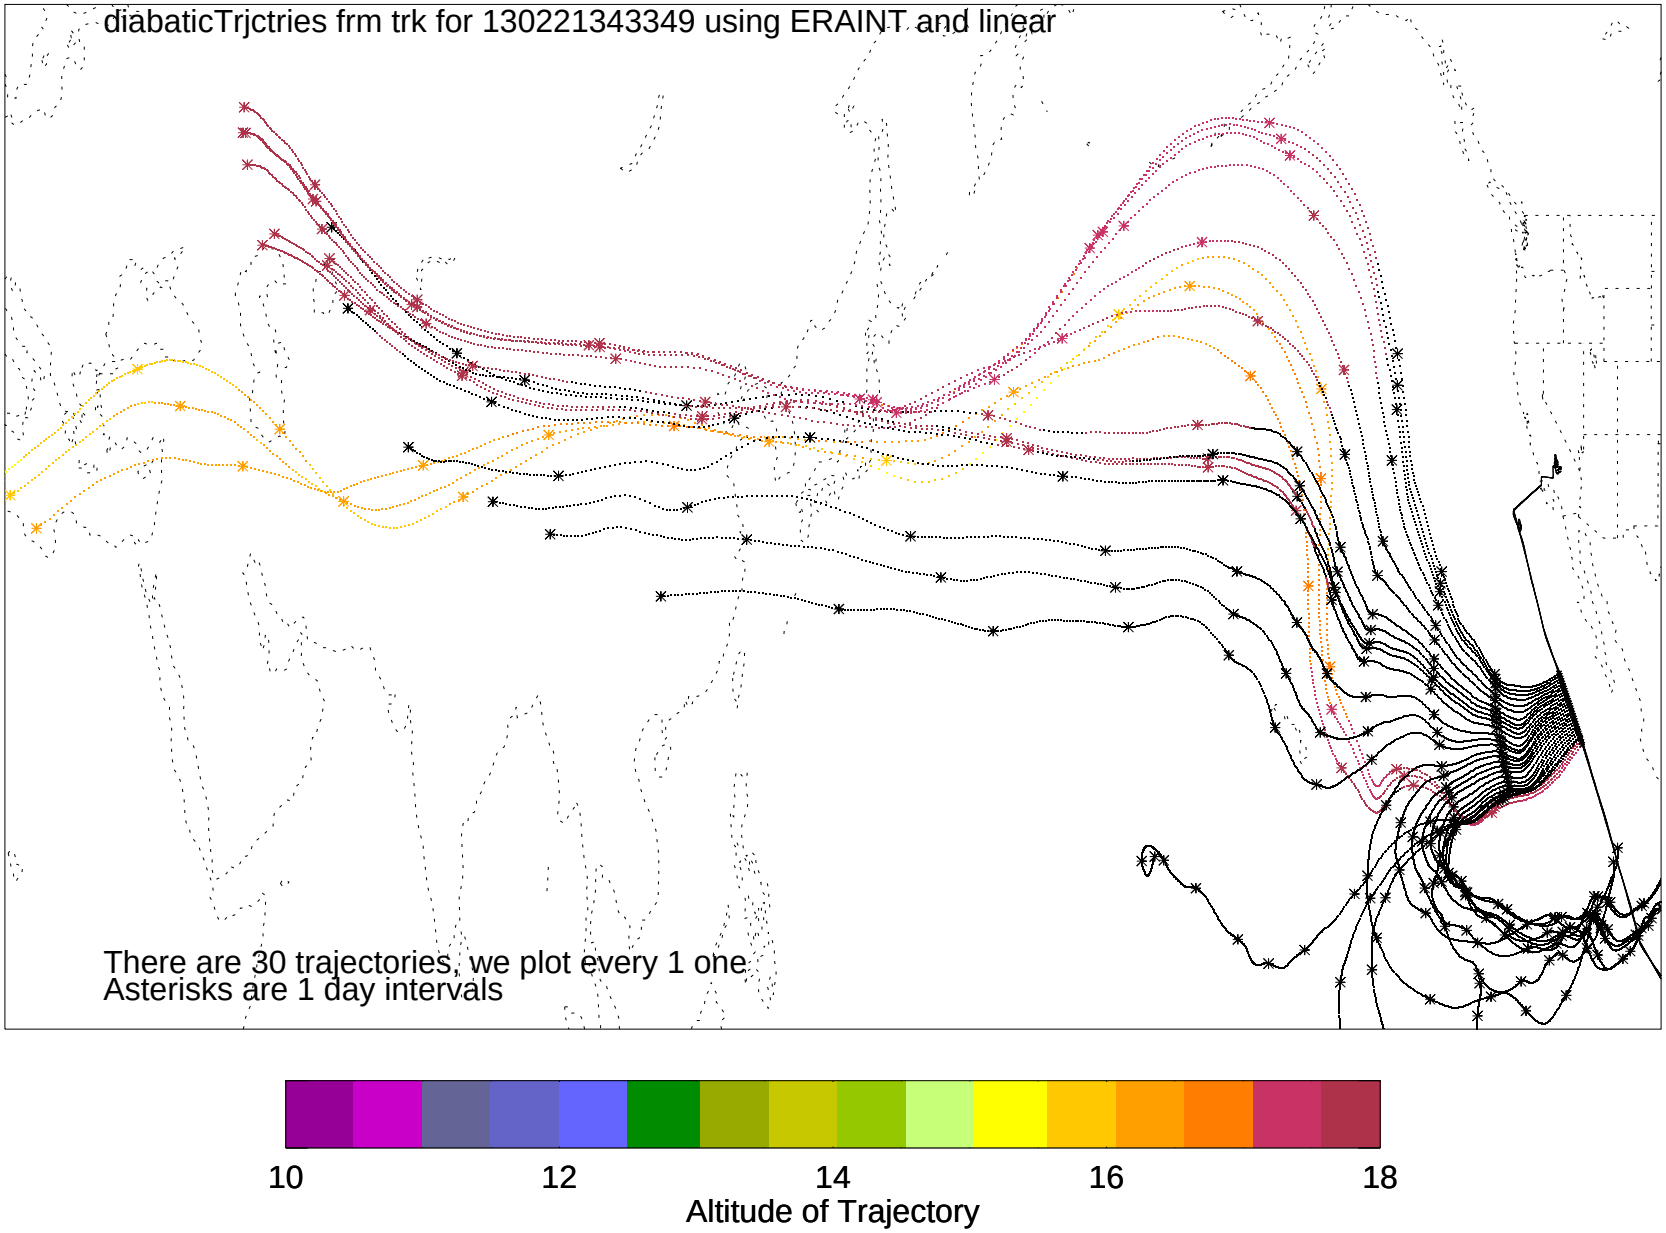
diabaticTrjctries frm trk for 130221313349 using ERAINT and linear
There are 62 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



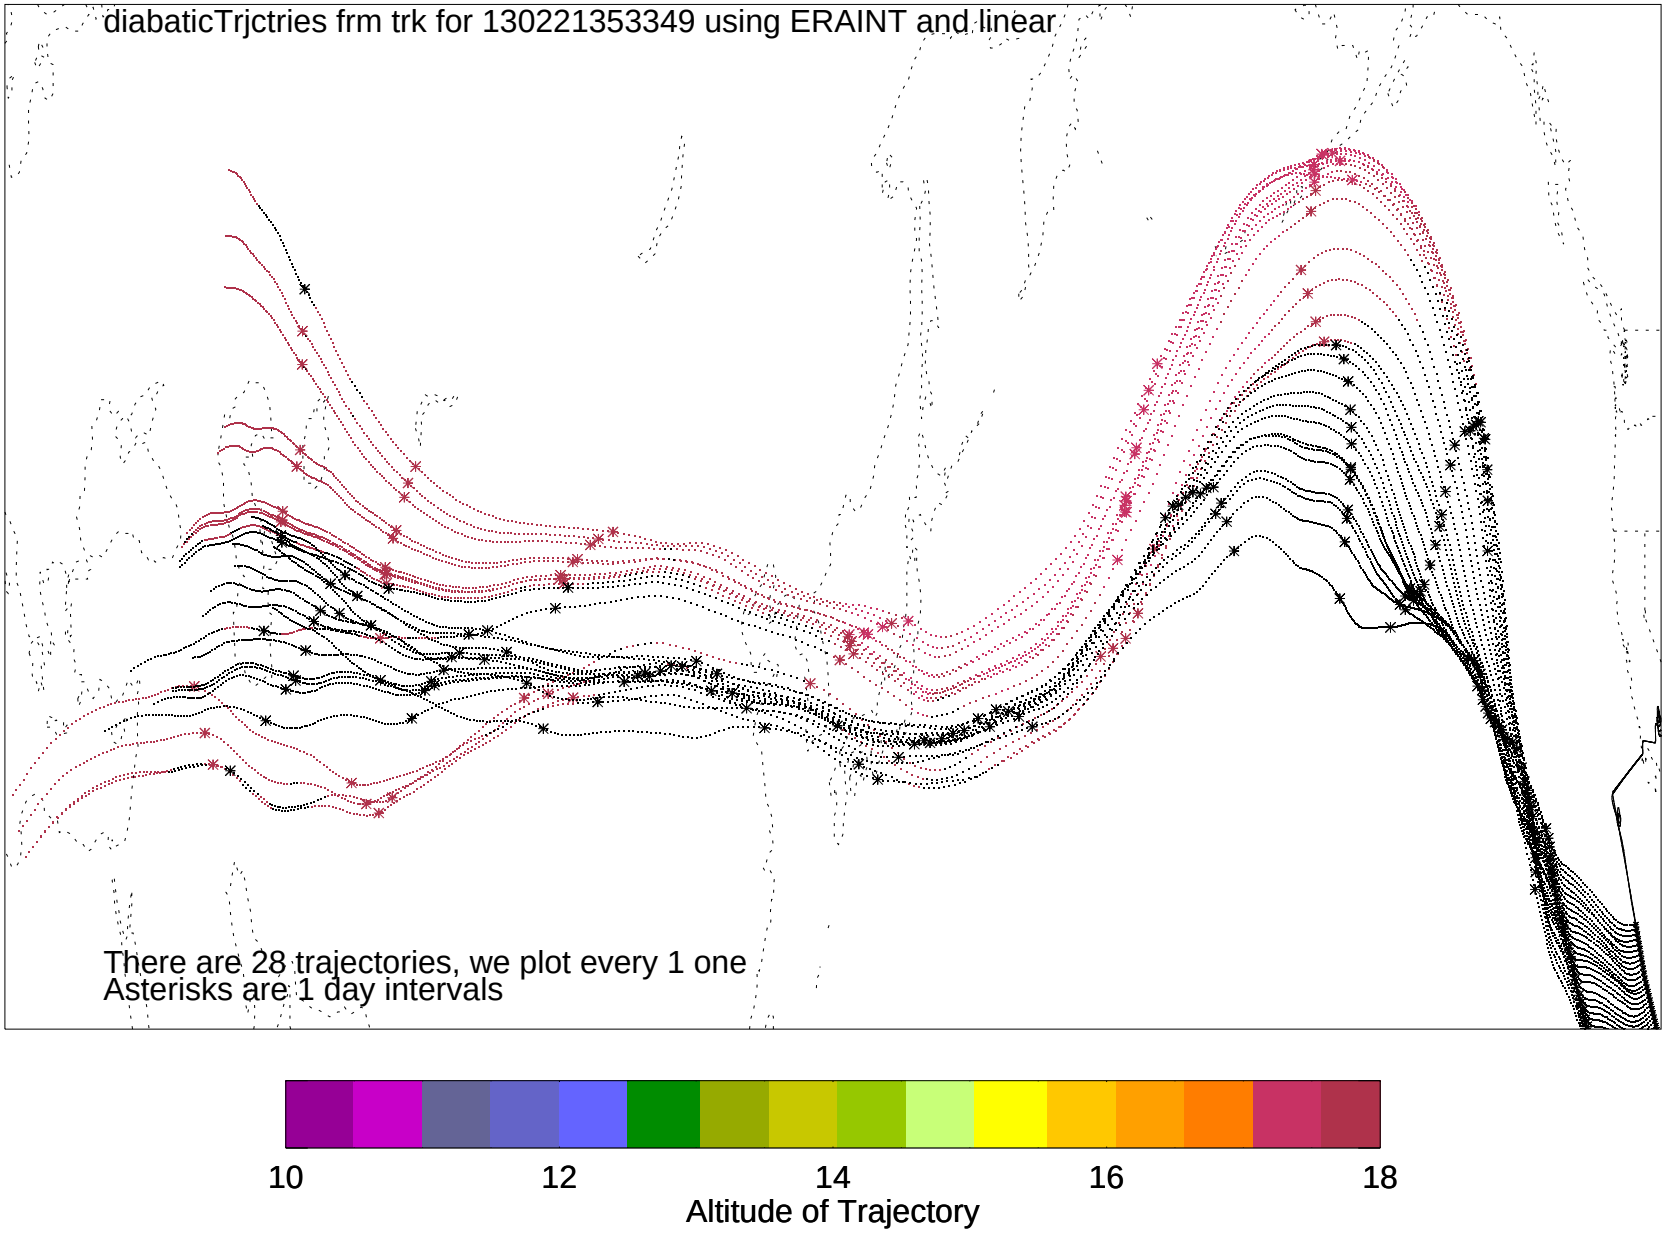
diabaticTrjctries frm trk for 130221323349 using ERAINT and linear
There are 70 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



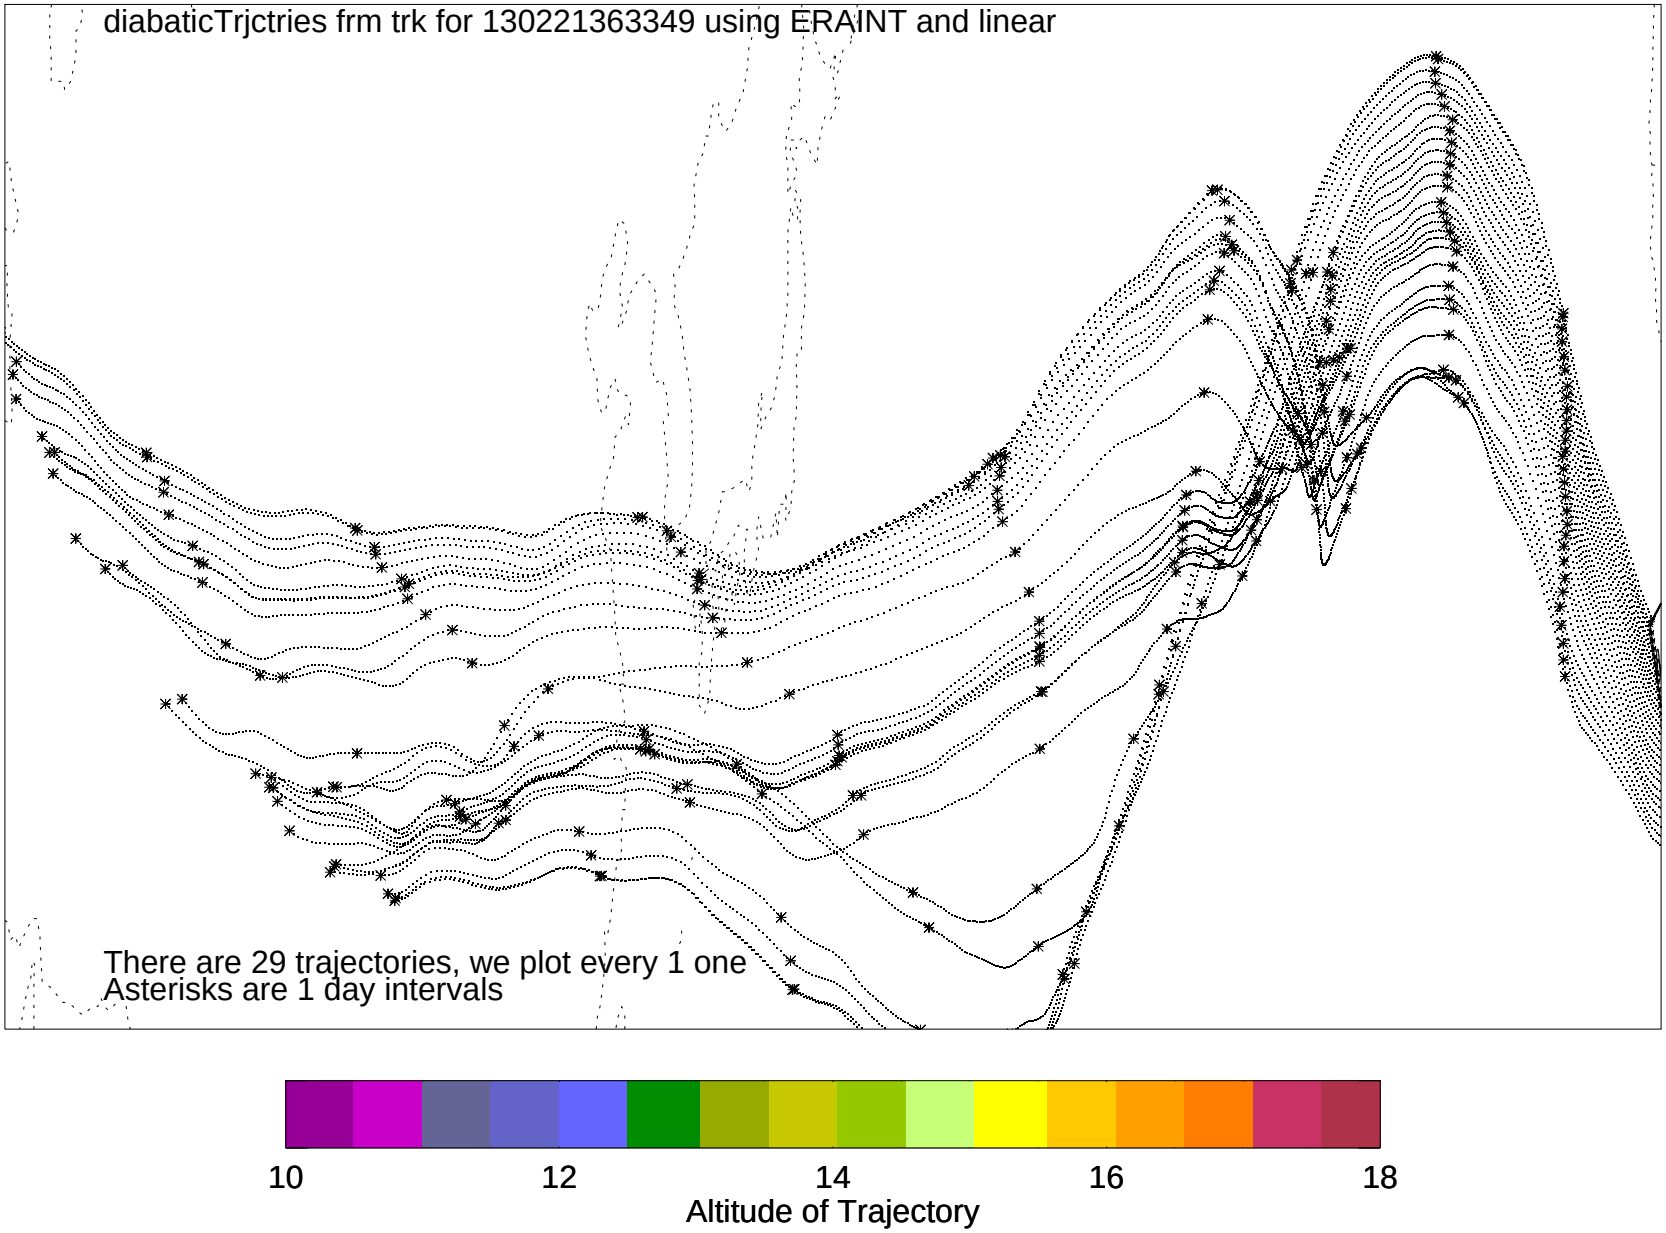
diabaticTrjctries frm trk for 130221333349 using ERAINT and linear
There are 64 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



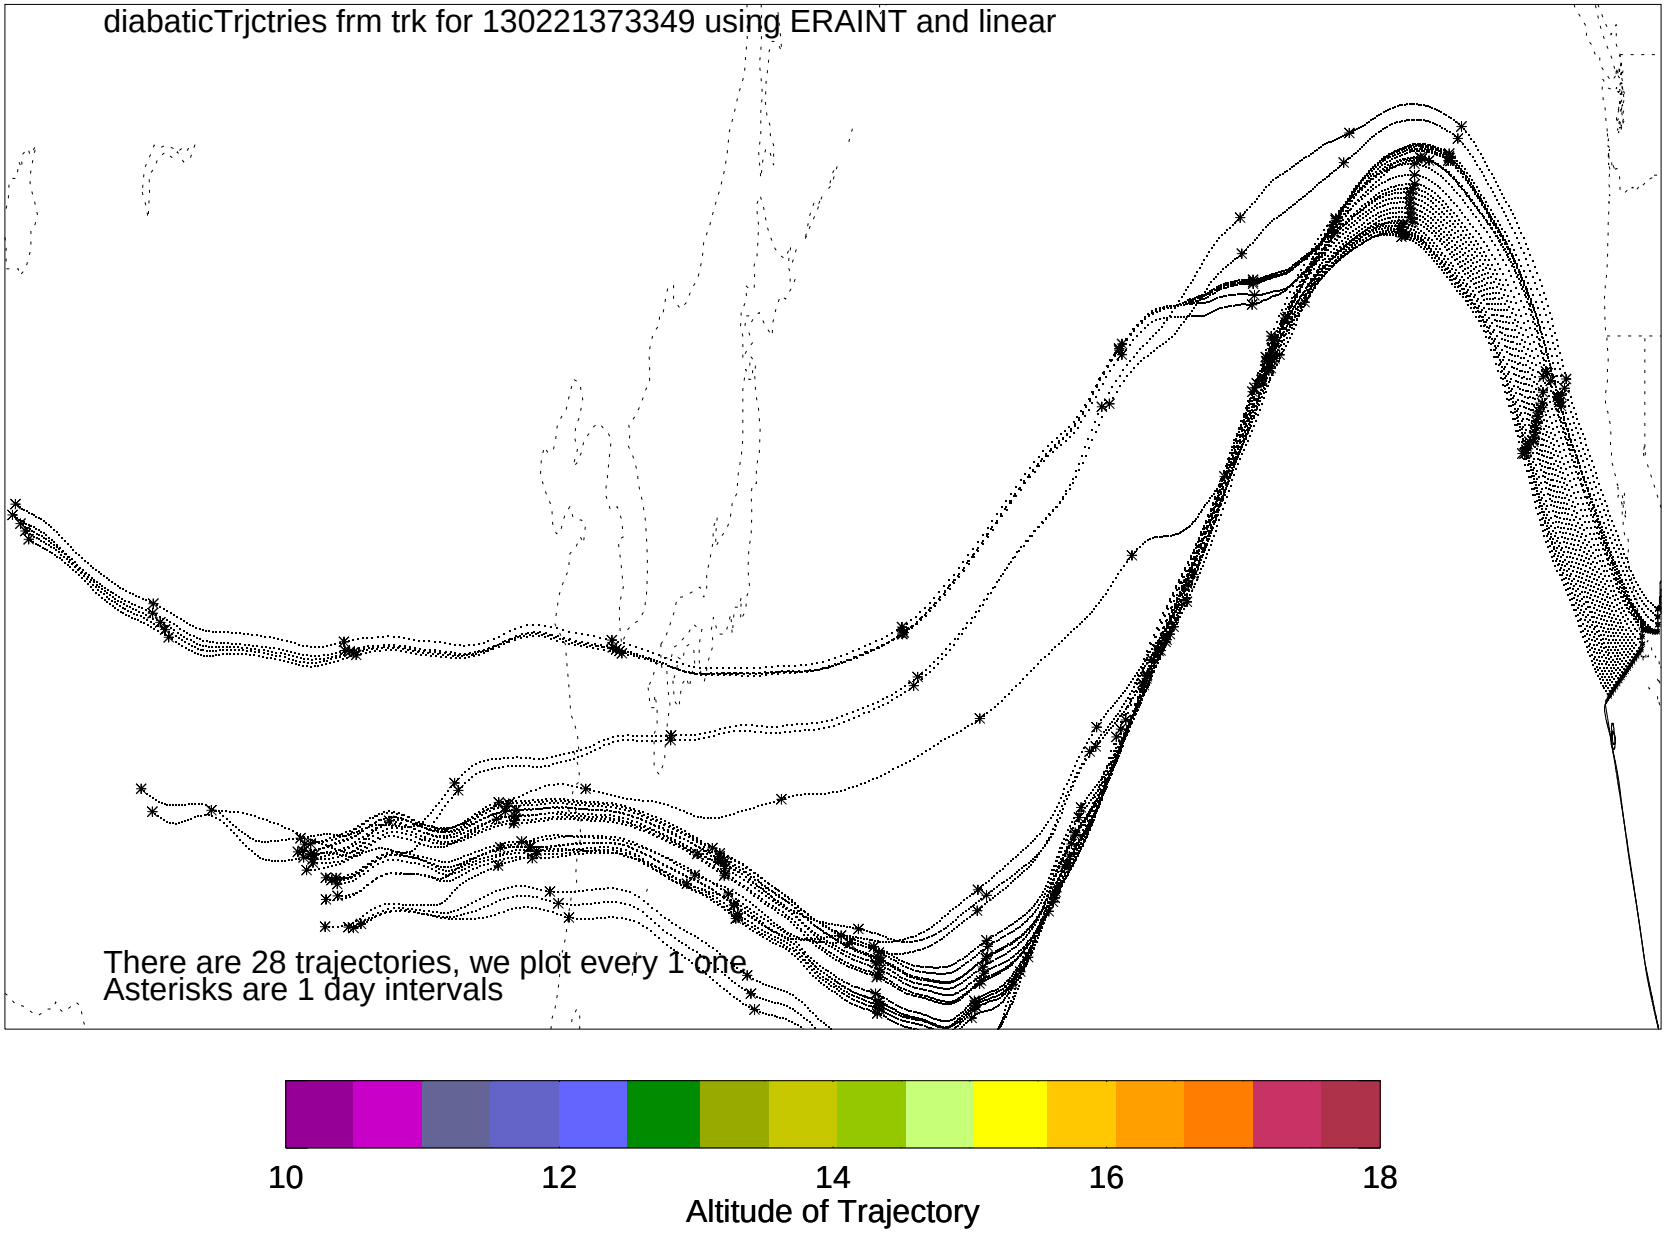
diabaticTrjctries frm trk for 130221343349 using ERAINT and linear
There are 30 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



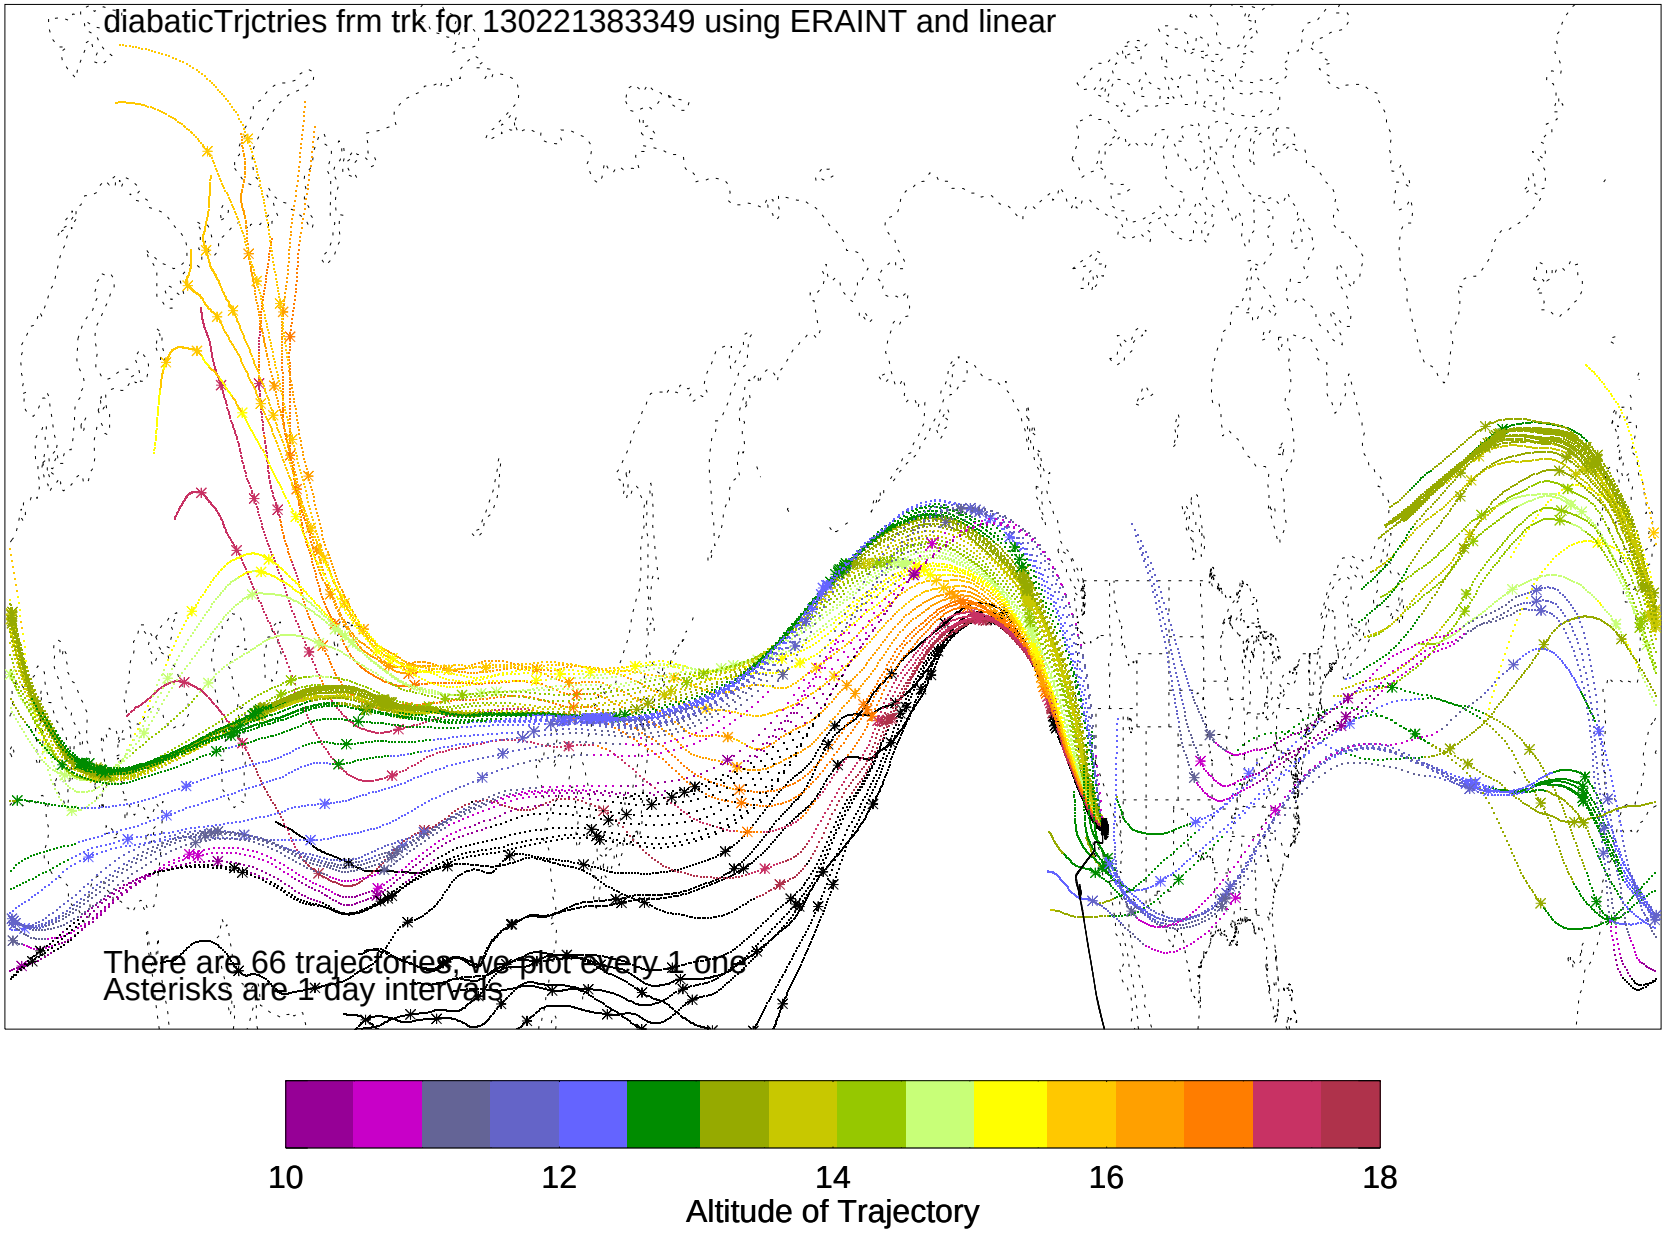
diabaticTrjctries frm trk for 130221353349 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130221363349 using ERAINT and linear
There are 29 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130221373349 using ERAINT and linear
There are 28 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory



diabaticTrjctries frm trk for 130221383349 using ERAINT and linear
There are 66 trajectories, we plot every 1 one
Asterisks are 1 day intervals
10
12
14
16
18
Altitude of Trajectory
