

15010406, 6 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010412, 12 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010418, 18 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010500, 24 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010506, 30 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010512, 36 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010518, 42 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010600, 48 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010606, 54 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010612, 60 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010618, 66 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010700, 72 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010706, 78 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010712, 84 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010718, 90 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010800, 96 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010806, 102 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

160 180 -160 -140 -120 -100

15010818, 114 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010900, 120 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5
