

15010706, 6 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010712, 12 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010718, 18 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010800, 24 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010806, 30 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010812, 36 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010818, 42 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010900, 48 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15010906, 54 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

160 180 -160 -140 -120 -100

15010918, 66 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011000, 72 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011006, 78 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011012, 84 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011018, 90 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011100, 96 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011106, 102 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011112, 108 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011118, 114 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5

15011200, 120 hour forecast for 150mb winds (knots) and High Cloud Frequency -- NASA GEOS5
