

14120106, 6 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120112, 12 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120118, 18 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

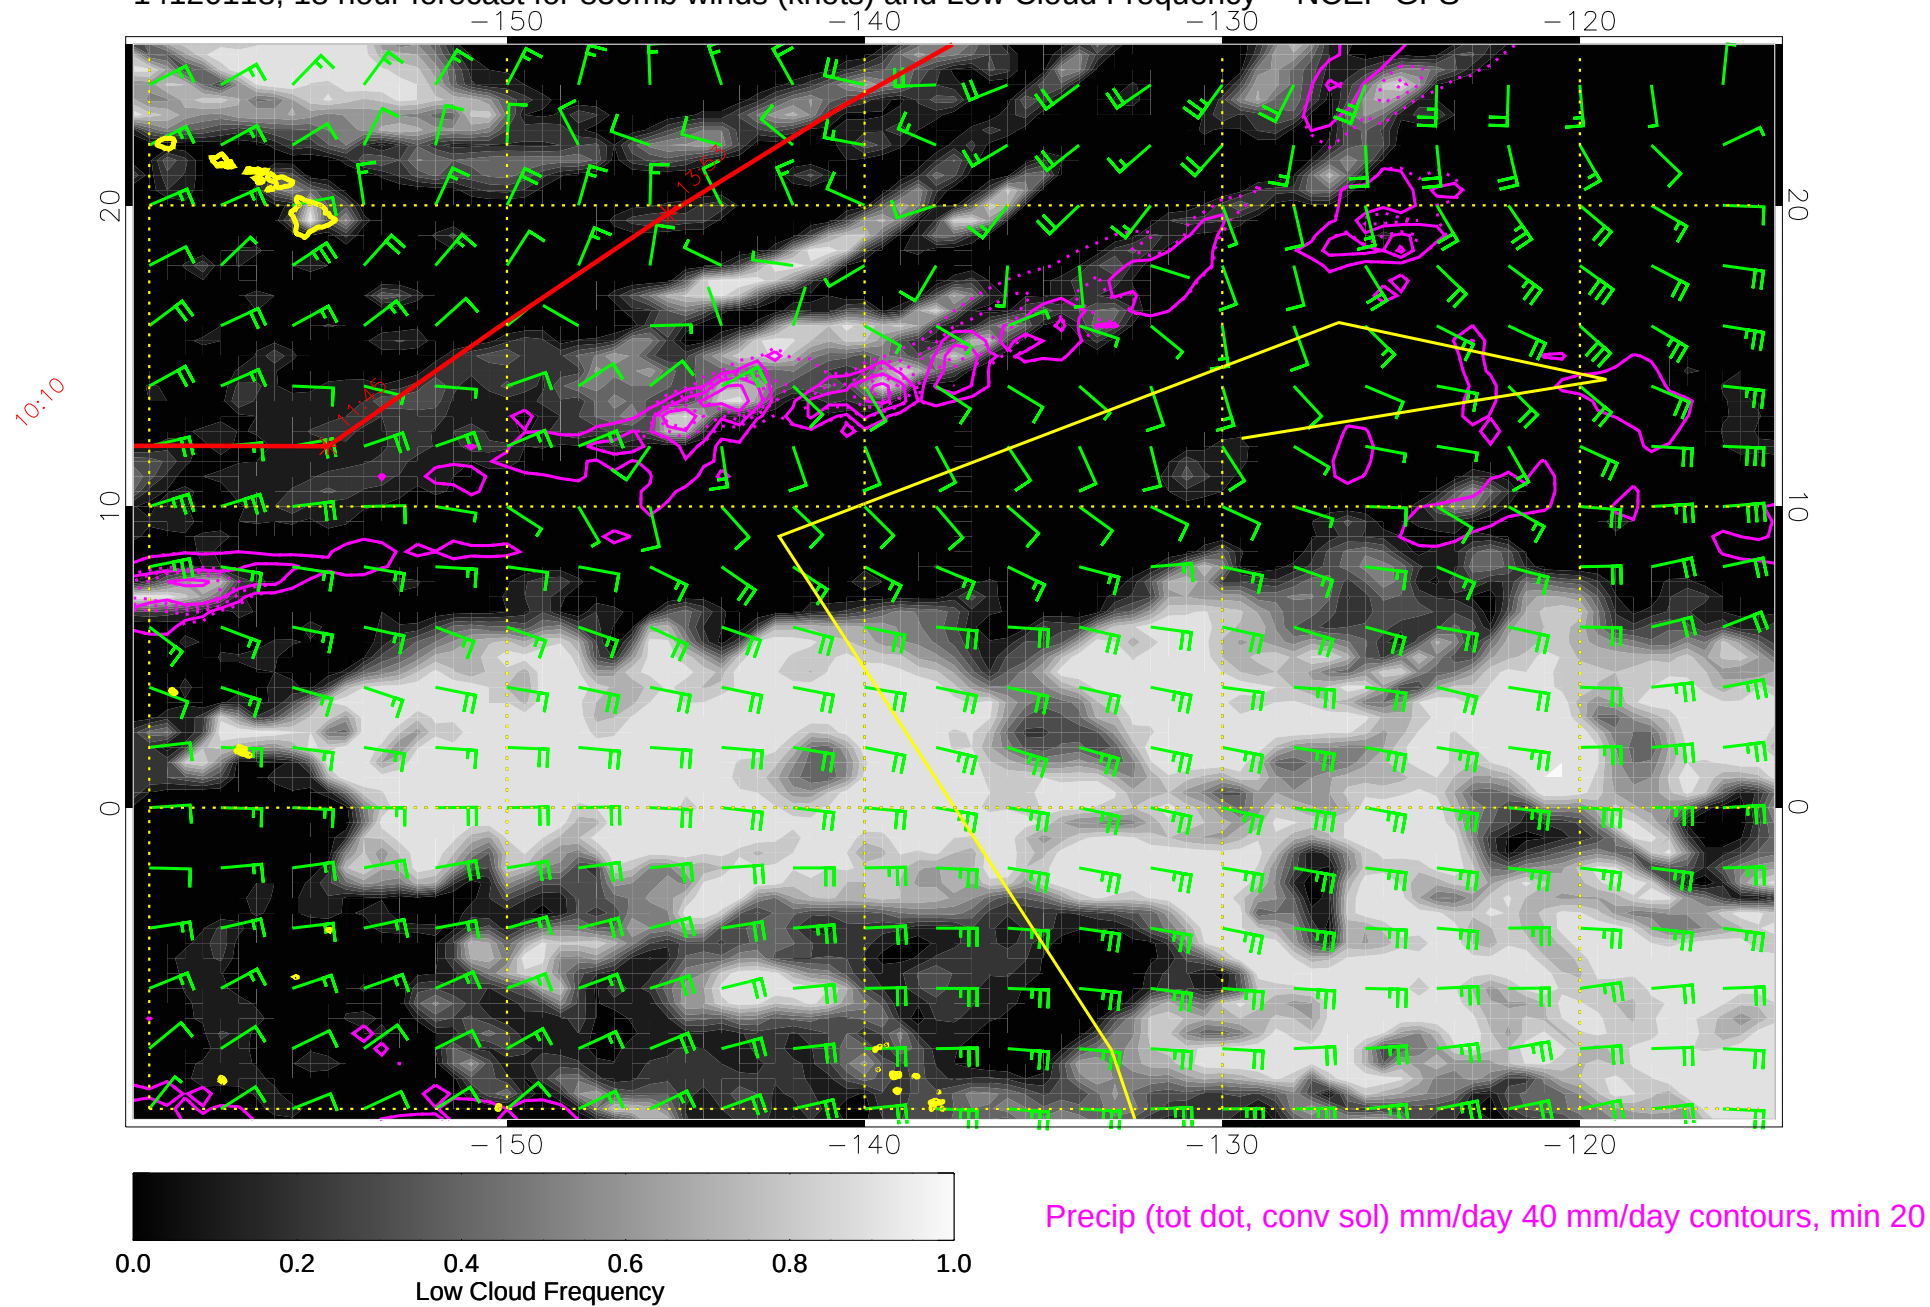

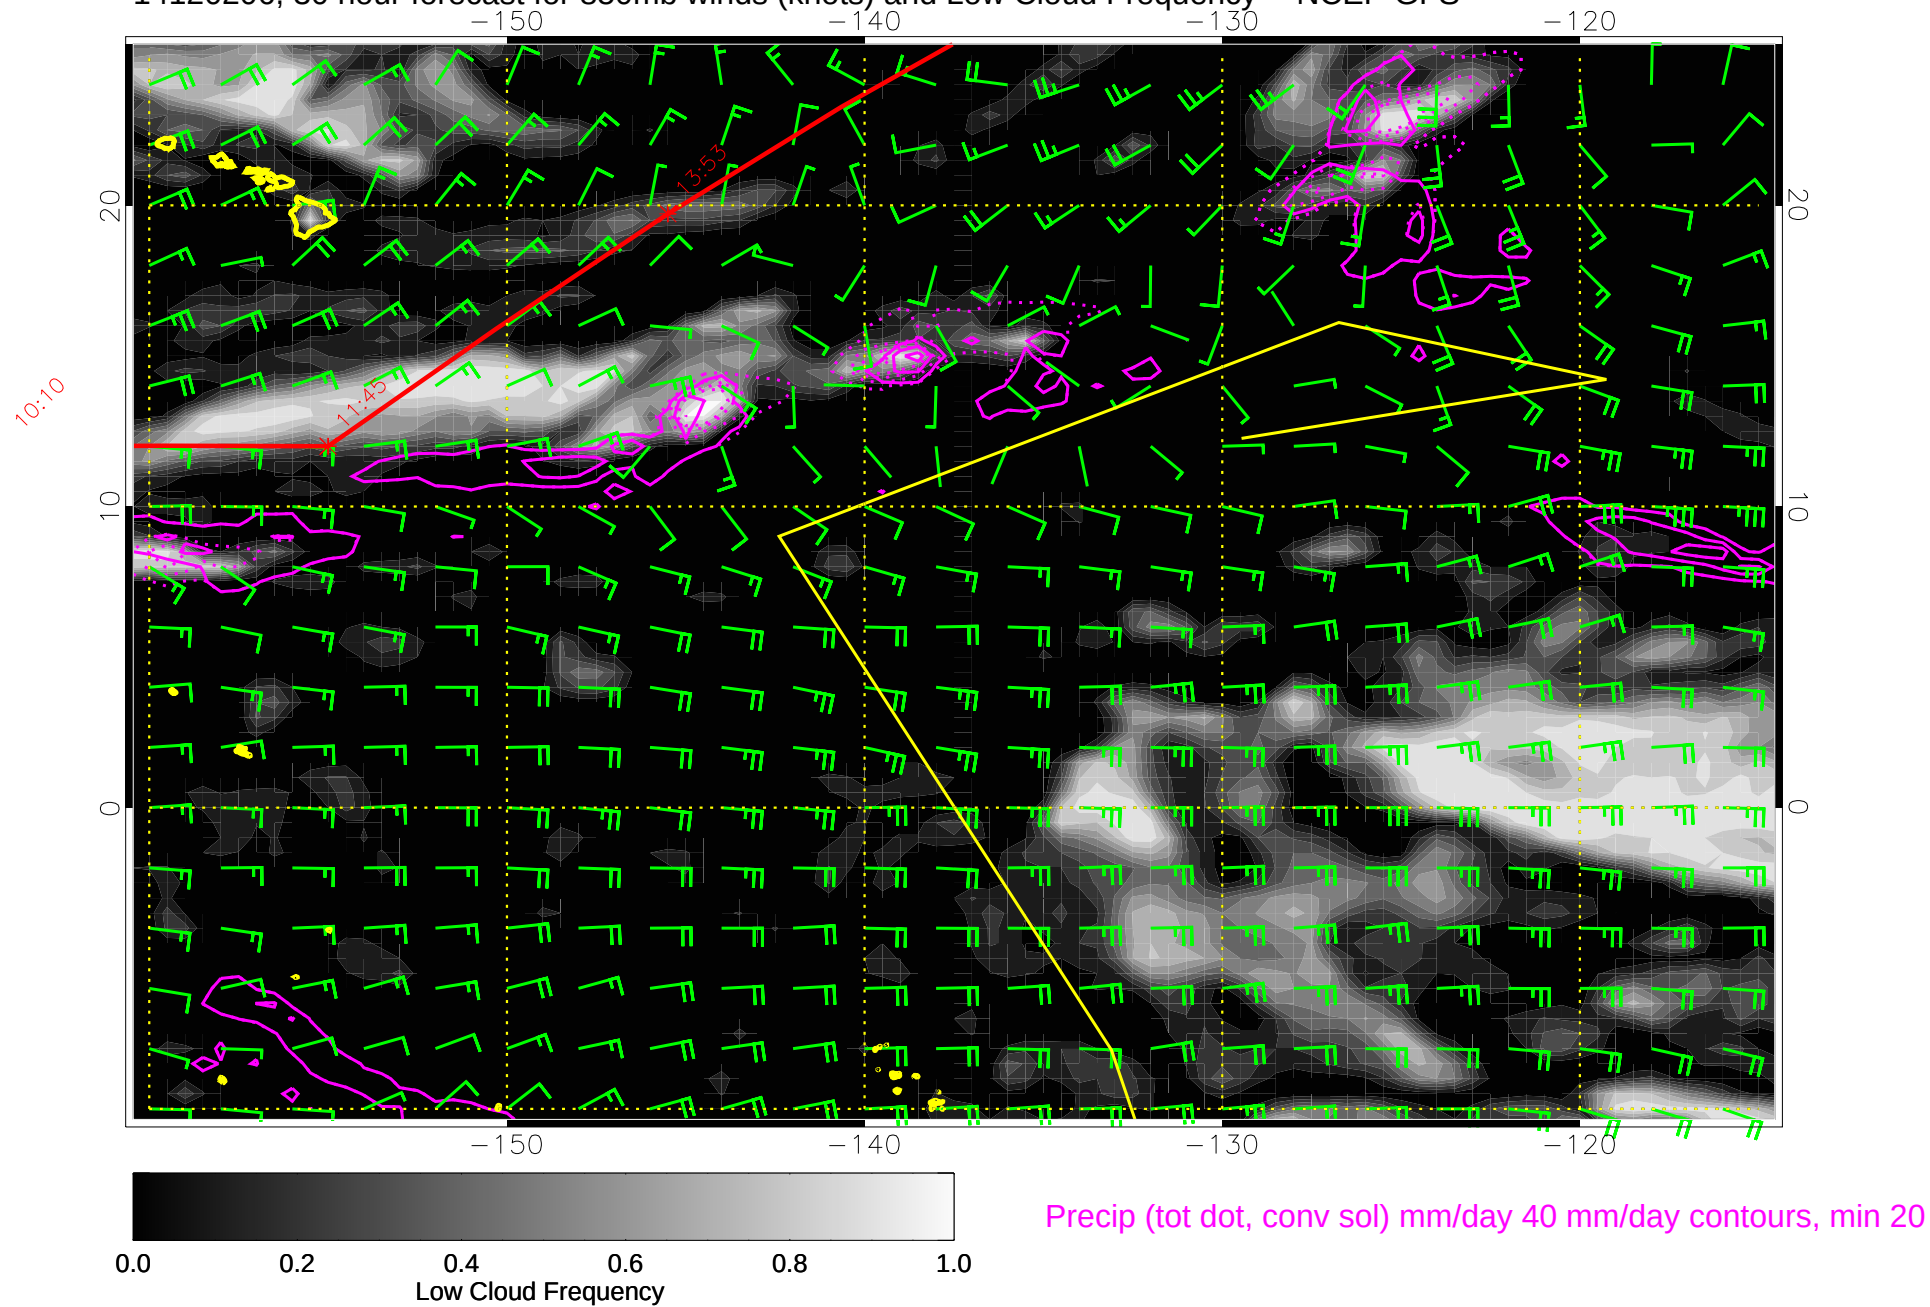

Figure 1 is a vector field plot showing the flow of a dynamical system. The plot is a square with a grid of green arrows. A red line and a yellow line are drawn across the plot. A purple contour line is also visible. The x-axis is labeled from -150 to -120.

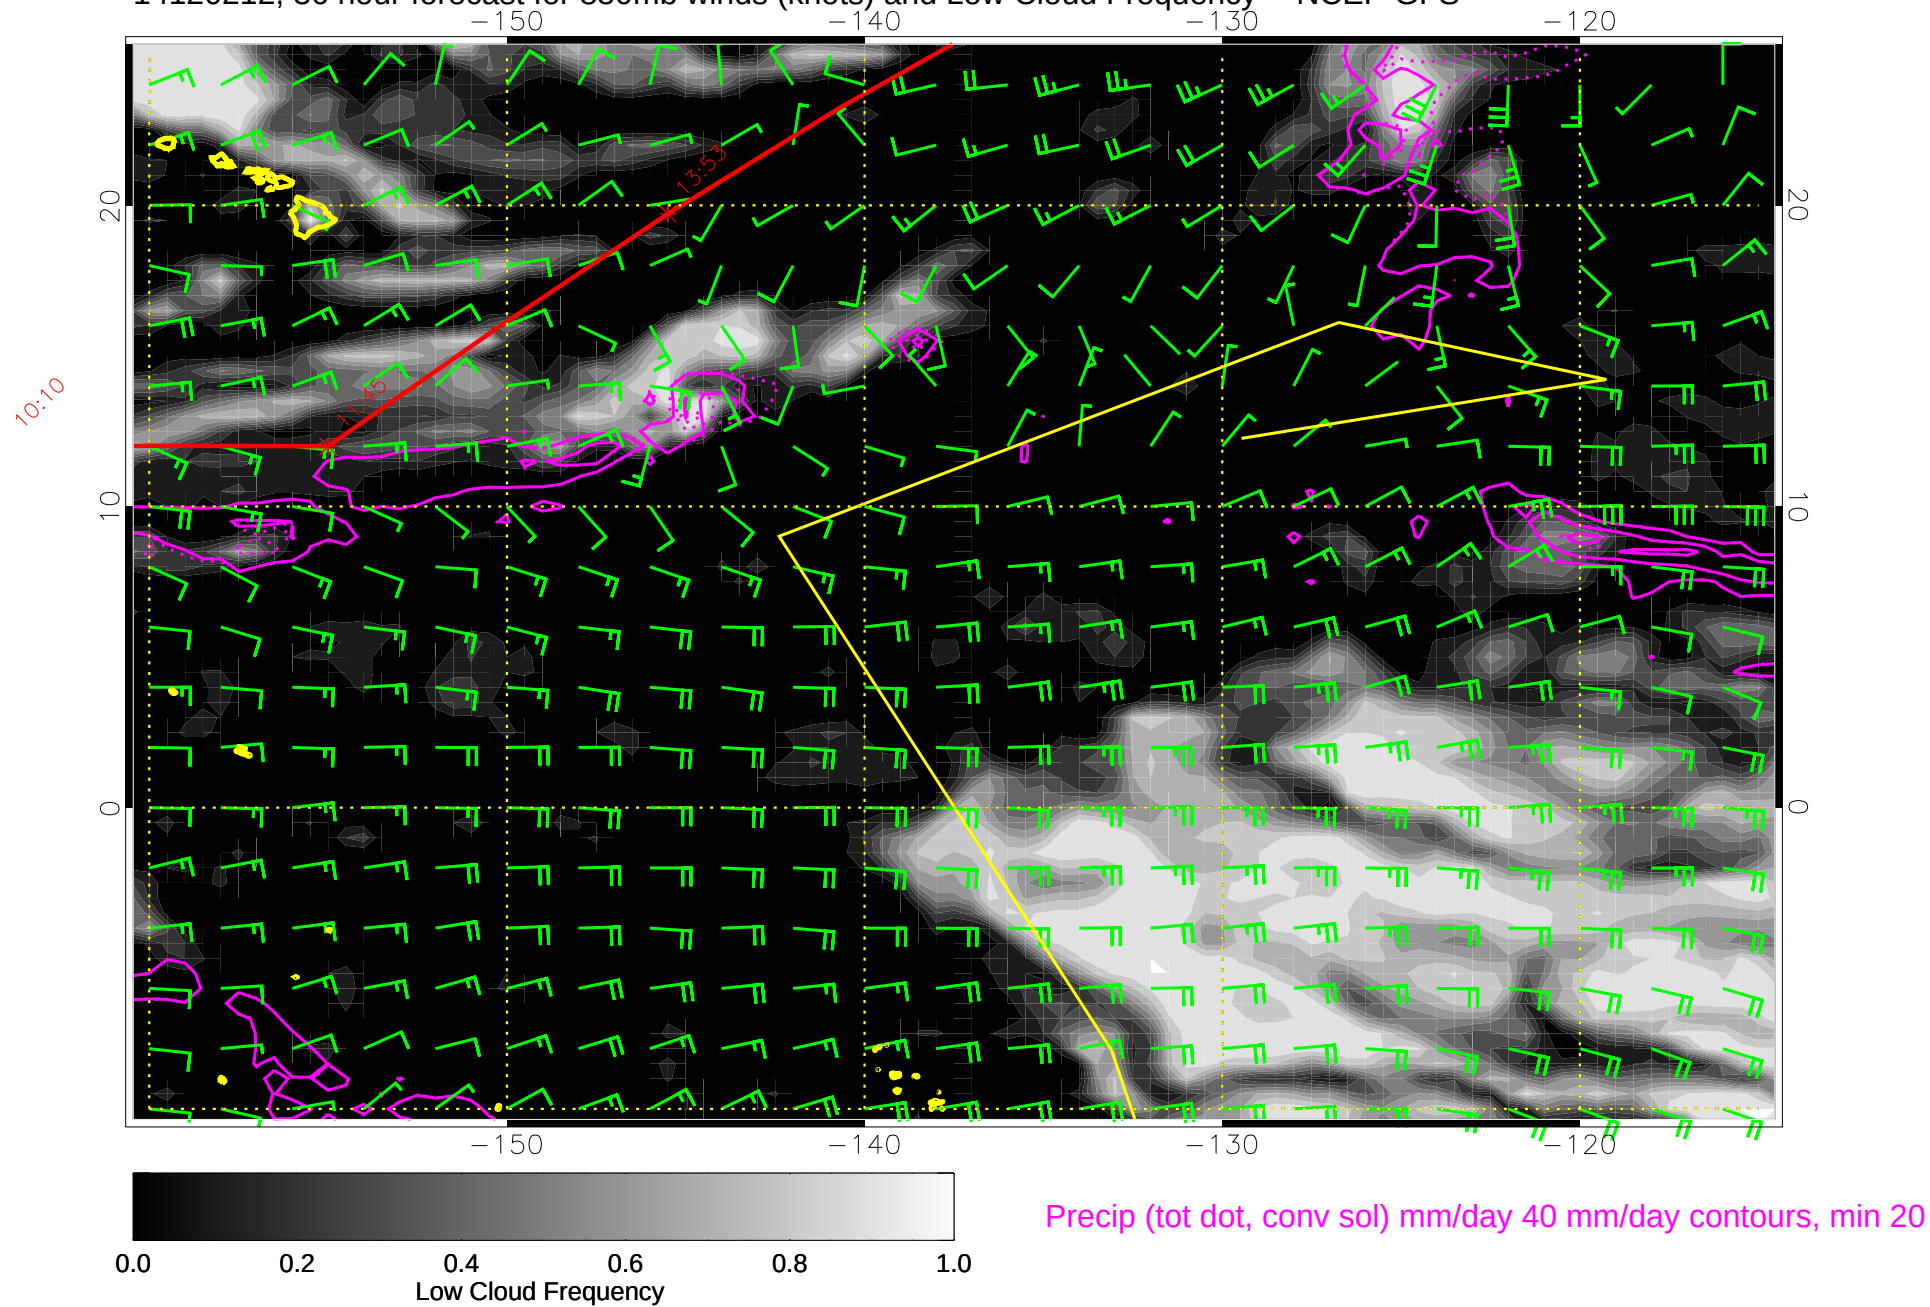

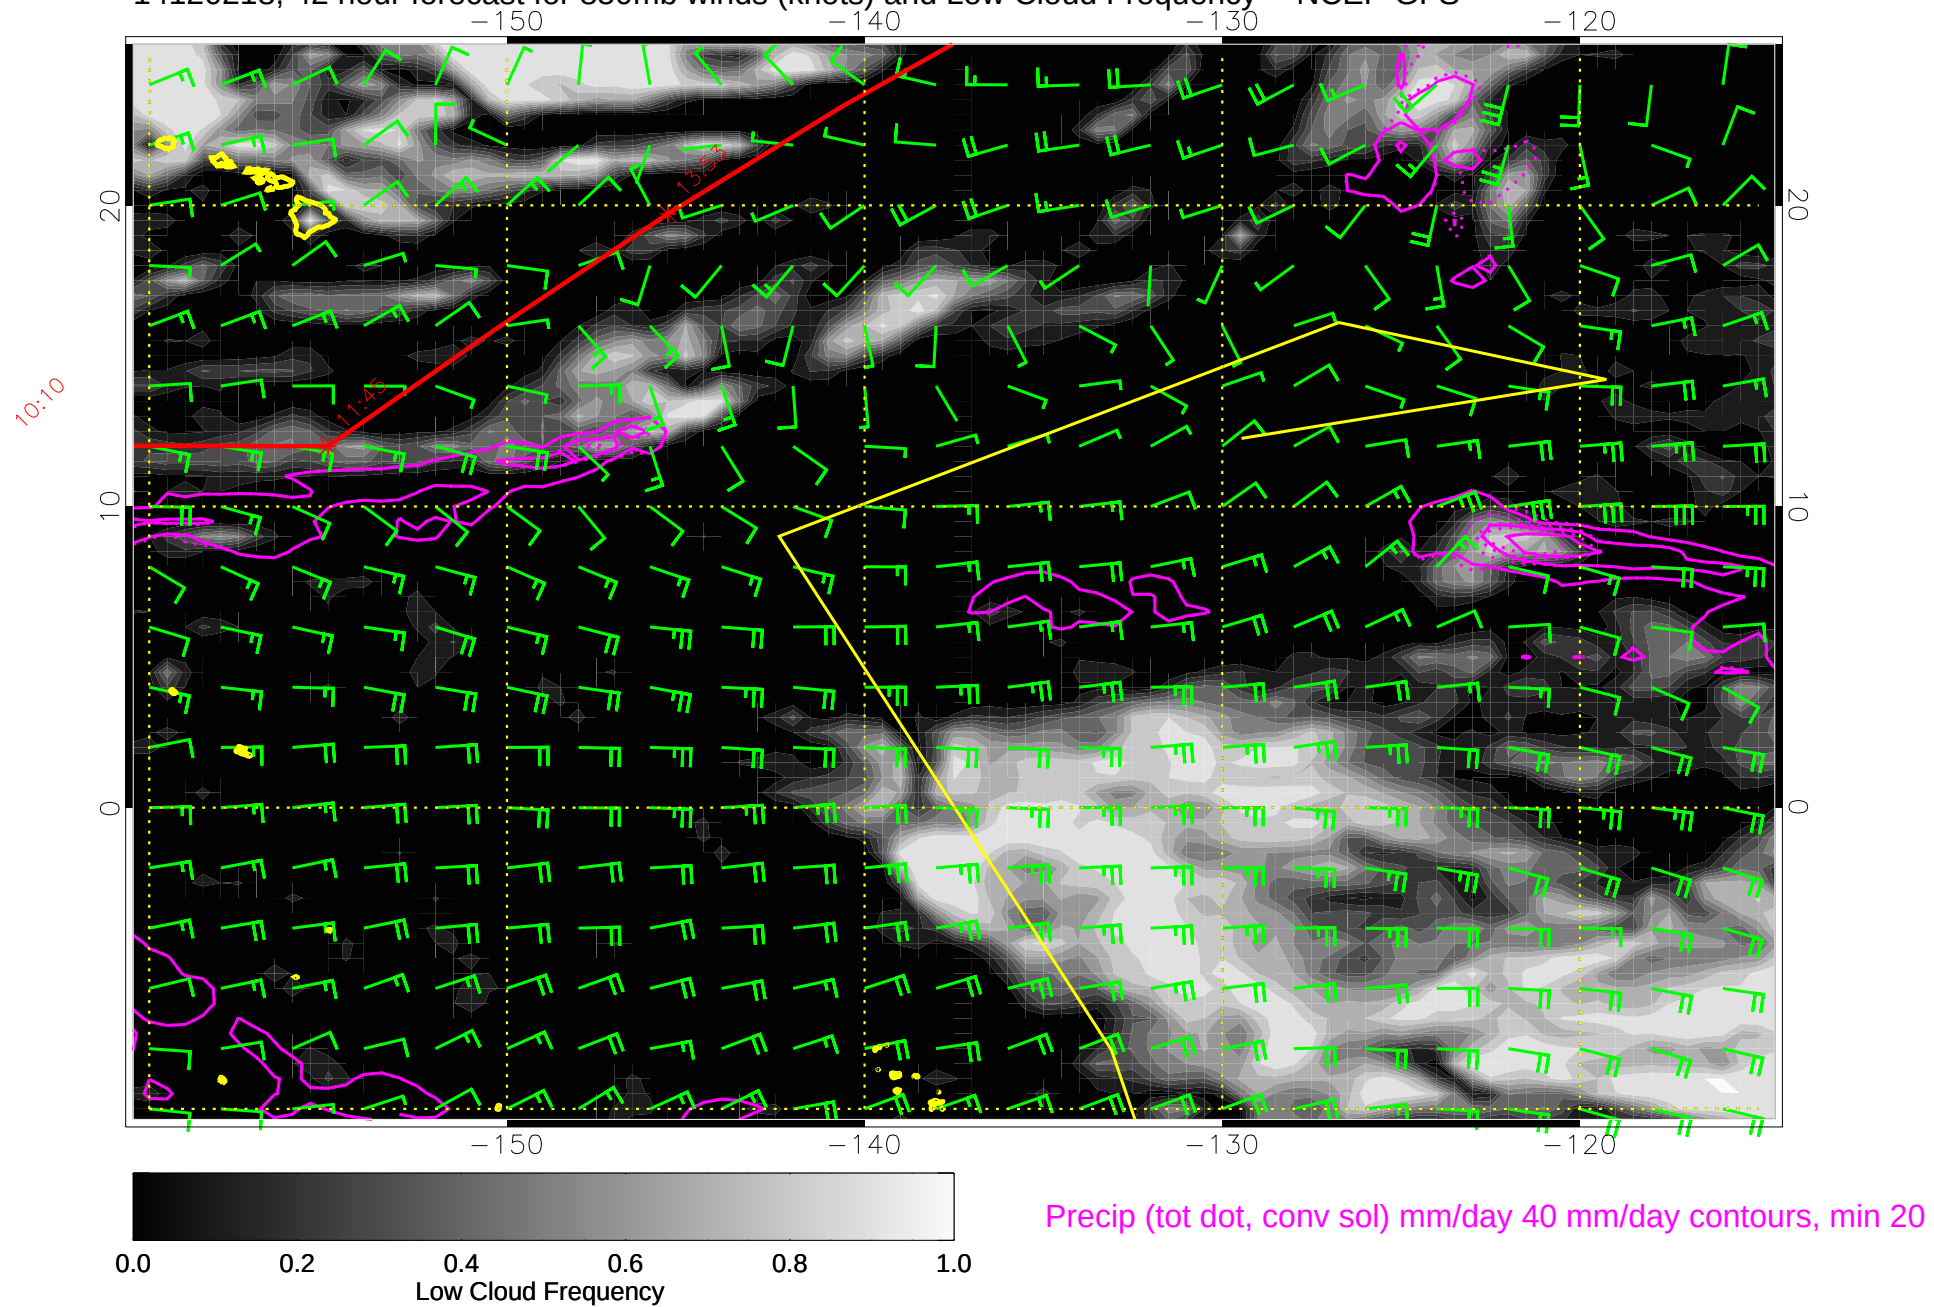

14120206, 30 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

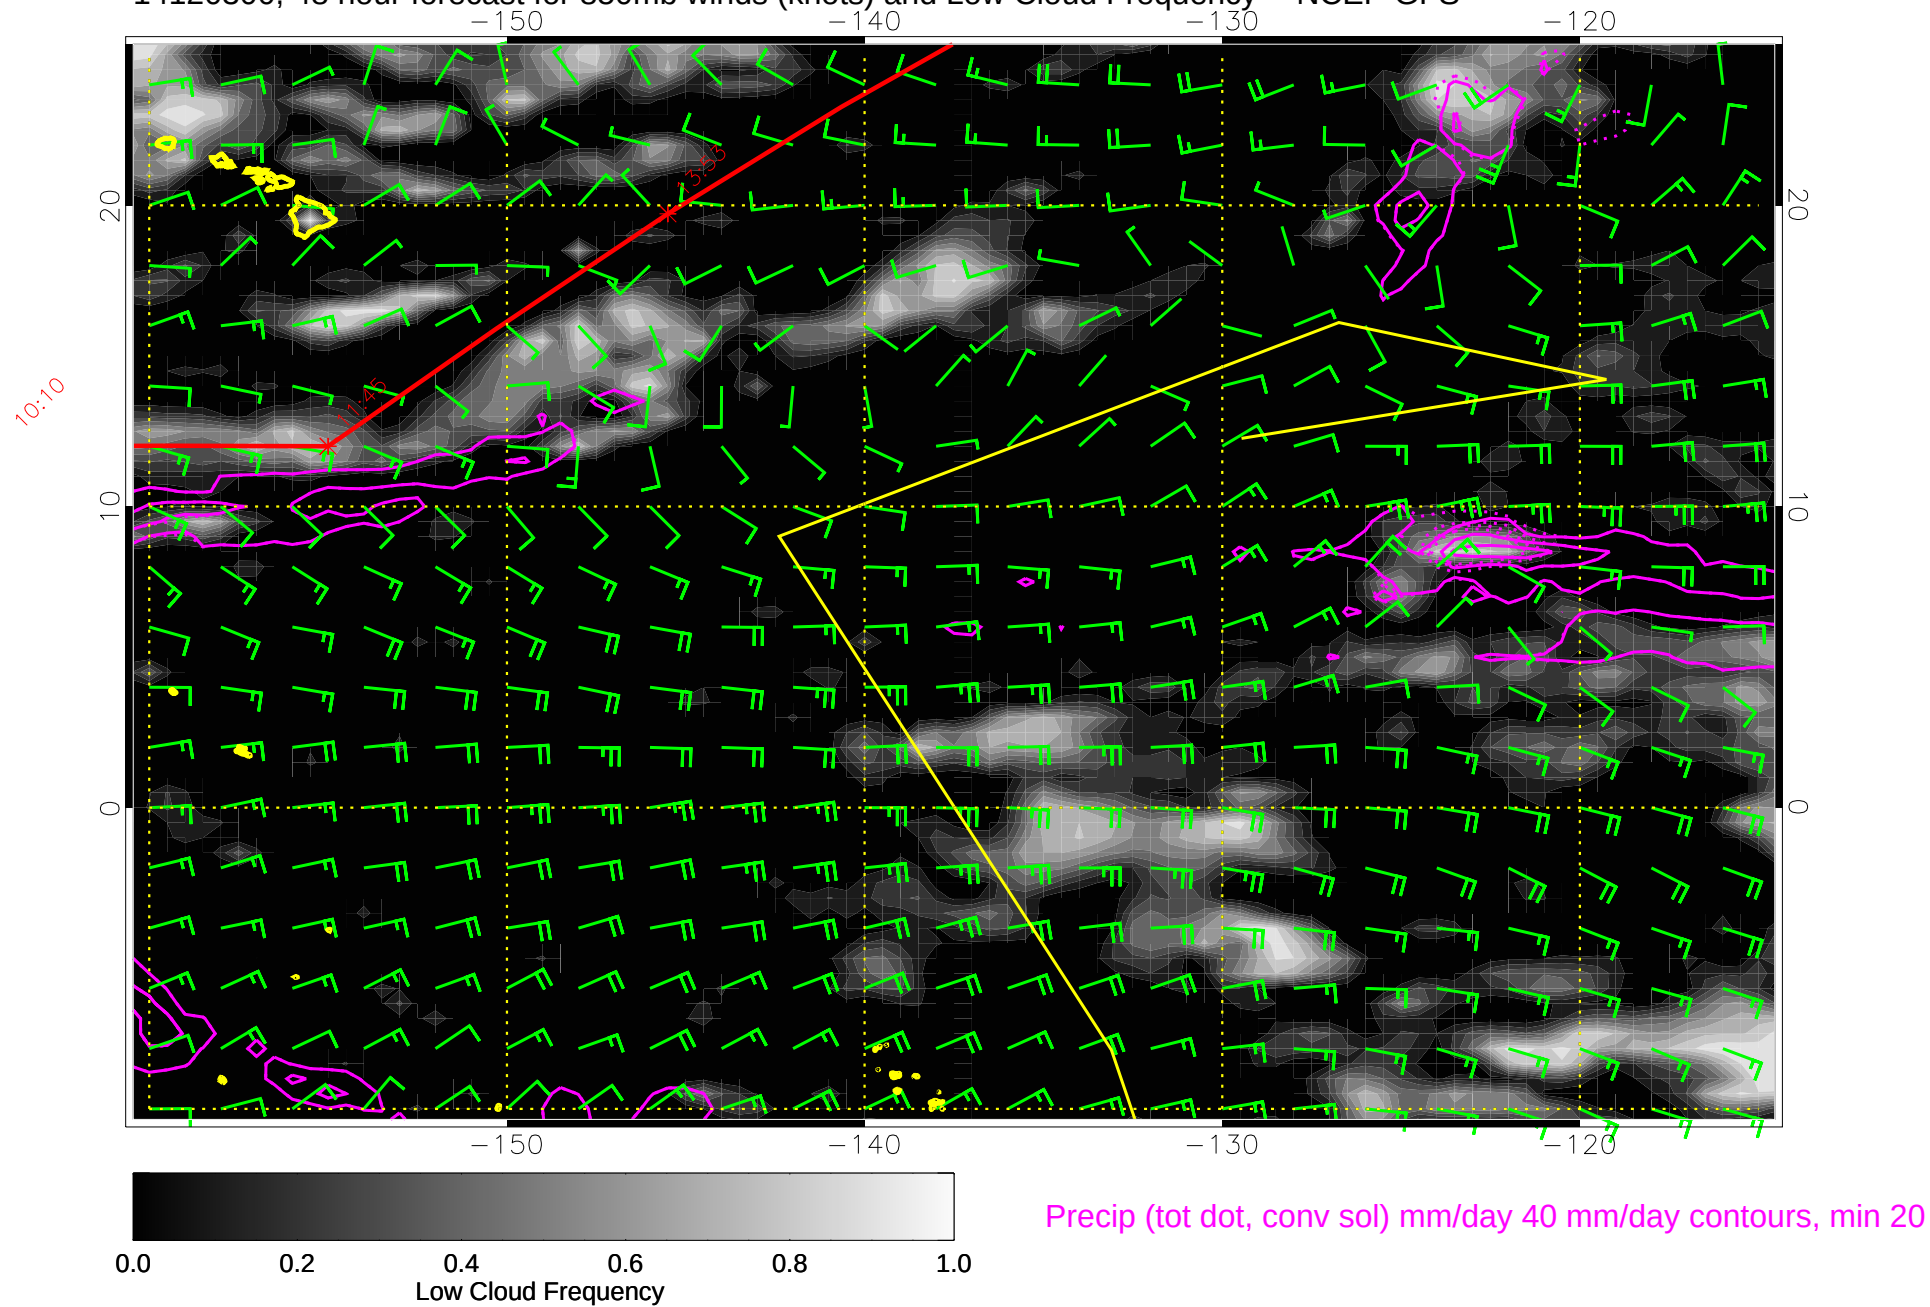

14120212, 36 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120218, 42 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

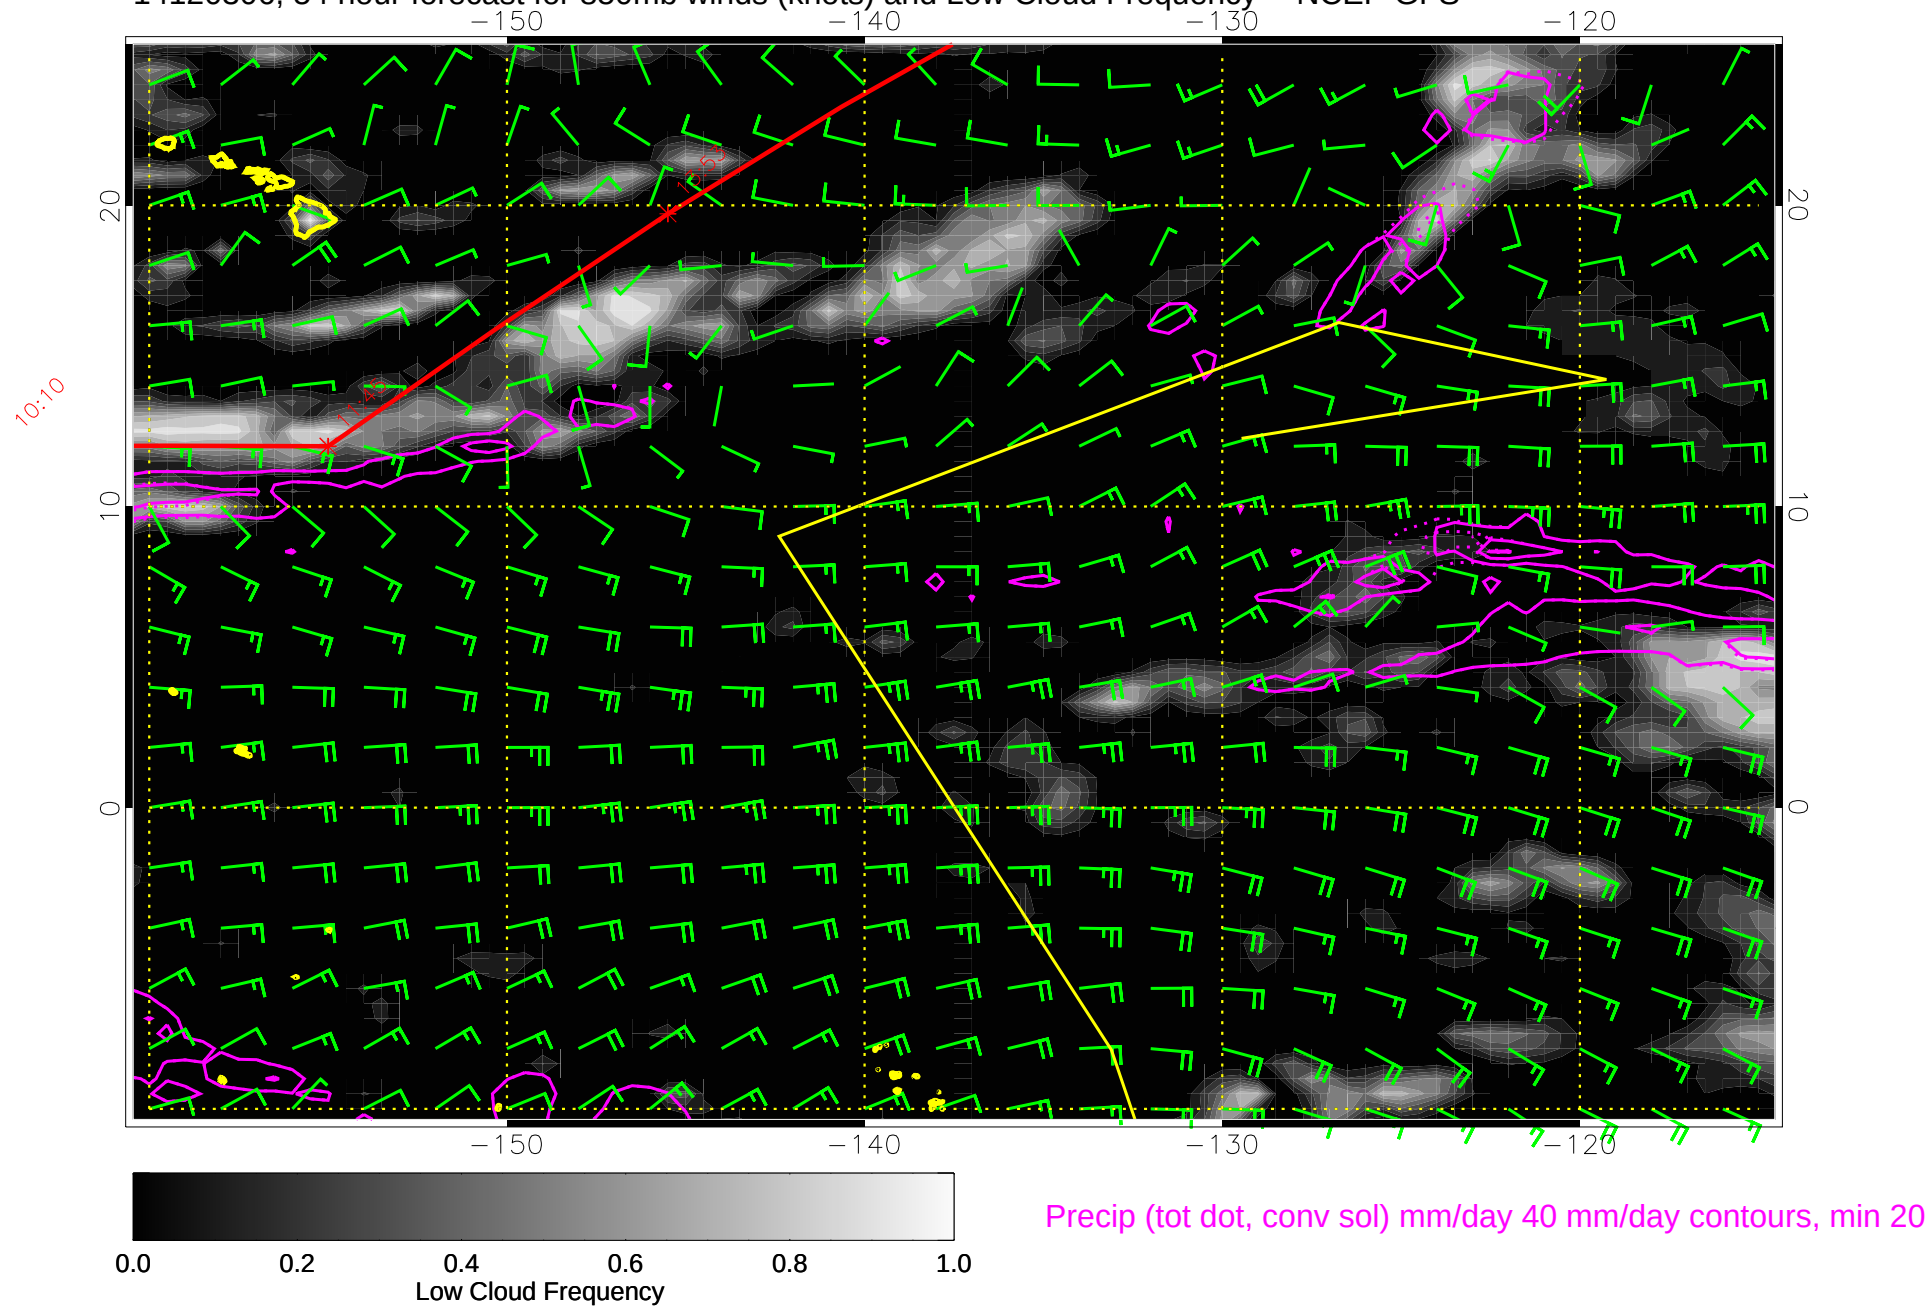

14120300, 48 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

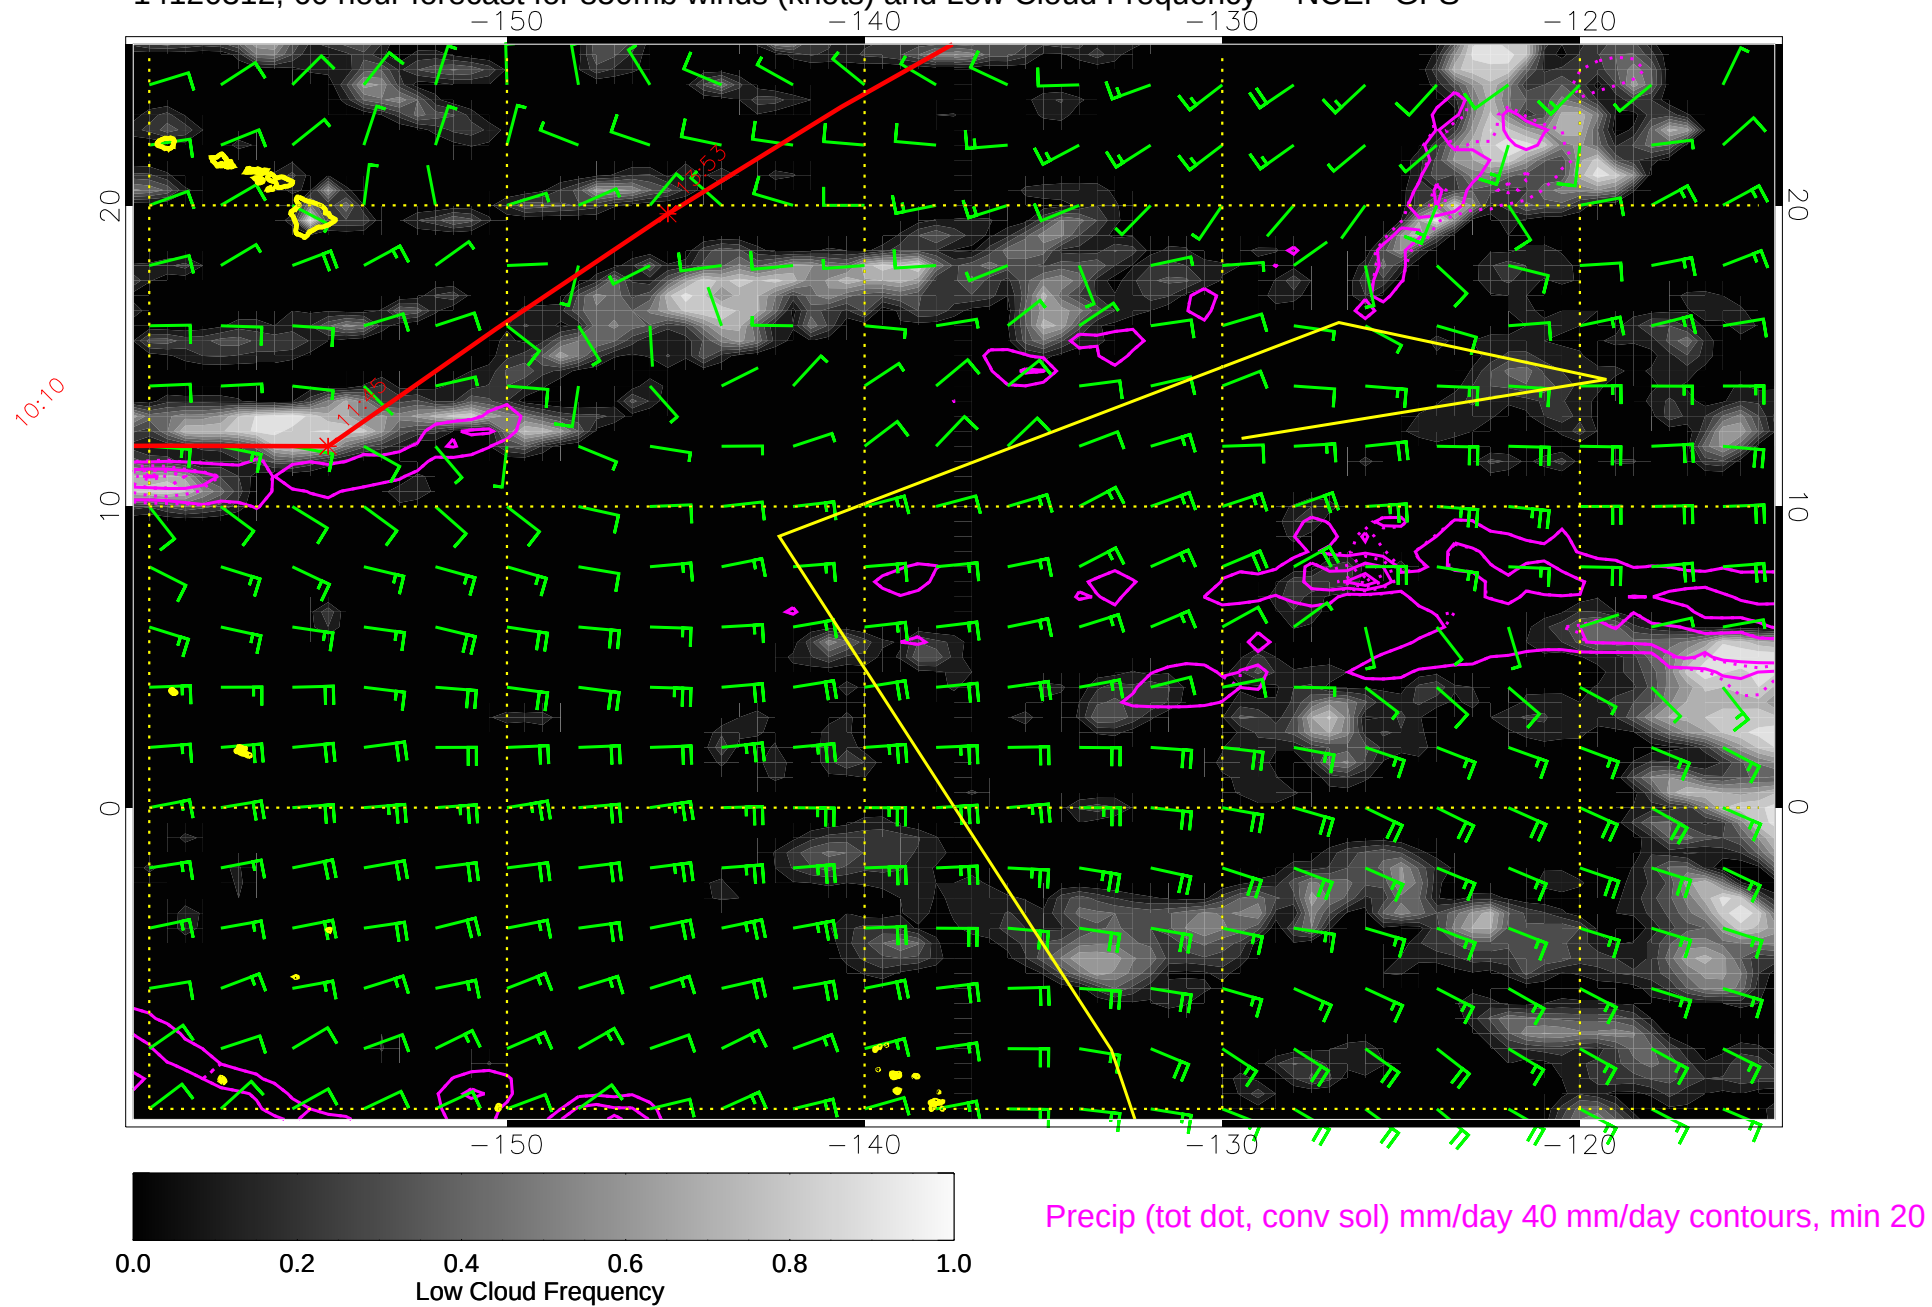

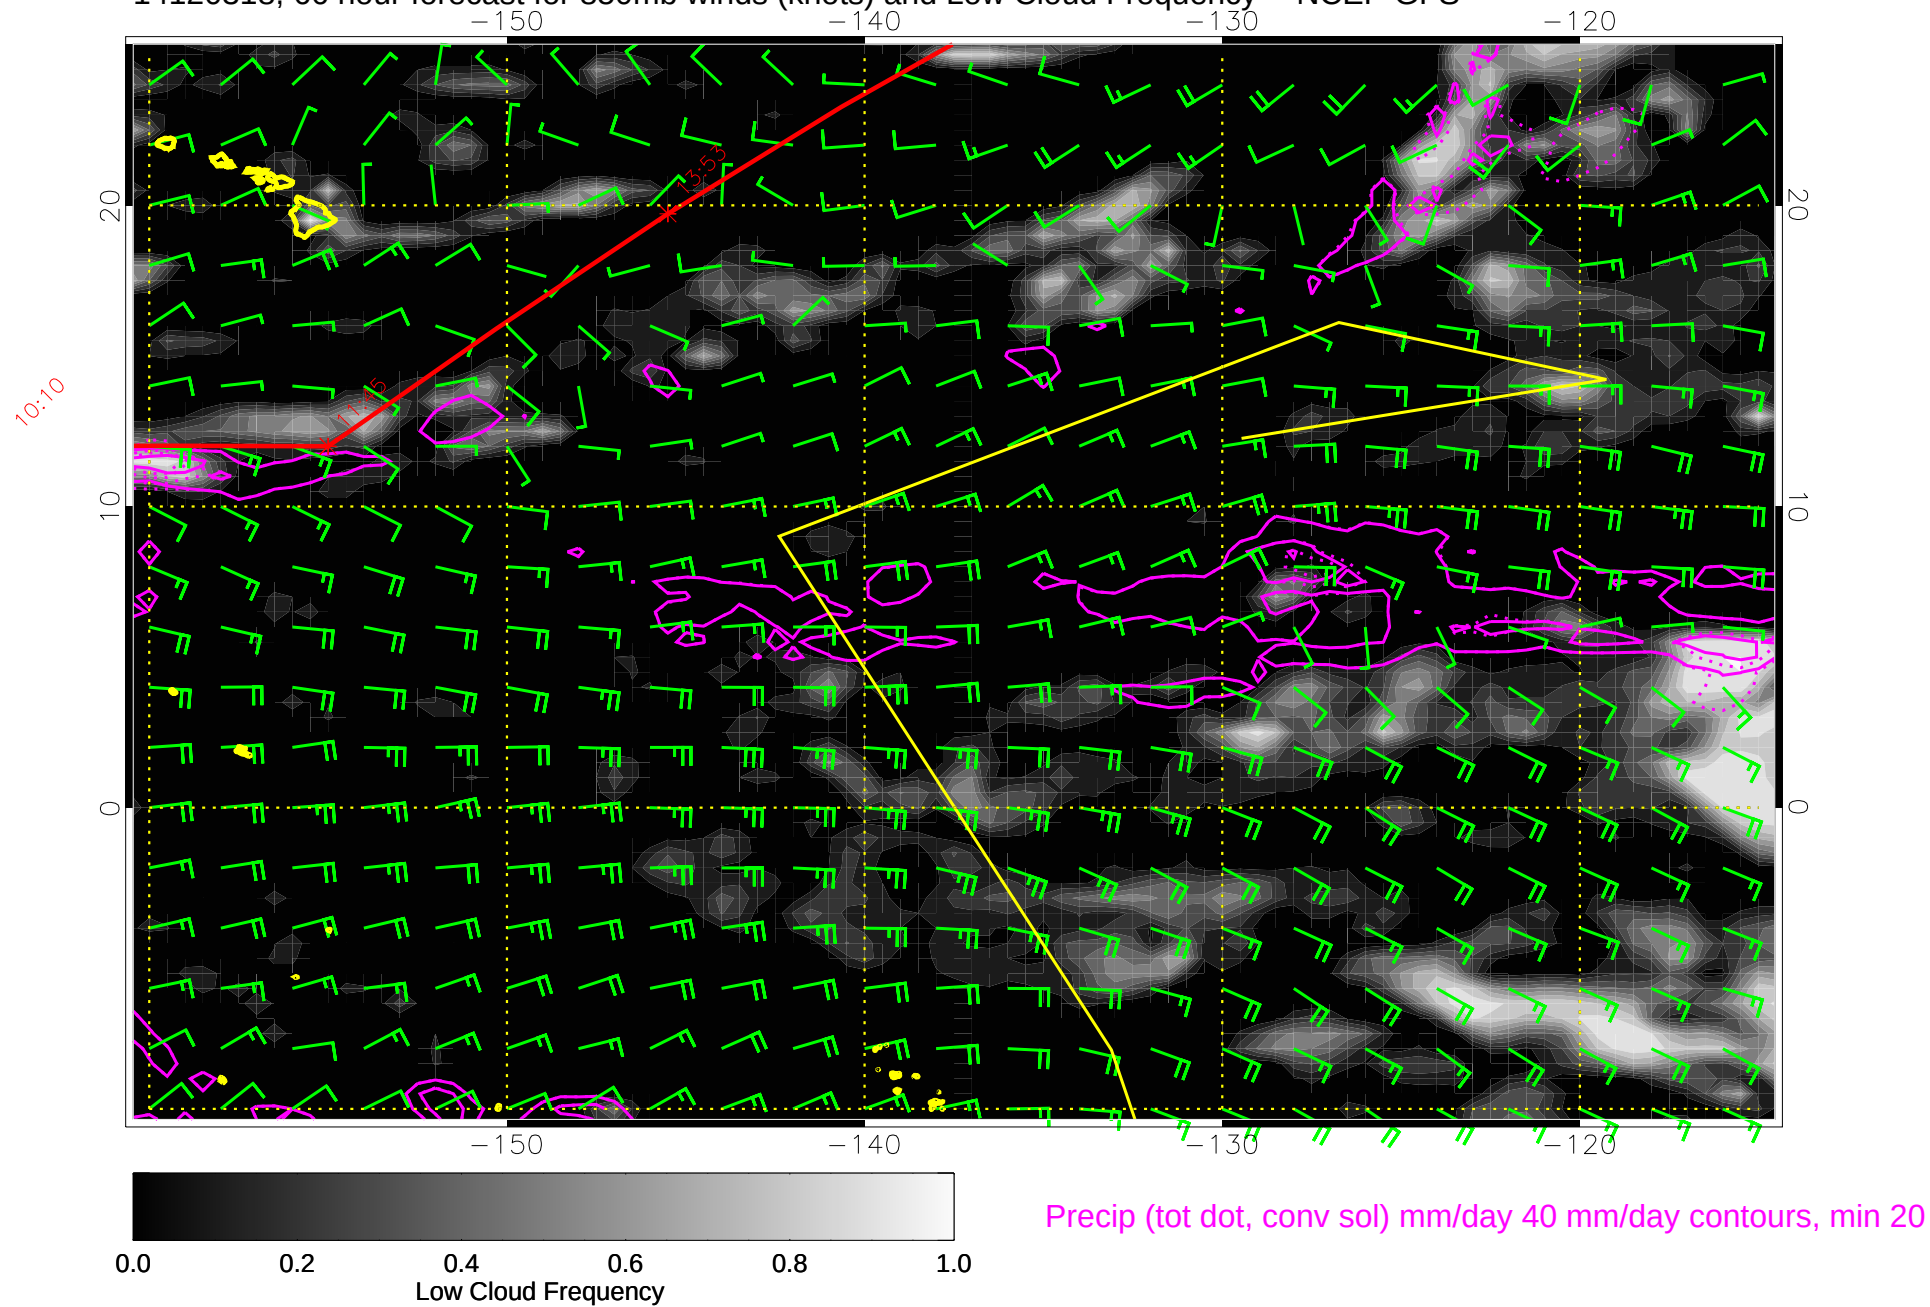

14120306, 54 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

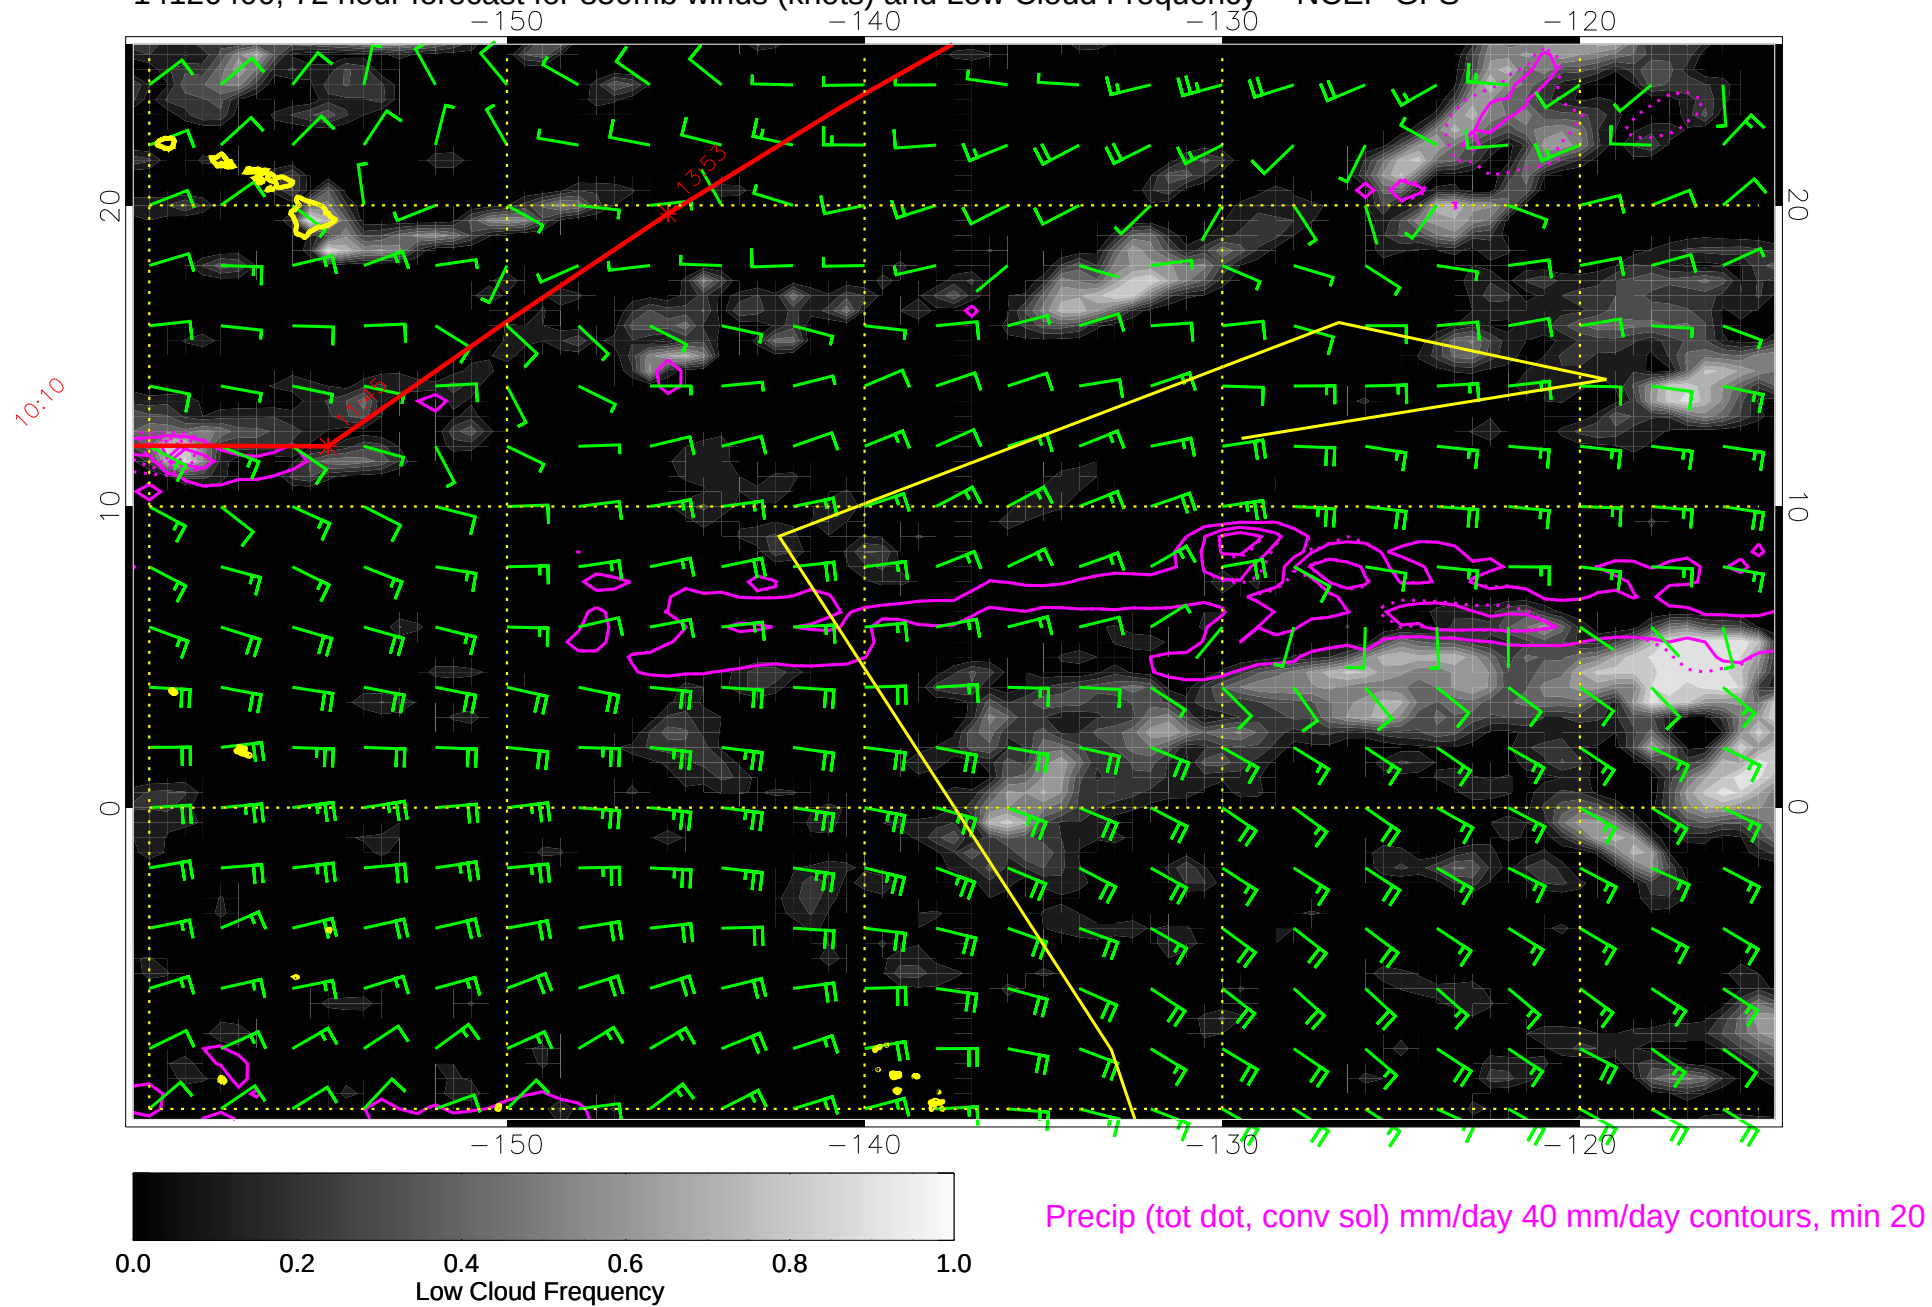

14120312, 60 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120318, 66 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

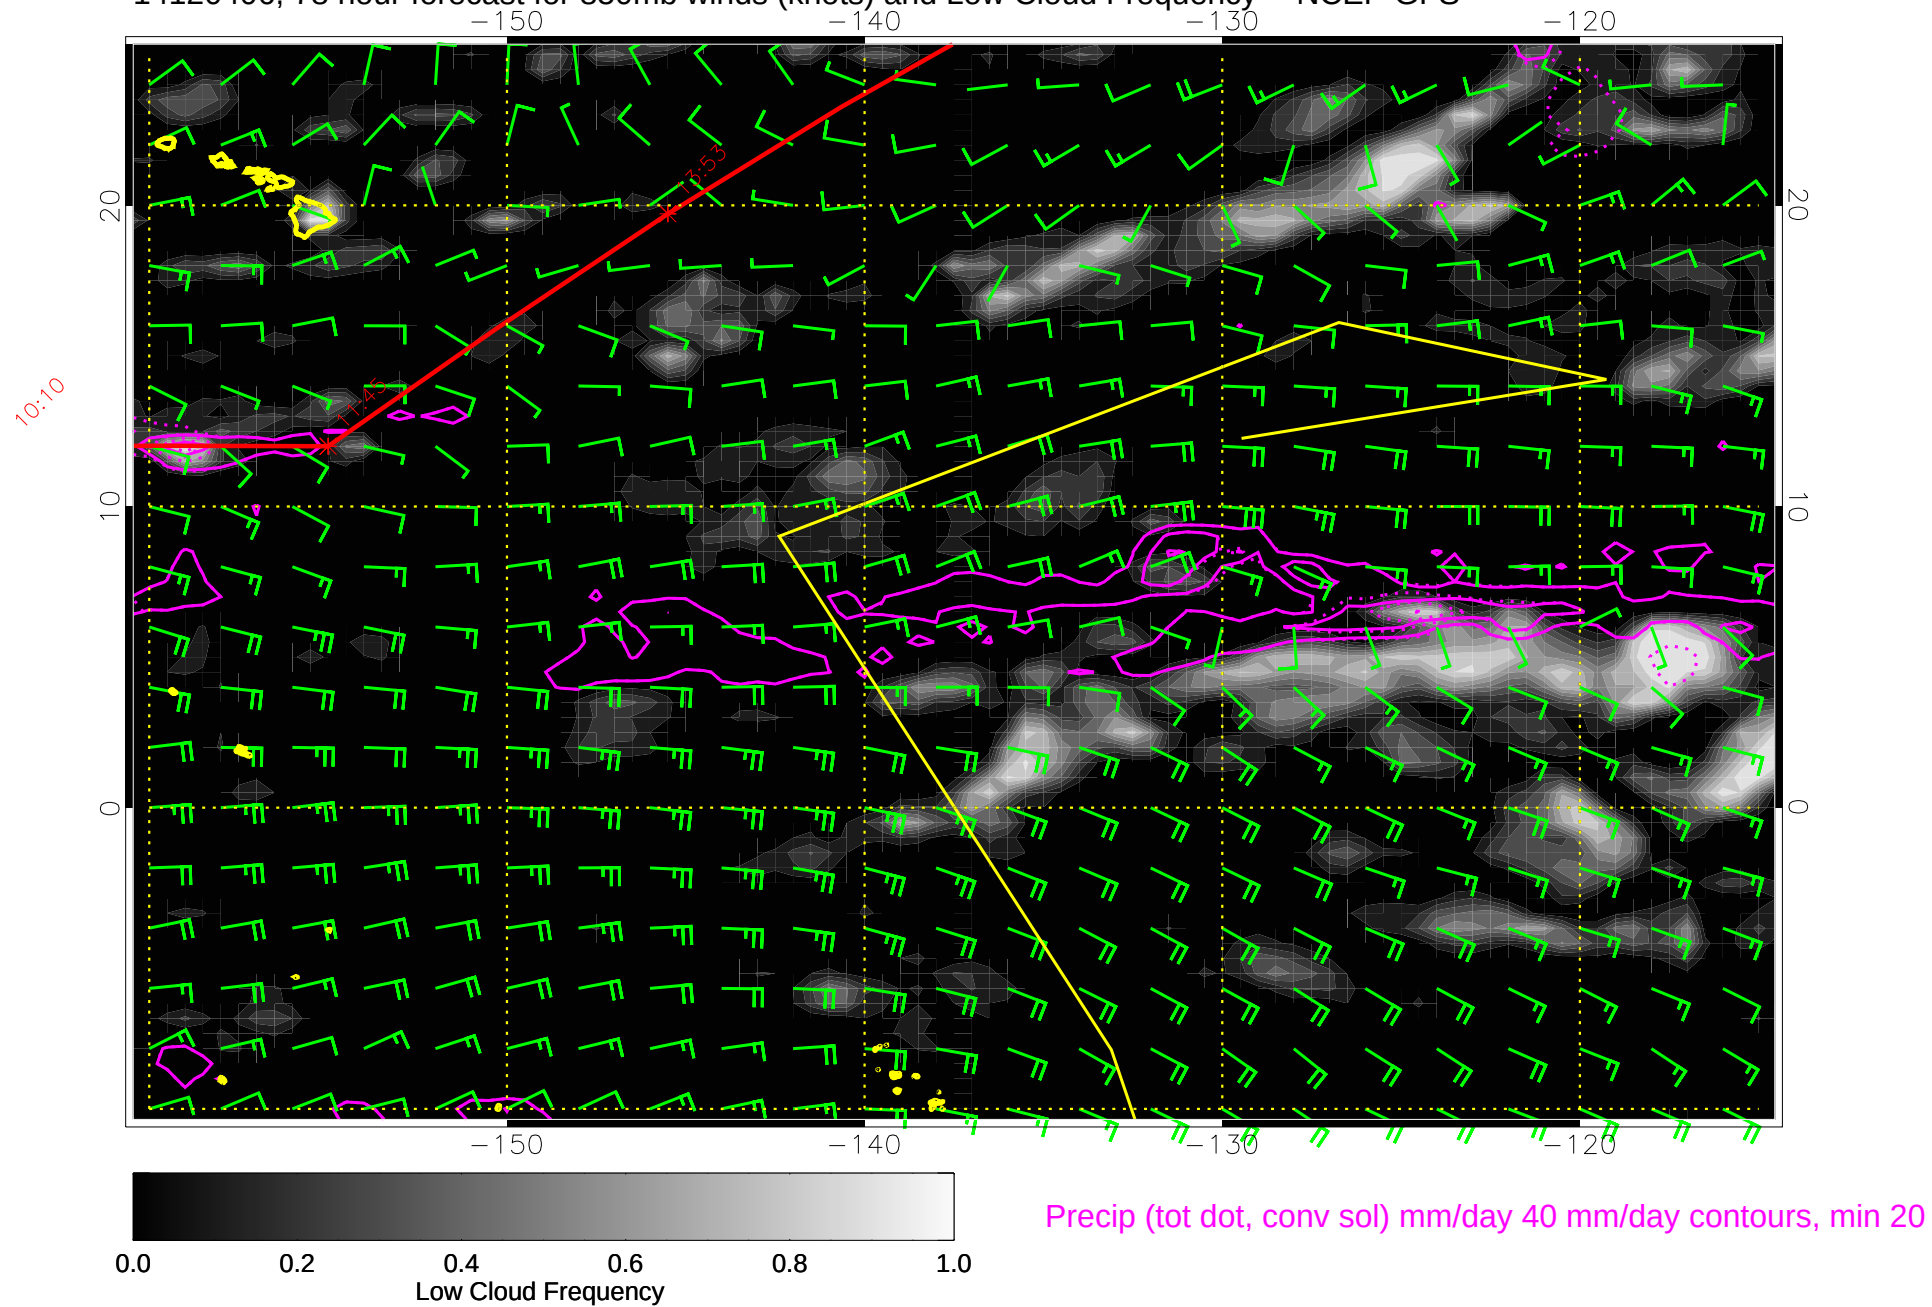

14120400, 72 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

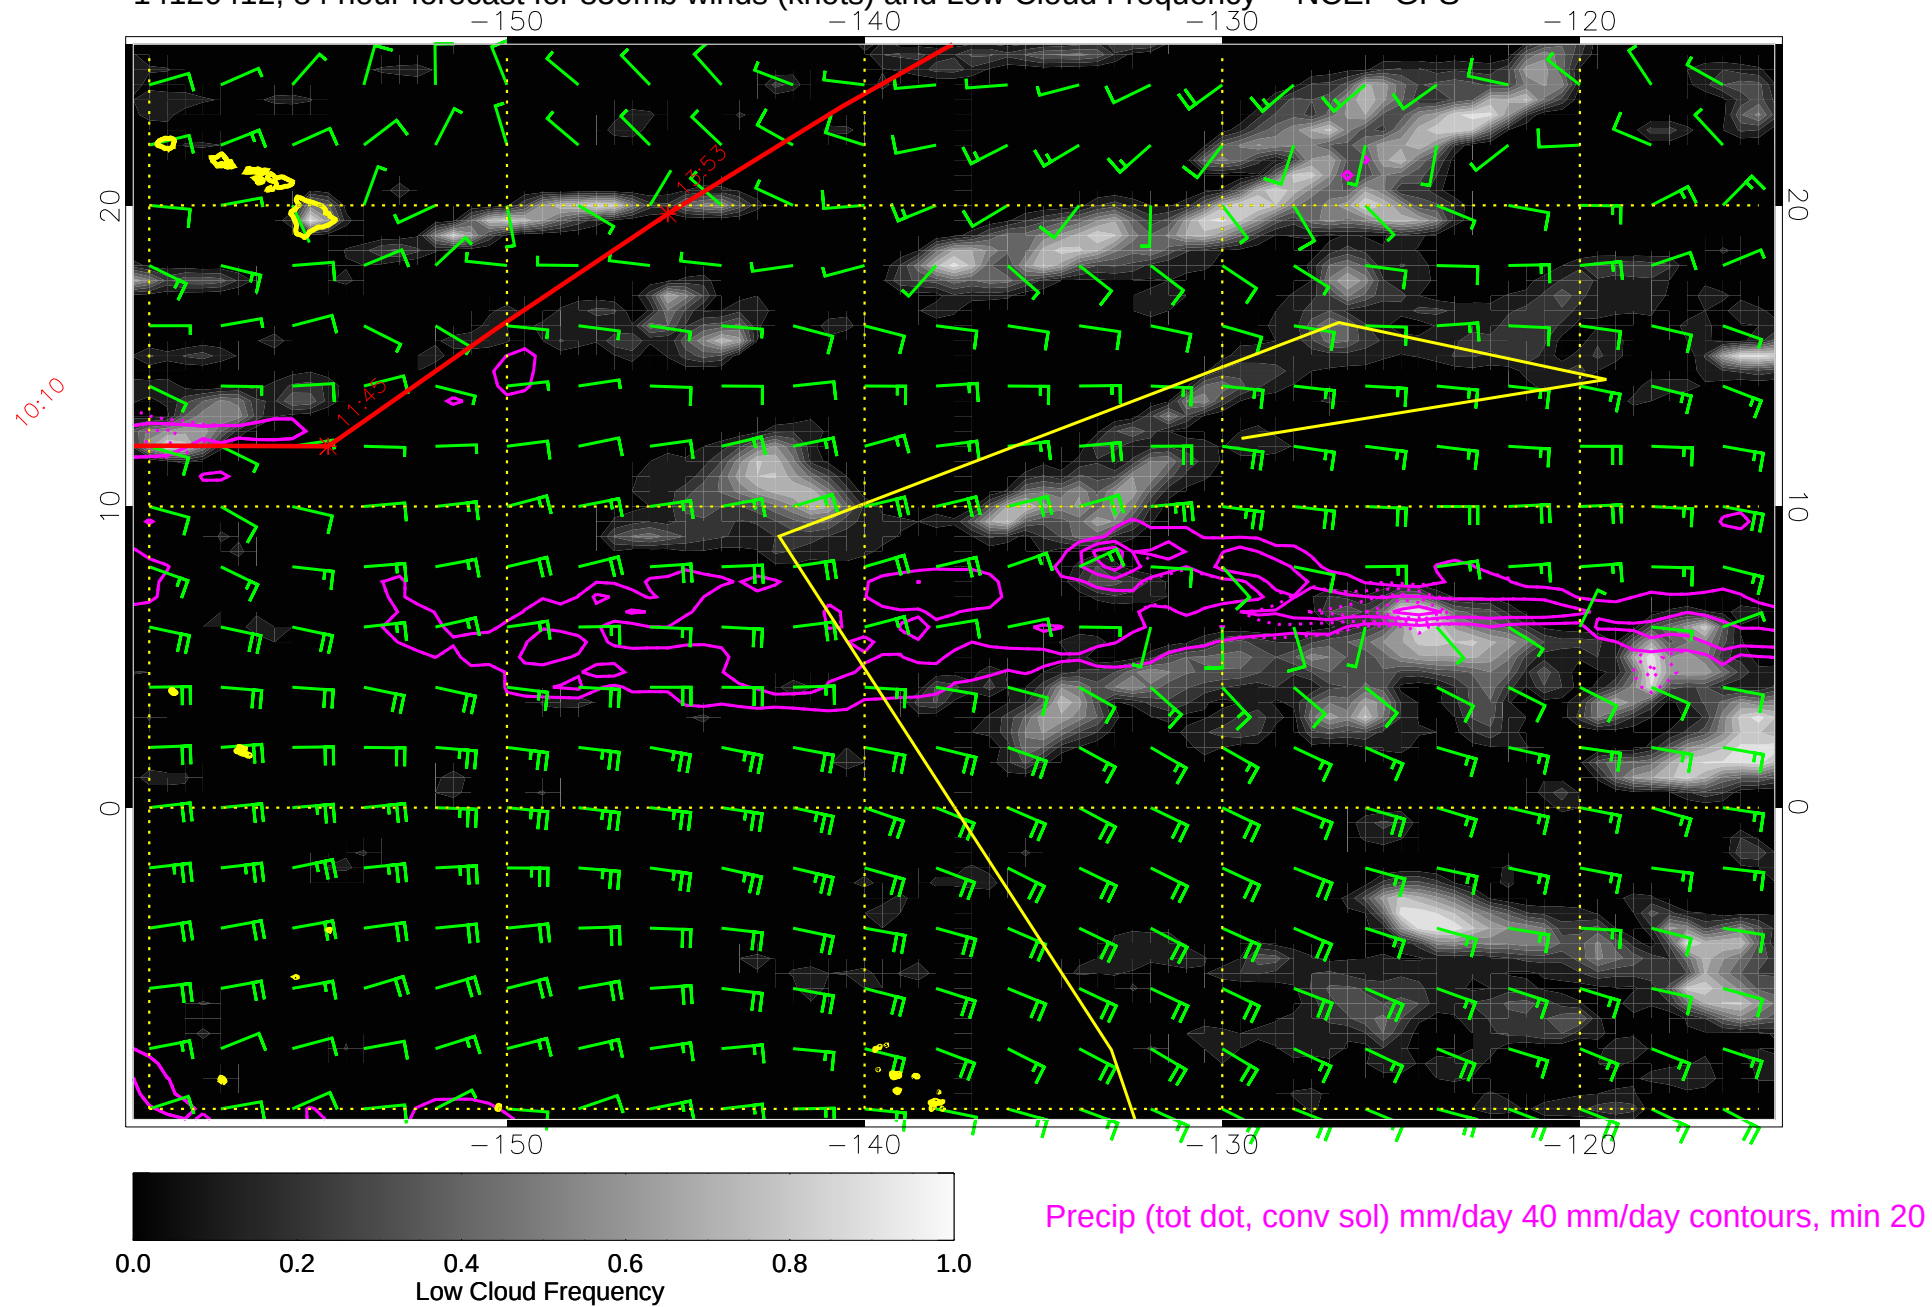

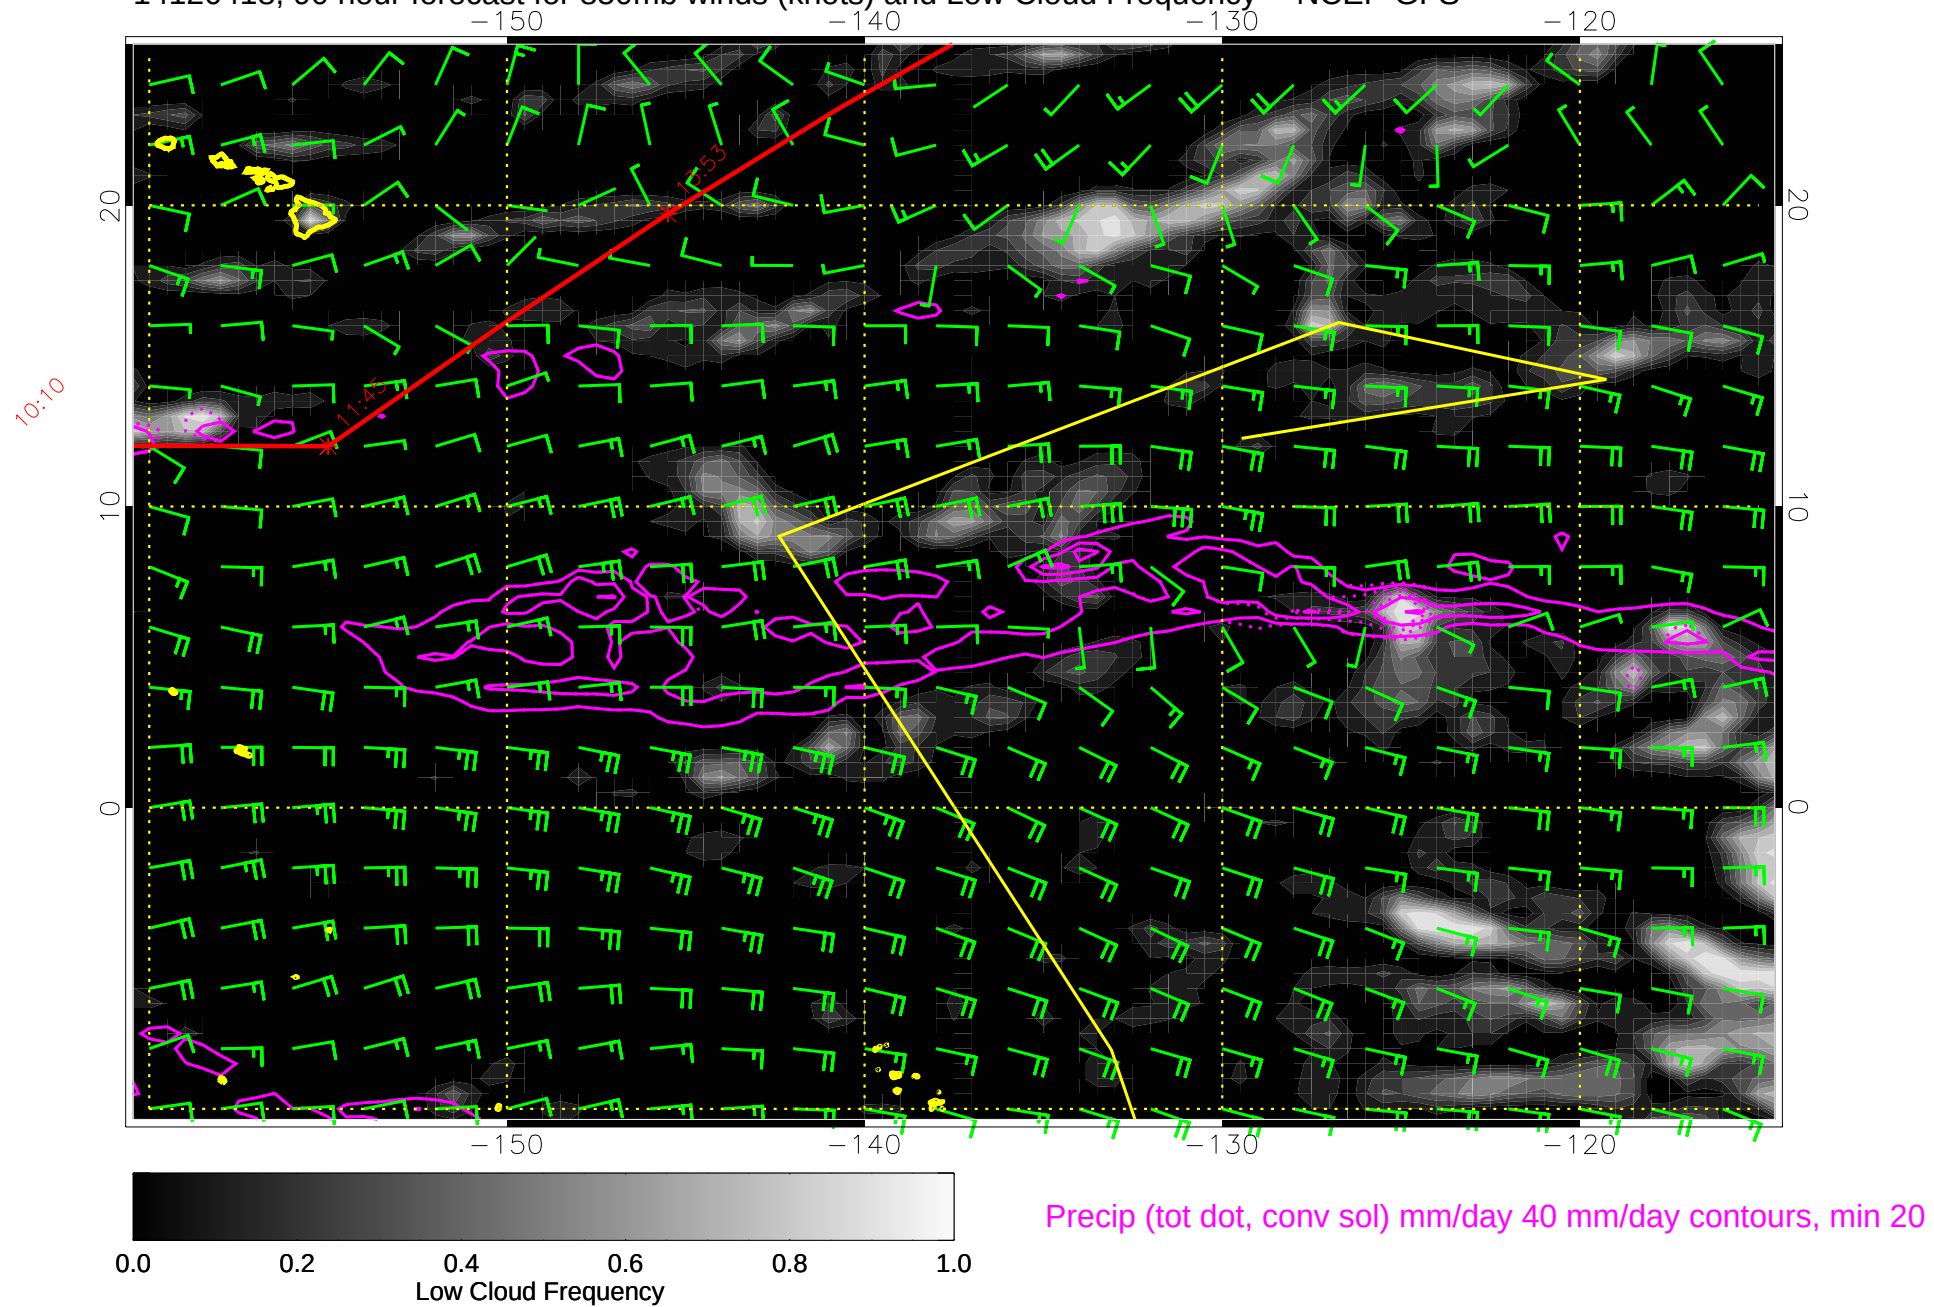

14120406, 78 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

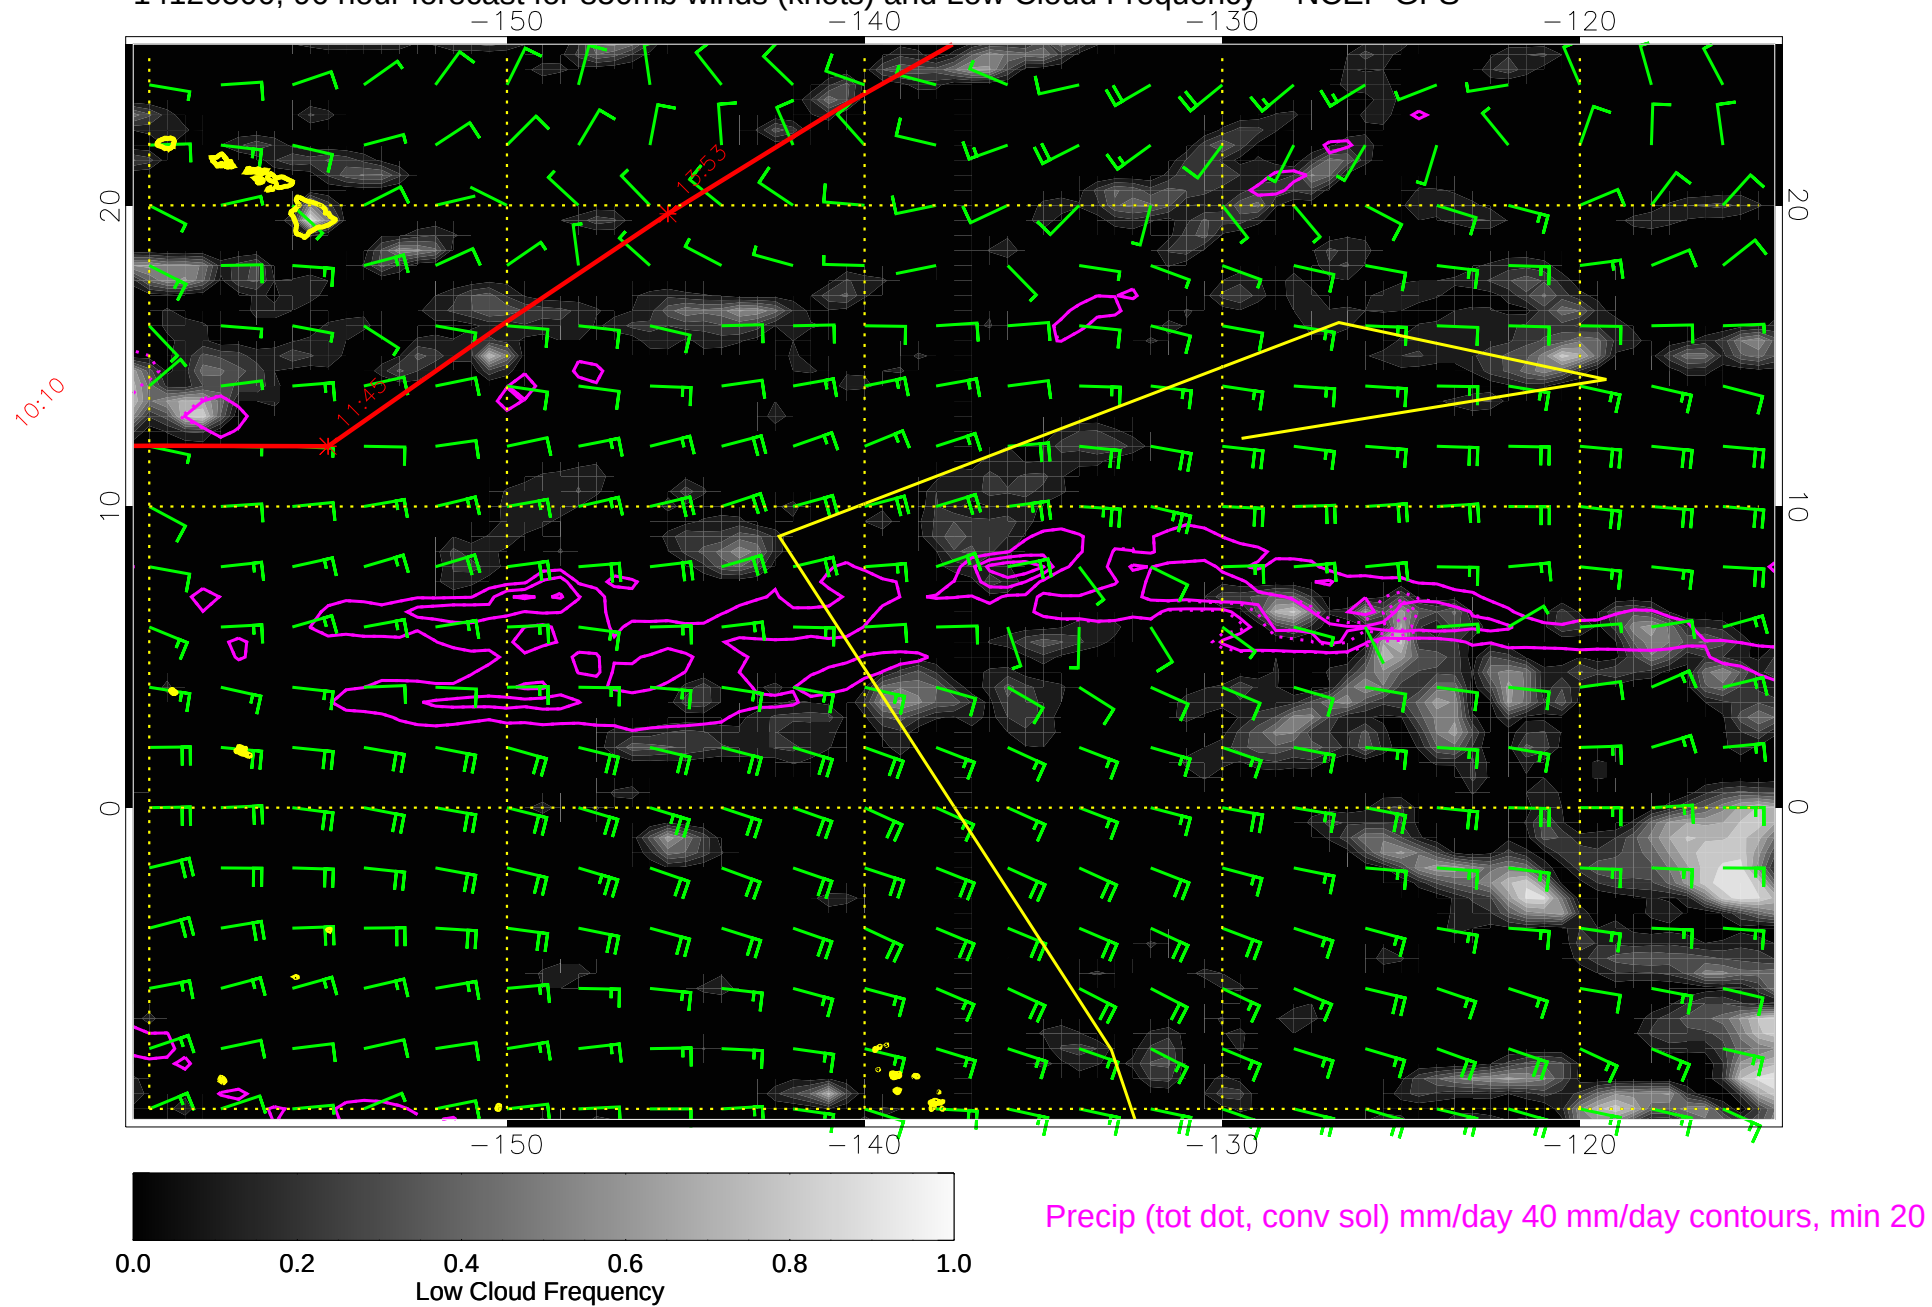

14120412, 84 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120418, 90 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

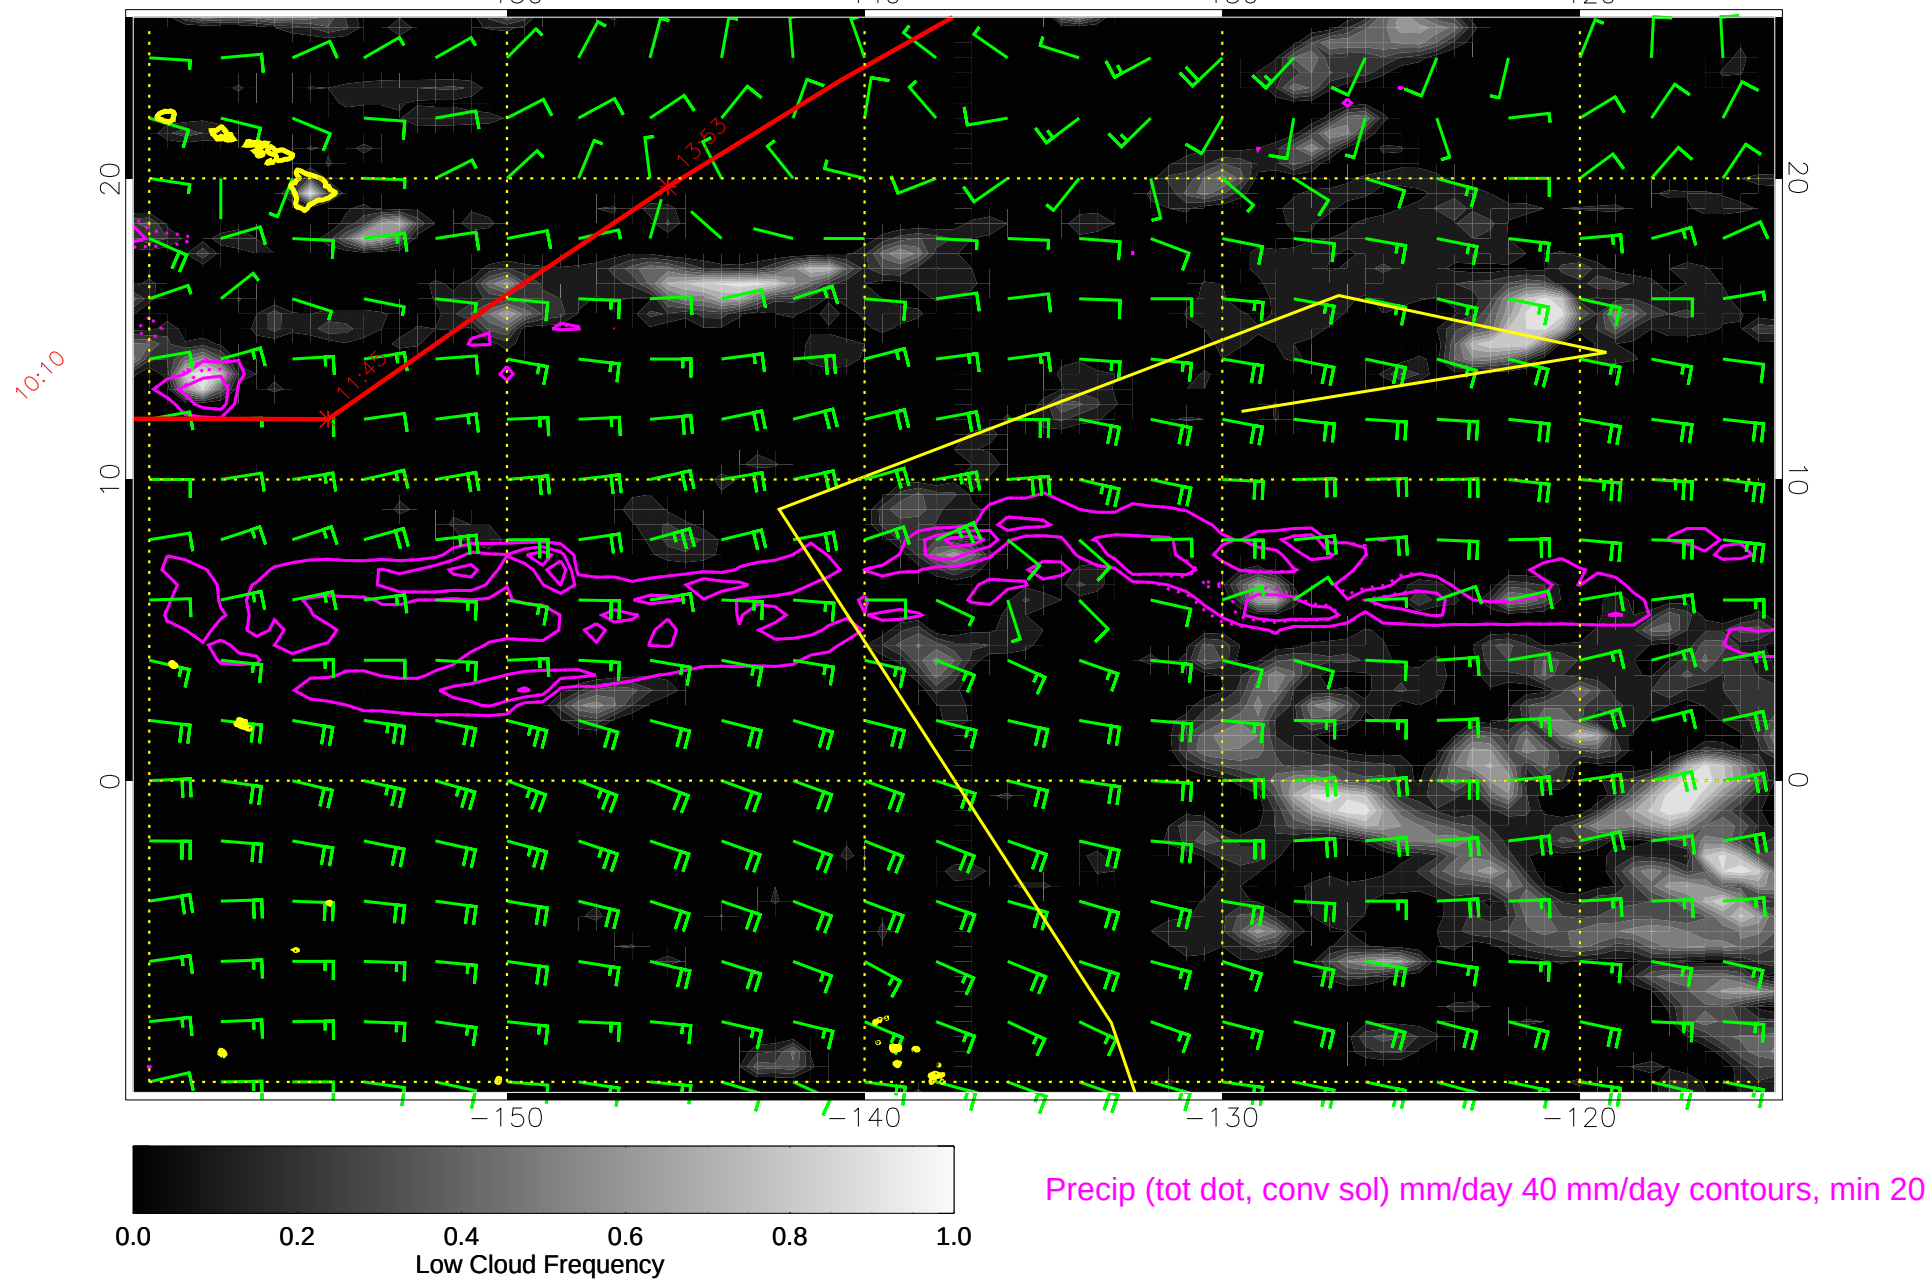

14120500, 96 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

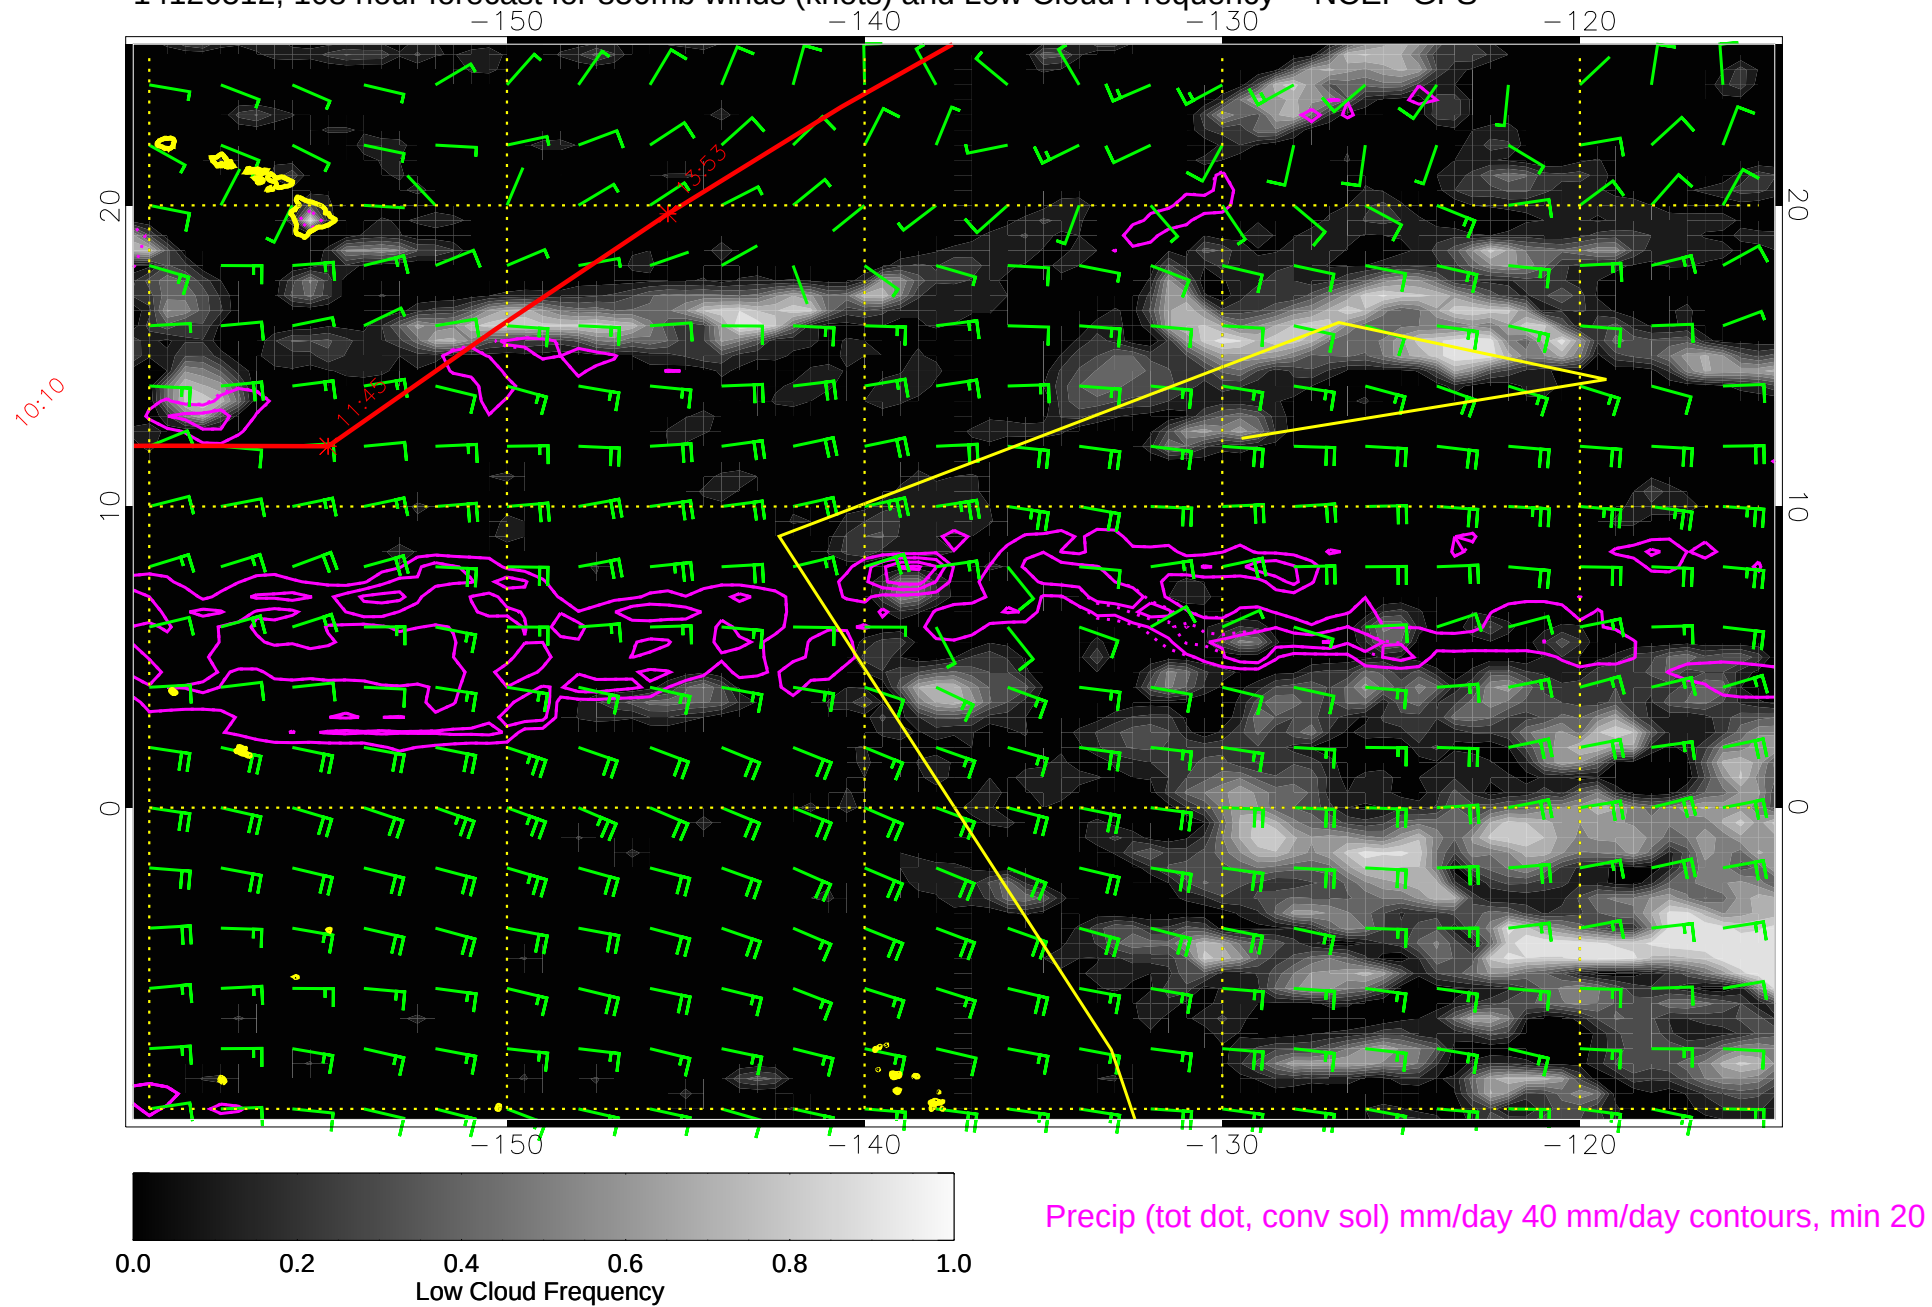

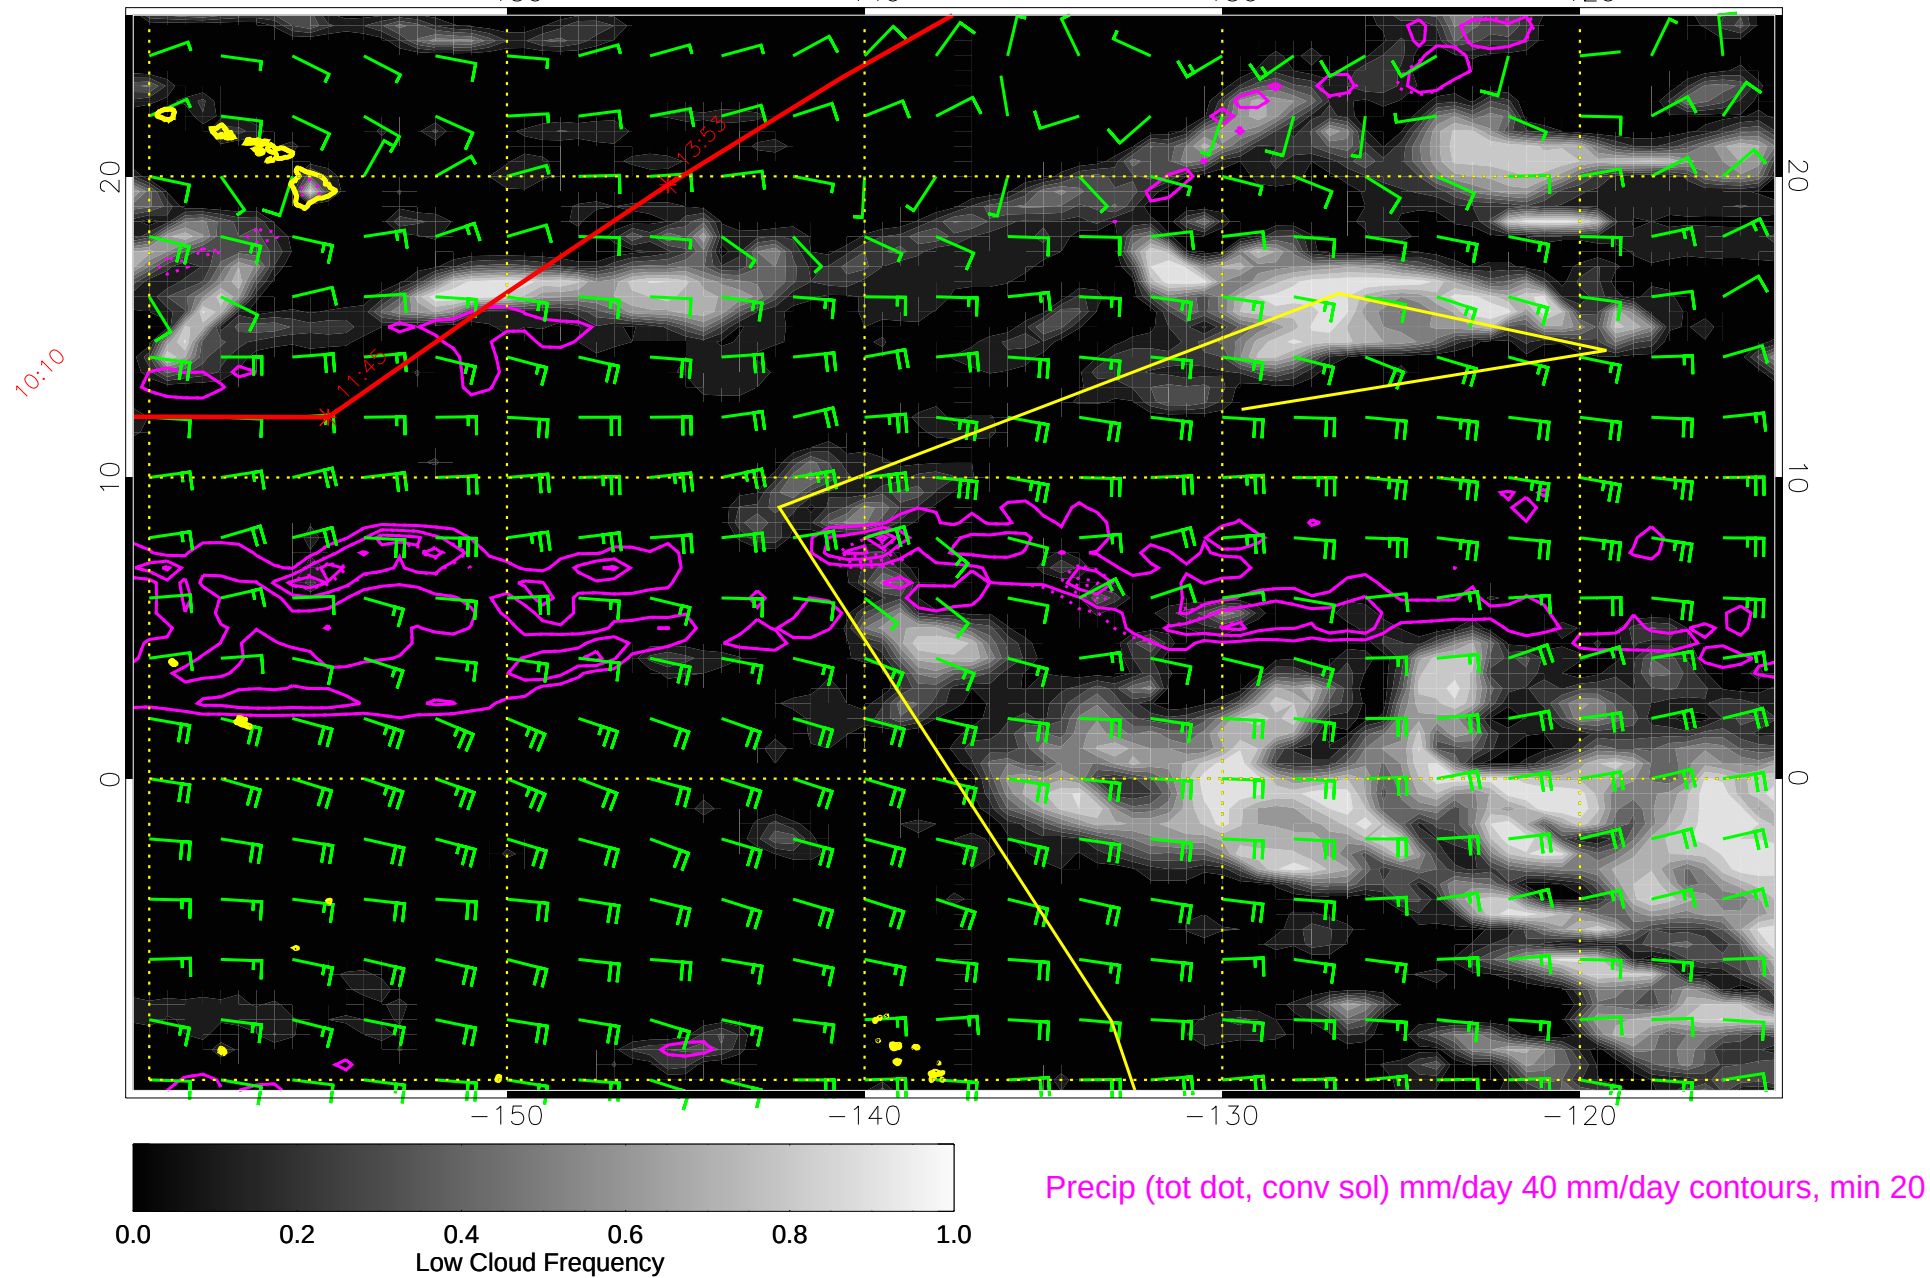

14120506, 102 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120512, 108 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120518, 114 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS

14120600, 120 hour forecast for 850mb winds (knots) and Low Cloud Frequency -- NCEP GFS
