

15010306, 6 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010312, 12 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010318, 18 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010400, 24 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010406, 30 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010412, 36 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010418, 42 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

Figure 1 is a map of the North Pacific region, showing the distribution of the first EOF mode of the SST field. The map includes a color scale from -1.5 to 1.5, a vector field of red arrows, and green contour lines. A black box highlights a region of interest in the central North Pacific.

15010506, 54 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010512, 60 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010518, 66 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010600, 72 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010606, 78 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010612, 84 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010618, 90 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010700, 96 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010706, 102 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010712, 108 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010718, 114 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS

15010800, 120 hour forecast for precip, 1000mb Z, and winds (knots) -- NCEP GFS
