Asterisks indicate locations where Trajectories intersect convection
Squares indicate location of convectively influenced air
Asterisk and square colors indicate age of convection
Trajectory colors indicate temperature along trajectory

7 day mapped trajectories for 04012918 at 48Kft (361K surf); NMC 0 hr fcst

961 Trajectories

Min, Max Traj Temps are 191.399 and 233.301
